

Metaphysical Poets

John Donne, George Herbert
and Andrew Marvell

John Donne (1572-1631) – Holy Sonnet X

Death, be not proud, though some have called thee
Mighty and dreadful, for thou art not so;
For those whom thou think'st thou dost overthrow
Die not, poor Death, nor yet canst thou kill me.
From rest and sleep, which but thy pictures be,
Much pleasure: then from thee much more must flow,
And soonest our best men with thee do go,
Rest of their bones, and soul's delivery.
Thou art slave to fate, chance, kings, and desperate men,
And dost with poison, war, and sickness dwell,
And poppy or charms can make us sleep as well
And better than thy stroke; why swell'st thou then?
One short sleep past, we wake eternally
And death shall be no more; Death, thou shalt die.

A Valediction: Forbidding Mourning

As virtuous men pass mildly away,
And whisper to their souls to go,
Whilst some of their sad friends do say
The breath goes now, and some say, No:

Our two souls therefore, which are one,
Though I must go, endure not yet
A breach, but an expansion,
Like gold to airy thinness beat.

Cleanth Brooks and the Rise of Modern Criticism Mark Royden Winchell, 1996 During a career that spanned sixty years Cleanth Brooks was involved in most of the major controversies facing the humanities from the 1930s until his death in 1994 He was arguably the most important American literary critic of the mid twentieth century Because it is impossible to understand modern literary criticism apart from Cleanth Brooks or Cleanth Brooks apart from modern literary criticism Mark Royden Winchell gives us not only an account of one man's influence but also a survey of literary criticism in twentieth century America More than any other individual Brooks helped steer literary study away from historical and philological scholarship by emphasizing the autonomy of the text He applied the methods of what came to be called the New Criticism not only to the modernist works for which these methods were created but to the entire canon of English poetry from John Donne to William Butler Yeats In his many critical books especially *The Well Wrought Urn* and the textbooks he edited with Robert Penn Warren and others Brooks taught several generations of students how to read literature without prejudice or preconception *Philological Quarterly* ,1925 **The American Year Book** Albert Bushnell Hart, 1926 *Britain and Denmark* Jørgen Sevaldsen, Bo Bjørke, Claus Bjørn, 2003 Since 1815 Denmark and Britain have lived in peace with each other From the last half of the 19th century massive British imports of Danish agricultural products gave Britain a central role in the Danish economy likewise in the 20th century British efforts in the two world wars became of crucial importance to Denmark's position in relation to Germany and later the Soviet Union In the same period the emergence of English as the first foreign language in Denmark facilitated the increasingly closer human and cultural contacts between the two countries Britain and Denmark written by Danish and British historians constitutes the first attempt to provide a comprehensive picture of the roles that these two neighbouring countries have played in the lives of each other during the last two centuries They are different in size and have had very different global and regional orientations So naturally Britain has always loomed larger in Danish life and politics than the other way round In many areas however relations have been close The book covers contacts relating to trade security policies and social and political theory but also touch on mutual influences within the

areas of literature music design etc Most treatments of Danish political and cultural relations with the outside world in this period concentrate on Germany for the period up to 1945 and on the Soviet Union and the USA in the post war world In the same way works on British contemporary history rarely devote much space to relations with the Nordic countries The aim therefore of this book is to provide a supplement and perhaps corrective to the existing literature on the international positions of Britain and Denmark in the modern world
