**The Columbia Guide to South African Literature in English Since 1945** Gareth Cornwell,Dirk Kloppe,Craig Mackenzie,2010-04-13 From the outset South Africa s history has been marked by division and conflict along racial and ethnic lines From 1948 until 1994 this division was formalized in the National Party s policy of apartheid Because apartheid intruded on every aspect of private and public life South African literature was preoccupied with the politics of race and social engineering Since the release from prison of Nelson Mandela in 1990 South Africa has been a new nation in the making inspired by a nonracial idealism yet beset by poverty and violence South African writers have responded in various ways to Njabulo Ndebele s call to rediscover the ordinary The result has been a kaleidoscope of texts in which evolving cultural forms and modes of identity are rearticulated and explored An invaluable guide for general readers as well as scholars of African literary history this comprehensive text celebrates the multiple traditions and exciting future of the South African voice Although the South African Constitution of 1994 recognizes no fewer than eleven official languages English has remained the country s literary lingua franca This book offers a narrative overview of South African literary production in English from 1945 to the postapartheid present An introduction identifies the most interesting and noteworthy writing from the period Alphabetical entries provide accurate and objective information on genres and writers An appendix lists essential

authors published before 1945      *South African Literature's Russian Soul* Jeanne-Marie Jackson, 2015-10-22 How do great moments in literary traditions arise from times of intense social and political upheaval South African Literature's Russian Soul charts the interplay of narrative innovation and political isolation in two of the world's most renowned non-European literatures In this book Jeanne Marie Jackson demonstrates how Russian writing's Golden Age in the troubled nineteenth century has served as a model for South African writers both during and after apartheid Exploring these two isolated literary cultures alongside each other the book challenges the limits of global methodologies in contemporary literary studies and outdated models of center periphery relations to argue for a more locally involved scale of literary enquiry with more truly global horizons      *Apartheid and Beyond* Rita Barnard, 2012-08-01 Apartheid and Beyond offers trenchant historically sensitive readings of writings by Coetzee Gordimer Fugard Tlali Dike Magona and Mda focusing on the intimate relationship between place subjectivity and literary form It also explores the way apartheid functioned in its day to day operations as a geographical system of control exerting its power through such spatial mechanisms as residential segregation bantustans passes and prisons Throughout the study Rita Barnard provides historical context by highlighting key events such as colonial occupation the creation of black townships migration forced removals the emergence of informal settlements and the gradual integration of white cities Apartheid and Beyond is both an innovative account of an important body of politically inflected literature and an imaginative reflection on the socio spatial aspects of the transition from apartheid to democracy      *The Journal of Commonwealth Literature* , 2005 One number each year includes Annual bibliography of Commonwealth literature

**Africa** Maria Grosz-Ngaté, John H. Hanson, Patrick O'Meara, 2014-04-18 Much has changed in Africa and in African studies but one constant has been the enduring excellence of the anthology Africa International Journal of African Historical Studies Since the publication of the first edition in 1977 Africa has established itself as a leading resource for teaching business and scholarship This fourth edition has been completely revised and focuses on the dynamism and diversity of today's Africa The latest volume emphasizes contemporary culture civil and social issues art religion and the political scene and provides an overview of significant themes that bear on Africa's place in the world Historically grounded Africa provides a comprehensive view of the ways that African women and men have constructed their lives and engaged in collective activities at the local national and global levels From all indications the fourth edition of Africa should not only endure the test of time but also be found exceptionally useful by a wide spectrum of scholars including college professors and their students in general Africa Today      **Deferrals of Domain** NA NA, 2016-04-30 Contemporary female novelists tend to portray the relationship between women and the state as profoundly negative in contrast to various constructions in current feminist theory Martine Watson Brownley analyzes novels by Margaret Atwood Paule Marshall Nadine Gordimer and Margaret Drabble to explore the significance of this disparity The book uses literary analysis to highlight elements of state power that many feminist theorists currently occlude ranging from women's still minimal access to state politics to the terrifying

violence exercised by modern states At the same time however feminist theory clarifies major elements in many contemporary women s lives about which the novels are ambivalent or misleading such as romantic love and the role of sexuality in state politics *Deferrals of Domain* fills a double gap both authorial and topical in current critical treatments of women writers and will be of interest to both literary and women s studies scholars
