**Research Training for Social Scientists** Dawn Burton, 2000-03-15 With indispensable advice for students from all social science backgrounds this handbook provides the core conceptual and practical skills to embark on successful research. The organization of the book reflects the knowledge that is required in order to become a competent and effective researcher. It follows the life cycle of the research project: it begins with a discussion of ethical and philosophical issues, presents guides to both quantitative and qualitative data collection and analysis, provides help on using computers in research and includes advice on how to write up and present a research project. Based on the UK Economic and Social Research Council advice on the training which students should undertake in preparation for postgraduate research, this book will be invaluable for all beginning researchers.

**Knowledge Mobilisation and Social Sciences** Jon Bannister, Irene Hardill, 2016-03-17 The essays presented in this volume examine knowledge mobilisation and its relation to research impact and engagement. The social sciences matter because they can help us to understand and address the complex challenges confronting society. This is particularly true in an era of significant downward pressure on public expenditure, a consequence of the global fiscal crisis, when there is a striking need to ensure that policies are

demonstrably effective and efficient The impact agenda in the UK reflected in parallel global debates actively encourages the social sciences to make and demonstrate a difference to justify and protect social science funding This volume shows how knowledge mobilisation can be thought of systematically as a process encompassing engagement leading to the co production and channelling of knowledge to make a difference in the economy and society This book was originally published as a special issue of Contemporary Social Science      **Public Health Service Publication ,      Annual Report - Social**

Bloom,2002-05-23 A doctor can damage a patient as much with a misplaced word as with a slip of the scalpel In this statement from Lawrence J Henderson a famous physician whose name is part of the basic science of medicine epitomizes the central theme of The Word as Scalpel If words the main

substance of human relations are so potent for harm how equally powerful they can be to help if used with disciplined knowledge and understanding Nowhere does this simple truth apply more certainly than in the behavior of a physician Medical Sociology studies the full social context of health and disease the interpersonal relations social institutions and the influence of social factors on the problems of medicine Throughout its history medical sociology divides naturally into two parts the pre modern represented by various studies of health and social problems in Europe and the United States until the second World War and the modern post war period The modern period has seen rapid growth and the achievement of the full formal panoply of professionalism This engaging account documents the development of professional associations official journals and programs of financial support both private and governmental Written by a distinguished pioneer in medical sociology The Word as Scalpel is a definitive study of a relatively new but critically important field

**The Social Sciences in Canada** Donald Fisher,2006-01-01 The Social Sciences in Canada is about the background and history of the Social Science Federation of Canada in honour of its fifty years of national activity There can be little doubt that during the last fifty years the federation and its predecessors have had a substantial impact on the development of the social sciences in Canada The history of this organization is probably the best barometer that we have for recording the changes that have occurred in the relation between social scientists and Canadian society

Social Science Research Ethics for a Globalizing World Keerty Nakray,Margaret Alston,Kerri Whittenbury,2015-10-14 Research in the humanities and social sciences thrives on critical reflections that unfold with each research project not only in terms of knowledge created but in whether chosen methodologies served their purpose Ethics forms the bulwark of any social science research methodology and it requires continuous engagement and reengagement for the greater advancement of knowledge Each chapter in this book will draw from the empirical knowledge created through intensive fieldwork and provide an account of ethical questions faced by the contributors placing them in the context of contemporary debates surrounding the theory and practice of ethics The chapters have been thematically organized into five sections Feminist Ethics Cross Cultural Reflections and Its Implications for Change Researching Physical and Sexual Violence in Non Academic Settings A Need for Ethical Protocols Human Agency Reciprocity Participation and Activism Meanings for Social Science Research Ethics Emotions Conflict and Dangerous Fields Issues of Safety and Reflective Research and Social Science Education Training in Ethics or Ethical Training and Ethical Publicizing This inter disciplinary volume will interest students and researchers in academic and non academic settings in core disciplines of Anthropology Sociology Law Political Science International Relations Geography or inter disciplinary degrees in Development Studies Health Studies Public Health Policy Social Policy Health Policy Psychology Peace and Conflict studies and Gender Studies The book features a foreword by His Holiness The Dalai Lama

Documentary Research in Education, History, and the Social Sciences Gary McCulloch,2004 This up to date examination of how to research and utilise documents analyses texts from the past and present considering sources ranging from personal archives

to online documents and including books reports official documents and printed media      *Teaching Research Methods in the Social Sciences* Mark Garner, Claire Wagner, Barbara Kawulich, 2016-04-01 How can excellence in the teaching of research methods be encouraged and ensured This question has become increasingly important following the adoption of research methodology as a core part of many postgraduate and undergraduate courses There has however been little discussion about the aims and methods of teaching the subject In this volume a number of authors from a variety of countries and disciplines employ their knowledge and experience towards the development of a pedagogical culture in research methods Their aim is to establish the extent of common concerns and challenges and to demonstrate ways in which these are being met Intended to provide both a stimulus and source materials for the development of a more substantial and systematic literature in the field the book will be of great interest to all those teaching research methods courses within social science disciplines
