Reproductive Technologies

Lori P. Knowles, Gregory E. Kaebnick

Reproductive Technologies:

Children of Choice John A. Robertson, 2021-05-11 Cloning genetic screening embryo freezing in vitro fertilization Norplant RU486 these are the technologies revolutionizing our reproductive landscape Through the lens of procreative liberty meaning both the freedom to decide whether or not to have children as well as the freedom to control one's reproductive capacity John Robertson a leading legal bioethicist analyzes the ethical legal and social controversies surrounding each major technology and opens up a multitude of fascinating questions Do frozen embryos have the right to be born Should parents be allowed to select offspring traits May a government force welfare recipients to take contraceptives Robertson's arguments examine the broad range of consequences of each reproductive technology and offers a timely multifaceted analysis of the competing interests at stake for patients couples doctors policymakers lawyers and ethicists

Manual of Assisted Reproductive Technologies and Clinical Embryology Lt Col Pankaj Talwar VSM, 2014-05-14 Manual of Assisted Reproductive Technologies and Clinical Embryology aims to discuss the relevance of science of reproductive biology in modern day Assisted Reproductive Technologies and their practical applications The readers can learn and master the large number of sophisticated techniques which form the backbone of the fascinating and growing field of human assisted reproduction The subject is vast and has been covered over 83 chapters All the chapters are dealt by the experts of concerned fields Principles and protocols pertaining to laboratory maintenance culture media cryofreezing of gametes embryos and genital tissues have been dealt with at length This book is an invaluable reference book for the clinicians reproductive biologists and embryologists Textbook of Assisted Reproductive Technologies David. K Gardner, Ariel Weissman, Colin M. Howles, Zeev Shoham, 2008-11-11 Textbook of Assisted Reproductive Technologies is a truly comprehensive manual for the whole team at the IVF clinic Information is presented in a highly visual manner allowing both methods and protocols to be consulted easily The text provides clinical and scientific teams with the A to Zs of setting up an embryology laboratory gives research fellows insight into technical developments and supplies seasoned professionals with a review of the latest techniques and advances New to the Third Edition fully revised and expanded chapters with new information on single embryo transfer artificial gametes pharmacogenetics **Women as Wombs** Janice G. Raymond, 1995 Annotation Renowned scholar and feminist activist Janice Raymond delivers a passionate expose and uncovers the alarming ethical legal and political implications of high tech biomedical reproductive technologies She argues that these technologies are neither liberatory nor an issue of reproductive choice Rather they violate the integrity of women's bodies perpetuate prostitution and an international trafficking in women and children and are a threat to women's basic human rights Women As Wombs is a scathing feminist analysis which contributes groundbreaking insights to the raging debate over reproductive technology **Encyclopedia Of Reproductive Technologies** Annette Burfoot, 2019-08-19 This collection of encyclopedic entries provides a broad based appreciation of new reproductive technologies that includes accessible technological

descriptions and their historical and social contexts The collection is divided into five thematic areas Theories of Reproduction Ancient to Contemporary Early Reproductive Technologies Post War De Reproductive Health and Assisted Reproductive Technologies In Sub-Saharan Africa Olanike S. Adelakun,Erebi Ndoni,2023-08-28 This book focuses on reproductive health rights and assisted reproductive technologies ART in sub Saharan Africa Each chapter is connected to the other by focusing on different aspects of ART as a means of achieving conception Topics such as regulation of ART practices surrogacy and specific aspects of ART which are gradually becoming acceptable but largely unregulated in Africa promises to be of interest to scholars researchers and fertility practitioners Research in the book take a rights based approach and ethical analysis of ART practice in sub Saharan Africa by authors from diverse backgrounds bringing together law and society perspectives Readers stand to gain new knowledge on the societal legal medical and psychological requirements effects and challenges of reproductive health rights and ART in the African context The book is also relevant to UN Sustainable Development Goal 3 Good Health and Well being given that it promotes and advocates for access to reproductive healthcare for persons who have difficulty or are unable to conceive without medical assistance **Ethical Dilemmas in Assisted Reproductive Technologies** Joseph G. Schenker,2011-08-29 Assisted reproductive technologies ART include the artificial or partially artificial methods to achieve pregnancy These new technologies lead to substantial changes regarding of ethical and legal aspects in reproductive medicine The book focuses on current hot topics about ethical dilemmas in ART e g about the duties of ethical committees guidelines regarding informed consent ethical and legal aspects of sperm donation embryo donation ethics of embryonic stem cells therapeutical cloning patenting of human genes commercialization **Healing Technology** Kathryn Strother Ratcliff,1989 Provides a framework for understanding forces that produce and promote technologies that affect women s health *Clinical Ethics at the Crossroads of Genetic and Reproductive Technologies* Sorin Hostiuc,2023-08-14 The Human Genome Project has triggered a technological revolution that has influenced nearly every field of medicine including reproductive medicine obstetrics gynecology andrology prenatal genetic testing and gene therapy This second edition of Clinical Ethics at the Crossroads of Genetic and Reproductive Technologies offers a thorough timely discussion of ethical issues raised by the latest genetic and genomic technologies applied in human reproductive and prenatal medicine providing practical recommendations guidelines and algorithms to support ethical clinical practice Here international experts consider the ethics of technologies from preconception carrier screening to genetic engineering CRISPR gene editing mitochondrial gene replacement therapy sex selection predictive testing secondary findings embryo reduction and the moral status of the embryo genetic enhancement and the sharing of genetic data Throughout the book contributors adopt a global holistic perspective on applied challenges and the moral questions around the implementation of genetic reproductive technologies The book is an ideal resource for practitioners regulators lawmakers clinical researchers genetic counselors and graduate and medical students This fully updated second

