Rescued By Europe:

At Europe's Edge Cetta Mainwaring, 2019 This book examines clandestine migrant journeys across the Mediterranean Sea and into Europe It combines ethnographic focus with macro level analyses of EU and national migration policies and practices It draws on the case study of Malta and pushes the boundaries of our knowledge of the global politics of migration asylum and border security *Rescue of Business in Europe* Bob Wessels, Stephan Madaus, European Law

Institute, 2020-01-30 This edited volume is based on the European Law Institute's project The Rescue of Business in Insolvency Law which ran from 2013 to 2016 The project sought to investigate and articulate the essential features of well functioning procedures for the rescue of distressed but viable businesses Although the focus was primarily on the design and implementation of formal procedures that is those provided by law the project also required consideration of the interaction between such procedures and informal solutions to distress given the obvious cost advantages of the latter The ELI project was not confined exclusively to restructurings since these are only one possible route to maximising the value of a distressed but viable business an auction procedure in which the business is sold on a going concern basis to a new owner is one obvious alternative The ELI project encompasses various aspects of both public constitutional law and insolvency law that may have a bearing on the functionality of formal restructuring procedures **The War on Rescue** William

Plowright, 2024-12-15 The War on Rescue documents how governments block assistance to people in times of crisis Focusing on the European Migration Crisis of 2015-2022 to address the reasons why governments do this William Plowright discusses the strategies employed that prevent suffering people from receiving help The European Migration Crisis motivated people around the world to offer assistance to needy refugees and migrants across Europe the Mediterranean and North Africa Both large and small organizations rushed to bring food medical care and rescue to those stranded at sea However many European governments sought to prevent humanitarian assistance and deny safe haven to the desperate Boats filled with those rescued were blocked from harbors activists were arrested and staff were threatened some faced violence The War on Rescue adds to social science understanding of and explanations for humanitarian assistance and the reasons why governments obstruct rescue efforts *The European Rescue of the Nation-state* Alan S. Milward, 2000 Newly revised and

updated this second edition is the classic economic and political account of the origins of the European Community book offers a challenging interpretation of the history of the western European state and European integration **Unravelling Europe's 'Migration Crisis'** Crawley, Heaven, Duvell, Franck, Katharine Jones, Simon McMahon, Nando Sigona, 2018 The past few years have seen an unprecedented mass migration to Europe as refugees from war and poverty throughout north Africa and the Middle East have embarked on perilous journeys across the Mediterranean in the hope of being allowed to start new lives in Europe This book draws on more than five hundred firsthand accounts to reveal the human story behind the statistics and demagoguery What is it like to set out for Europe with your family knowing the dangers you face on the way Why are so

many people willing to risk their lives crossing the Mediterranean What are their hopes and fears And why is Europe one of the richest regions of the world unable to cope More than just telling a human story Heaven Crawley and colleagues provide a framework for understanding the dynamics underpinning the current wave of migration and challenging politicians policy makers and the media to rethink their understanding of why and how people move

The European Rescue of the Franco Regime, 1950-1975 Fernando Guirao,2021-01-21 The European Rescue of the Franco Regime 1950 1975 explores how the governments of the founding members of the European Coal and Steel Community and the European Economic Community acting collectively via the European Communities assisted in the consolidation of the Franco regime It explains how the Six the Nine after 1972 implemented a set of policy measures that facilitated the subsistence of the Franco regime proving that trade with the Six improved Spain s overall economic performance which in turn secured Franco s rule The Six provided the Spanish economy with a stable supply of essential raw materials and capital goods and with outlet markets for the country s main export commodities Through these mechanisms the European Communities assisted Spanish economic development and supported the stabilization of the non democratic political regime ruling Spain The Franco regime was never threatened by European integration and the Six Nine managed to isolate meaningful Community negotiations with Spain from mounting political disturbance The European Rescue of the Franco Regime 1950 1975 shows that without unremitting material assistance from Western Europe it would have been considerably more challenging for the Franco regime to attain the stability that enabled the dictator to maintain his rule until he died peacefully at 82 years old

