
The Black Middle Class as a Racial Class

Rutledge M. Dennis

About forty years ago, E. Franklin Frazier (1957) ignited an emotional and intellectual debate among black Americans, the reverberations of which have not yet abated, when he wrote a trenchant account of the psychology and sociology of the black middle class. A decade later, Martin Luther King (1967) continued Frazier's critique of this middle class by asserting that "It's time for the Negro middle class to rise up from its stool of indifference, to retreat from its flight into unreality and bring its full resources—its heart, its mind, and its checkbook to the aid of the less fortunate brother." Three years later, Nathan Hare (1970), one of Frazier's former students, entered the fray with an even more vitriolic attack on the black middle class. The issues raised, and the accusations hurled, by these scholars continue to shape the discourse surrounding the contemporary black middle class (Blackwell, 1985; Cruse, 1987; Landry, 1988; Hooks and West, 1991; Lehmann, 1991; Billingsley, 1992; Cose, 1993). Given the ideology of race in American social thought, Frazier's poignant arguments are best viewed within the context of an anomaly: the strange phenomenon of the emergence of a "middle" class in a society where race relations were predicated on white supremacy which meant, historically, centuries of preferential treatment for white Americans. Indeed, as Du Bois (1901) earlier declared, the very idea of a black middle class within a racially divided country amounts to a "double paradox" or a "paradox within a paradox."

Given the race and class parameters of the United States, any analysis of the black middle class must address, simultaneously, class as well as racial issues. The term *racial class* will be used to describe this unique situation. Viewing the class as a racial class suggests several features: that any comparisons made between it and any version of the white middle class must be carefully delimited (Early, 1994; Martin and Martin, 1978; Willie, 1979, 1991). Second, that discussions relative to race cannot be rigidly demarcated from discussions involving class.

This paper examines two dimensions of the black middle class as a racial class: its historical formation and development as a class, and its class consciousness. A delineation of these features illustrates how this class is not only different in origins from the white middle class; it also demonstrates how, and against great odds, blacks have sought to carve out niches, as much as doing so is possible, in a society which has historically devalued and undermined them.

Dennis,2005-04-08 The articles in this book are intended to be a much needed corrective to the literature on marginality In the recent past and at present the concept of marginality has been used with little specificity and when used with specificity the delineation of the complex dimensions of the term has been less than satisfactory To illustrate the many ways in which marginality exists and operates in many societies Rutledge Dennis has assembled a rich array of articles designed to highlight the history and evolution of the concept of marginality along with the theorists issues and situations which prompted the use of the term and the issues for which the term is applicable today The very title of the volume comes into play here because though many of the early marginality theorists took the term into the realm of psychology the contributors to this volume who discussed the theory highlighted the social structural foundation of marginality Dennis sought a marriage of theory and research while assembling the articles for this volume For this reason he actively sought papers which used divergent research strategies to uncover the existence of marginality in its various forms and contexts Thus some of the papers utilize ethnographic and life history approaches whereas others use statistical analysis and historical data analysis In addition to theoretical and methodological concerns a major theme for this volume is the combination of both theory and method towards an investigation of issues and problems emanate from the social structure and are closely linked to power and domination Biculturalism, Self Identity and Societal Development Rutledge M. Franklin has been established as the intellectual father of black studies. Tributes to John Hope Franklin focuses on this esteemed scholar's academic achievements, his humanitarian contributions, and his extraordinary legacy. This collection of comments by Franklin's students, colleagues, family, and friends captures the man and his work for future generations. Tributes offered by Franklin's admirers: Walter B. Hill Jr., David Levering Lewis, Alfred A. Moss Jr., Darlene Clark Hine, Loren Schweninger, Daryl Michael Scott, George M. Fredrickson, Mary Frances Berry, and many others attest to Franklin's commitment to his intellectual pursuits, to public service, and most important, to his students. Franklin's dedication to mentoring those who sought his help, as well as providing for his family, is beyond compare. In one essay, John W. Franklin offers an inside view of growing up with John Hope and Aurelia Franklin, detailing the travels and associations that were a part of his experience as their son. Alfred Moss, coauthor of the last three editions of *From Slavery to Freedom*, shares special images of Franklin as mentor to a young Anglican priest. Genna Rae McNeil shows us the quintessential teacher through the eyes of a passionate young scholar beginning her own voyage into the study of American history. George Fredrickson takes on the challenge of explaining the complexity of the work of this man who has been both a fervent proponent of racial equality and a practitioner of detached, objective, dispassionate historical scholarship. Each of the pieces, by men and by women, by blacks and by whites, by several generations of participants in the twentieth century's journey toward a better America, recalls for us what a vital role John Hope Franklin has played in that voyage. Tributes to John Hope Franklin is a joy to read and an incredible opportunity to celebrate a life and a body of historical work dedicated to achieving and sharing the wisdom that scholarly excellence provides.

The Segregated Scholars Francille Rusan Wilson, 2006. The careers Wilson considers include many of the most brilliant of their eras. She sheds new light on the interplay of the professional and political commitments of W. E. B. Du Bois, Abram L. Harris, Robert C. Weaver, Carter G. Woodson, George E. Haynes, Charles H. Wesley, R. R. Wright Jr., a succession of scholars bent on replacing myths and stereotypes regarding black labor with rigorous research and analysis.

Inequality, Crime, and Health among African American Males Marino A. Bruce, Darnell F. Hawkins, 2018-11-30. In this volume, authors draw from theoretical and methodological frameworks in the health, social, and behavioral sciences to illustrate how poor outcomes among individuals and communities can be linked to the interplay of multiple factors operating at various levels.