edition examines new developments in the field tackling ethical aspects of organoid development recent advances in pharmacogenomics direct to consumer genetic testing and genetic engineering Provides practical analysis of the ethical issues raised by cutting edge techniques and recent advances in prenatal and reproductive genetics Contains contributions from leading bioethicists and clinicians who offer a global holistic perspective on applied challenges and moral questions relating to genetic and genomic reproductive technology Discusses preconception carrier screening genetic engineering and the use of CRISPR gene editing mitochondrial gene replacement therapy and ethical issues among others Considers ethical aspects of recent advances and new technologies in the field from organoid development to pharmacogenomics and direct to consumer genetic testing

Tough Choices Patricia Stephenson, Marsden Wagner, 1993 In vitro fertilization IVF gamete intra fallopian transfer GIFT and other technologies of assisted conception have been heralded by the medical community and the media as the answer for infertile couples This timely collection of articles discusses medical and social options for couples facing infertility the effectiveness safety costs and benefits of the new reproductive technologies and some of the legal and ethical issues surrounding the use of these services Although now in widespread use the new reproductive technologies have not yet been fully evaluated No attempts have been made to determine the need for such services to compare their effectiveness with other therapies to restore fertility or to assess the risks associated with such treatments Since there is no agreed upon standard definition of infertility over diagnosis is often spurred by exaggerated claims of success by medical sources and the media Over treatment exposes women to unnecessary risks and has a staggering impact on national health budgets Bringing together key issues in health policy analysis this volume argues for a public health approach to infertility maintaining that far too little attention has been given to the important social ethical and legal issues involved These internationally focused essays address critical issues that have arisen from the proliferation of infertility technologies Should there be any social criteria for IVF recipients Does society have a responsibility to deal with the long term consequences of the technology What is to be done about the diversion of money resources and health professionals talents away from pressing community health needs into a high technology benefiting only a few What are the best ways to handle ethically questionable practices such as inducements to women to donate their eggs to IVF clinics and misrepresentation of success rates

The Changing World Religion Map Stanley D. Brunn, 2015-02-03 This extensive work explores the changing world of religions faiths and practices It discusses a broad range of issues and phenomena that are related to religion including nature ethics secularization gender and identity Broadening the context it studies the interrelation between religion and other fields including education business economics and law The book presents a vast array of

examples to illustrate the changes that have taken place and have led to a new world map of religions Beginning with an introduction of the concept of the changing world religion map the book first focuses on nature ethics and the environment It examines humankind s eternal search for the sacred and discusses the emergence of green religion as a theme that cuts across many faiths Next the book turns to the theme of the pilgrimage illustrated by many examples from all parts of the world In its discussion of the interrelation between religion and education it looks at the role of missionary movements It explains the relationship between religion business economics and law by means of a discussion of legal and moral frameworks and the financial and business issues of religious organizations The next part of the book explores the many new faces that are part of the religious landscape and culture of the Global North Europe Russia Australia and New Zealand the U S and Canada and the Global South Latin America Africa and Asia It does so by looking at specific population movements diasporas and the impact of globalization The volume next turns to secularization as both a phenomenon occurring in the Global religious North and as an emerging and distinguishing feature in the metropolitan cosmopolitan and gateway cities and regions in the Global South The final part of the book explores the changing world of religion in regards to gender and identity issues the political religious nexus and the new worlds associated with the virtual technologies and visual media