Inventing Europe G. Delanty,1995-04-19 A critical analysis of the idea of Europe and the limits and possibilities of a European identity in the broader perspective of history This book argues that the crucial issue is the articulation of a new identity that is based on post national citizenship rather than ambivalent notions of unity

The Myth of Rescue W.D. Rubinstein,2002-01-22 It has long been argued that the Allies did little or nothing to rescue Europe s Jews Arguing that this has been consistently misinterpreted The Myth of Rescue states that few Jews who perished could have been saved by any action of the Allies In his new introduction to the paperback edition Willliam Rubinstein responds to the controversy caused by his challenging views and considers further the question of bombing Auschwitz which remains perhaps the most widely discussed alleged lost opportunity for saving Jews available to the Allies

Systems Theory and Theology Markus Locker,2011-01-01 The contributions to the collection explore the interplay between systems theory religion and theology and the symbolic expressions and philosophical foundations of these academic disciplines This endeavor is rooted in the oeuvre of the late Austrian physicist Alfred Locker 1922 2005 who firmly believed that systems theory would finally emerged some sixty years after Bertalanffy s seminal work on General System Theory as a bridge building metatheory between the sciences and religion The studies contained in this collection enter into a critical evaluation and reassessment of the dominant postulates of scientific and theological systems and their interaction including treatments of paradoxes A Locker

the inner sciences Zwick systems of meaning Krieger philosophy Murphy theology Sedmak isomorphies of religious symbols Zwick and the bridging of science and religion A Locker *The European Miracle* E. L. Jones, 1987-08-31 Why did modern states and economies develop first in the peripheral and late coming culture of Europe This historical puzzle looms behind every study of industrialization and economic development In his analytical and comparative work Eric Jones sees the economic condition forming where natural environments and political systems meet Europe's economic rise is explained as a favoured interaction between them contrasting with the frustrating pattern of their interplay in the Ottoman empire India and China For the second edition Professor Jones has added a new introduction and an updated bibliographical guide

The European Miracle Eric Lionel Jones, 2003-08-04 Why modern states and economies developed in Europe first and later in India and China The U.S. and European Recovery United States. Department of State, 1947 **European Series**, 1947 **Western European Series** United States. Department of State, 1947 Human Security and Migration in Europe's Southern Borders Susana Ferreira, 2018-12-13 This book examines the management of migratory flows in the Mediterranean within an international security perspective The intense migratory flows registered during the year 2015 and the tragedies in the Mediterranean Sea have tested the mechanisms of the Union's immigration and asylum policies and its ability to respond to humanitarian crises Moreover these flows of varying intensities and geographies represent a threat to the internal security of the EU and its member states By using Spain and Italy as case studies the author theorizes that the EU given its inability to adopt and implement a common policy to effectively manage migratory flows on its Southern border uses a deterrence strategy based on minimum common denominators Committee of European Economic Co-operation, 1947 On Wars Michael Mann, 2023-01-01 A history of wars through the ages and across the world and the irrational calculations that so often lie behind them Benjamin Franklin once said There never was a good war or a bad peace But what determines whether war or peace is chosen Award winning sociologist Michael Mann concludes that it is a handful of political leaders people with emotions and ideologies and constrained by inherited culture and institutions who undertake such decisions usually irrationally choosing war and seldom achieving their desired results Mann examines the history of war through the ages and across the globe from ancient Rome to Ukraine from imperial China to the Middle East from Japan and Europe to Latin and North America He explores the reasons groups go to war the different forms of wars how warfare has changed and how it has stayed the same and the surprising ways in which seemingly powerful countries lose wars In masterfully combining ideological economic political and military analysis Mann offers new insight into the many consequences of choosing war **Survival and Witness at Europe's Border** Karina Horsti, 2023-09-15 No detailed description available for *Survival and Witness at Europe's Border* The European Union Jonathan Olsen, Michael A.
