The Avro Arrow Palmiro Campagna, 2024-02-06 No one has done more than Palmiro Campagna to document the story of Canada s extraordinary Avro Arrow This latest work sheds new light on the Arrow s fascinating saga ANDREW CHAIKIN author of A Man on the Moon An expanded edition of the bestselling book including newly discovered American records that shed further light on the disastrous cancellation of the Avro Arrow The controversial cancellation of the Avro Arrow an extraordinary achievement of Canadian military aviation continues to inspire debate today When the program was scrapped in 1959 all completed aircraft and those awaiting assembly were destroyed along with tooling and technical information Was abandoning the program the right decision Did Canada lose more than it gained Brimming with information to fill the gaps in the Arrow s troubled history this new edition also brings to light recently discovered documents that answer whether the United States government wished Canada to continue the development of what was considered the world s most advanced interceptor aircraft

Storms of Controversy Palmiro Campagna, 2010-04-22 The development of the Avro Arrow was a remarkable Canadian achievement Its mysterious cancellation in February 1959 prompted questions that have long gone unanswered What role did the Central Intelligence Agency play in the scrapping of the project Who in Canada s government was involved in that decision What if anything did Canada get in return Who ordered the blowtorching of all the prototypes And did Arrow technology find its way into the American Stealth fighter bomber program When Storms of Controversy was first published in 1992 its answers to these questions sent a shock wave across the country Using never before released documents the book exploded the myth that design flaws cost overruns or obsolescence had triggered the demise of the Arrow Now in this fully revised fourth edition complete with two new appendices the bestselling book brings readers up to date on the CF 105 Arrow the most innovative sophisticated aircraft the world had seen by the end of the 1950s