Intersections: Women on Law, Medicine and Technology Kerry Petersen,2019-05-23 First published in 1997 this volume explores how we live in a society which is developing beyond human experience and comprehension fast Advances in technology and medicine are profoundly affecting the manner of human living from the beginning through to the end of life These advances present exciting and demanding challenges to law makers policy makers and healthcare providers who make decisions about genetics human reproduction competence medical treatment priorities and dying They also compel us to pay attention to human rights This international collection of essays combines the thoughts and ideas of women scholars writing about these complex developments and aims at provoking debate and dissension as well as an opportunity for reflection The writers explore a range of common themes in different areas and provide a coherent framework for law and policy making to serve as a foundation for the challenges ahead Lesbian, Gay, Bisexual, Trans, Intersex, and Queer Psychology Sonja J.

Ellis,Damien W. Riggs,Elizabeth Peel,2019-09-12 An accessible engaging and comprehensive introduction to the field of lesbian gay bisexual transgender intersex and queer psychology Gendered Bodies and Sexualities Mr. Rohit Manglik,2023-01-23 In this book we will study about gendered bodies and sexualities It delves into how bodies are perceived controlled and represented within gendered contexts *Gendered bodies & Sexualities* Mr. Rohit Manglik,2024-02-14

EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels *Reproductive Technologies, Marriage and the Church* ,1988 Proceedings of the Bishops Workshop on Reproductive Technologies Marriage

and the Church held Feb 15 1988 in Dallas Tex Includes bibliographical references pages 298 308 and index Two visions of human life and procreation Christian and secular Ralph M McInerney The introduction to the Vatican instruction Janet E Smith Development of the embryo and prenatal diagnosis Patricia L Monteleone Moral claims of the human embryo John C Gallagher A scientific introduction to reproductive technologies David S McLaughlin The inseparability of the two meanings of the marriage act John M Haas Catholic moral teaching on In vitro fertilization William E May Catholic moral teaching and TOT GIFT Donald G McCarthy Pastoral approaches to infertile couples John G Quesnell Update on the AIDS epidemic Richard N Yezzo Pastoral guidelines for AIDS prevention programs Philip F Lawler Family planning today contraceptive and NFP Ronald A Prem Winning acceptance for NFP in the face of apathy and dissent Wayne and Kay Nacey Public policy recommendations William J Wagner

The Elusive Embryo Gay Becker, 2000-12-20 In the first book to examine the industry of reproductive technology from the perspective of the consumer Gay Becker scrutinizes the staggering array of medical options available to women and men with fertility problems and assesses the toll both financial and emotional that the quest for a biological child often exacts from would be parents Becker interviewed hundreds of people over a period of years their stories are presented here in their own words Absorbing informative and in many cases moving these stories address deep seated notions about gender self worth and the cultural ideal of biological parenthood Becker moves beyond people's personal experiences to examine contemporary meanings of technology and the role of consumption in modern life What emerges is a clear view of technology as culture with technology the template on which issues such as gender nature and the body are being rewritten and continuously altered The Elusive Embryo chronicles the history and development of reproductive technology and shows how global forces in consumer culture have contributed to the industry's growth Becker examines how increasing use of reproductive technology has changed ideas about natural pregnancy and birth Discussing topics such as in vitro fertilization how men and women naturalize the use of a donor and what happens when new reproductive technologies don't work Becker shows how the experience of infertility has become increasingly politicized as potential parents confront the powerful forces that shape this industry The Elusive Embryo is accessible well written and well documented It will be an invaluable resource for people using or considering new reproductive technologies as well as for social scientists and health professionals

Women, Science, and Technology Mary Weyer, Mary Barbercheck, Donna Cookmeyer, Hatice Ozturk, Marta Wayne, 2013-09-11 Women Science and Technology is an ideal reader for courses in feminist science studies This third edition fully updates its predecessor with a new introduction and twenty eight new readings that explore social constructions mediated by technologies expand the scope of feminist technoscience studies and move beyond the nature culture paradigm
