MacKenzie, 2013-03-08 Despite the dire forecasts of others who had themselves edited books we proceeded with the project of an edited volume on the American prison although with more than a little trepidation We had heard the horror stories of authors turning in their chapters months or years late or never at all of publishers delaying publication dates of volumes that read more like patchwork quilts than finely loomed cloth As if to prove the others wrong our experience in editing this volume has been marvelous and we think the volume reflects this Most likely the success of our experience and of the volume stems from two elements first the professionalism and commitment of the authors themselves and second the fact that early in the life of this volume most of the authors convened for a conference to critique and coordinate the chapters This book brings together an illustrious group of criminologists and correctional scholars who wrote chapters explicitly for this volume Co hesiveness was furthered by the charge we gave to each author to 1 present the major issues 2 review the empirical research and 3 discuss the implications of this work for present and future correctional policy The goal of this project was to examine the major correctional issues facing prison systems The chapters scrutinize the issues from the

perspective of the system and the individual from theory to practical and daily management problems from legal to psychological concerns **Handbook on Punishment Decisions** Jeffery T. Ulmer, Mindy S. Bradley, 2017-10-16 Handbook on Punishment Decisions Locations of Disparity provides a comprehensive assessment of the current knowledge on sites of disparity in punishment decision making This collection of essays and reports of original research defines disparity broadly to include the intersection of race ethnicity gender age citizenship immigration status and socioeconomic status and it examines dimensions such as how pretrial or guilty plea processes shape exposure to punishment how different types of sentencing decisions and or policy structures sentencing guidelines mandatory minimums risk assessment tools might shape and condition disparity and how post sentencing decisions involving probation and parole contribute to inequalities The sixteen contributions pull together what we know and what we don't about punishment decision making and plow new ground for further advances in the field The ASC Division on Corrections Sentencing Handbook Series publishes volumes on topics ranging from violence risk assessment to specialty courts for drug users veterans or people with mental illness Each thematic volume focuses on a single topical issue that intersects with corrections and sentencing research **Monthly Catalog of United States Government Publications** ,1984 **National Academy Press ... Publications Catalog** ,1985 Caught Marie Gottschalk, 2016-02-16 A major reappraisal of crime and punishment in America The huge prison buildup of the past four decades has few defenders yet reforms to reduce the numbers of those incarcerated have been remarkably modest Meanwhile an ever widening carceral state has sprouted in the shadows extending its reach far beyond the prison gate It sunders families and communities and reworks conceptions of democracy rights and citizenship posing a formidable political and social challenge In Caught Marie Gottschalk examines why the carceral state remains so tenacious in the United States She analyzes the shortcomings of the two dominant penal reform strategies one focused on addressing racial disparities the other on seeking bipartisan race neutral solutions centered on reentry justice reinvestment and reducing recidivism With a new preface evaluating the effectiveness of recent proposals to reform mass incarceration Caught offers a bracing appraisal of the politics of penal reform *21st Century Criminology: A Reference Handbook* J. Mitchell Miller, 2009-08-06 Criminology has experienced tremendous growth over the last few decades evident in part by the widespread popularity and increased enrollment in criminology and criminal justice departments at the undergraduate and graduate levels across the U S and internationally Evolutionary paradigmatic shift has accompanied this surge in definitional disciplinary and pragmatic terms Though long identified as a leading sociological specialty area criminology has emerged as a stand alone discipline in its own right one that continues to grow and is clearly here to stay Criminology today remains inherently theoretical but is also far more applied in focus and thus more connected to the academic and practitioner concerns of criminal justice and related professional service fields Contemporary criminology is also increasingly interdisciplinary and thus features a broad variety of ideological orientations to and perspectives on the causes effects and responses to crime 21st Century Criminology

A Reference Handbook provides straightforward and definitive overviews of 100 key topics comprising traditional criminology and its modern outgrowths. The individual chapters have been designed to serve as a first look reference source for most criminological inquiries. Both connected to the sociological origins of criminology i.e. theory and research methods and the justice systems response to crime and related social problems as well as coverage of major crime types, this two volume set offers a comprehensive overview of the current state of criminology. Curricular driven chapters provide students with initial footholds on topics of interest in researching term papers in preparing for GREs in consulting to determine directions to take in pursuing a senior thesis graduate degree career etc. Comprehensive in coverage, major sections include: The Discipline of Criminology, Correlates of Crime, Theories of Crime, Justice Measurement, Research Types of Crime and Crime the Justice System. The contributor group is comprised of well known figures and emerging young scholars who provide authoritative overviews coupled with insightful discussion that will quickly familiarize researchers, students and general readers alike with fundamental and detailed information for each topic. The Changing Role of the American Prosecutor John Worrall, M. Elaine Nugent-Borakove, 2014-03-14. Leading prosecution researchers throughout the United States are brought together in this book to illuminate the new environment of prosecution in America: the prosecution of troubling and emerging crime problems, prosecutorial problem solving and community prosecution and the future of prosecution in the twenty first century. The contributors explore how American prosecutors are moving away from a traditional reactive approach to the crime problem and instead how they are developing creative problem solving strategies for dealing with crime and disorder.

Crime and Justice, Volume 42 Michael Tonry, 2013-10-06. For the American criminal justice system 1975 was a watershed year. Offender rehabilitation and individualized sentencing fell from favor. The partisan politics of law and order took over. Among the results four decades later are the world's harshest punishments and highest imprisonment rate. Policymakers' interest in what science could tell them plummeted just when scientific work on crime recidivism and the justice system began to

blossom Some policy areas sentencing gun violence drugs youth violence became evidence free zones In others developmental crime prevention policing recidivism studies evidence mattered Crime and Justice in America 1975 2025 tells how policy and knowledge did and did not interact over time and charts prospects for the future What accounts for the timing of particular issues and research advances What did science learn or reveal about crime and justice and how did that knowledge influence policy Where are we now and perhaps even more important where are we going The contributors to this volume the leading scholars in their fields bring unsurpassed breadth and depth of knowledge to bear in answering these questions They include Philip J Cook Francis T Cullen Jeffrey Fagan David Farrington Daniel S Nagin Peter Reuter Lawrence W Sherman and Franklin E Zimring For thirty five years the Crime and Justice series has provided a platform for the work of sociologists psychologists criminal lawyers justice scholars and political scientists as it explores the full range of issues concerning crime its causes and its remedies **Studies in Law, Politics, and Society** Austin Sarat, 2009-05-21 Contains a Special Issue on crime and criminal justice This title brings together the work of scholars whose work usefully illuminates central questions in about how we define and process those who violate the criminal law and about the technologies of policing and punishment **Crime File Study Guide** , **The Journal of Criminal Law & Criminology** , 1989

Malign Neglect Michael Tonry, 1995 Tonry focuses on the racial disparities in the criminal justice system especially apparent discrimination toward black males Sociology of Crime, Law and Deviance Jeffrey T. Ulmer, 2000-12-20 Volume 2 of the Sociology of Crime Law and Deviance series demonstrates methodological diversity by presenting quantitative studies ethnographies and discourse analyses Through an application of these methodologies the authors examine sanctions crime and fear legal and social control organizations and processes and theory development
