Research In Church And Mission:

Research in Church and Mission Viggo Sgaard, Viggo Sogaard, 1996-06-01 Research in Church and Mission is insightful practical and full of examples In the three distinctive sections of the book the author 1 imbeds his explanation of the why and how of research in a model of communication 2 shows us how research is fueled by what we need to know and 3 demands that research be driven by those who manage or carry out the communication process Missionary Methods Craig Ott, J.D. Payne, 2013-06-15 One hundred years ago Roland Allen authored his landmark study Missionary Methods St Paul's or Ours The 2012 annual conference of the Evangelical Missiological Society celebrated this centennial by addressing this ever relevant topic The present volume brings to readers insights from that conference examining the theological foundations historical precedence and practical challenges regarding missionary methods Missiologists missionary practitioners and strategic leaders alike will benefit from these essays which give fresh perspective on methods for fulfilling the Great Commission in our day **Mission in the Way of Paul** Christopher R. Little, 2005 What relevance does the Apostle Paul have for the mission of the church in the twenty first century By investigating his socioeconomic background examining his doxological orientation in mission delineating how and why he shared resources in the first century and then relating all this to what has been called the contemporary International Partnership Movement this book demonstrates that when the church engages in cross cultural mission and ignores Pauline orthopraxy it places unnecessary obstacles in the path of the missio Dei Therefore Mission in the Way of Paul Biblical Mission for the Church in the Twenty First Century is pertinent for any course devoted to learning from and implementing biblical models of mission today **Researching Practice in Mission and Ministry** Helen Cameron, Catherine Duce, 2013-11-18 This book proposes to bring together three elements for the benefit of those researching practice in ministry and mission how to design research that enables questions about practice to be answered in a theological framework how to address the methodological and epistemological issues that arise in relating empirical research to theology how to manage a piece of research as a project alongside other responsibilities Students in PT mostly rely on research methods books written for social science students which tend to assume that the student is young and full time This book will act as a companion to student and supervisor needing to bring all three elements listed above together **Research in Church and Mission** Viggo Sogaard, 1996 *Church and Mission in the Context of War* Eraston Kambale Kighoma, 2021-06-16 The church in the Democratic Republic of Congo is no stranger to conflict yet little research has been done on the impact of war in shaping the local church's understanding of itself and its mission In this in depth study Dr Eraston Kambale Kighoma traces the survival and theological development of the Baptist Church in Central Africa over a twenty year period of conflict Utilizing a combination of descriptive contextual and integrative approaches he examines the effect of war on the church's theology in action especially its understanding and practice of mission This study sheds new light on existing theories of missions while offering specific insight into the church's

missionary task in contexts of conflict It offers an excellent addition to missiological studies for scholars and practitioners alike

The Church in Mission Betril Ekstrom, 2016-06-01 What does it mean today to be a church totally committed to the gospel and fully engaged in God's mission What major religious and sociological trends in our world are affecting the role of the global church and local churches How must we understand and be prepared to face these trends How do we define church in the twenty first century being faithful to the Scriptures and at the same time relevant to a generation that does not believe in the institutional church anymore What are some good models of missional churches in different regions of the world that will encourage and inspire those who long to see a church making difference in society and in the world These are some of the issues that the book you are holding in your hands addresses There are certainly no final answers and magical forms rather we present a broad and deep discussion on how the gospel should be lived out by Jesus followers in our time and through our communities Questions are raised and analyzed both from the perspective of a local church as well as from a global and general understanding of the Christian church Some of our examples will focus more on local realities others more on global challenges The first part of the book is dedicated to a biblical and theological reflection on gospel church and mission It includes Old and New Testament studies on the theological implications of being church based on the biblical narrative The second part deals with a variety of contemporary missiological issues related to the broader theme of church and mission Different perspectives from current discussions and dialogues around the globe are included covering both ideological reflections and practical aspects of being a mission shaped church The third part presents regional and national case studies that show the enormous creativity in church planting and engagement of local communities in their own societies Models applied in the secularized Europe are contrasted to ways of functioning as church in fast growing congregations in the global South

Paul's Understanding of the Church's Mission Robert Lewis Plummer, 2006 This book engages in a careful study of Paul's letters to determine if the

apostle expected the communities to which he wrote to engage in missionary activity It helpfully summarizes the discussion on this debated issue judiciously handling contested texts and provides a way forward in addressing this critical question While admitting that Paul rarely explicitly commands the communities he founded to evangelize Plummer amasses significant incidental data to provide a convincing case that Paul did indeed expect his churches to engage in mission activity Throughout the study Plummer progressively builds a theological basis for the church's mission that is both distinctively Pauline and compelling *Research in Church and Mission* Viggo Sogaard,1996-12-01
