# Making the Case for Trauma-Informed Practice in Therapeutic Recreation

Colleen Deyell Hood

**Abstract**

Therapeutic recreation (TR) is a profession that supports individuals with illnesses, disabilities, and other limiting conditions to increase their health, well-being, and quality of life (Canadian Therapeutic Recreation Association, n.d.; Carruthers & Hood, 2007; Stumbo & Peterson, 2021; Therapeutic Recreation Ontario, 2016). Most professionals, when conceptualizing TR interventions for clients, consider (a) the barriers that prevent meaningful engagement in leisure, (b) the challenges presented by their diagnosis or limitation related to well-being, and c) the resources that might be helpful to clients as they begin to move toward greater well-being. The purpose of this article is to invite TR professionals to consider the implications of adversity, specifically experiences of trauma, on clients and on their ability to engage fully with TR interventions and achieve greater well-being. Adversity has the potential to impact clients' ability to live as well as possible with whatever challenges or limitations they have and/or to make the changes necessary to create a meaningful life (Janoff-Bulman, 1992; Park, 2012). An understanding of clients' experiences of adversity will shape the way TR professionals work with clients and enhance the outcomes of service. Considering these issues will help to make TR interventions more effective. As such, this article will examine definitions of adversity and trauma, the effects of adversity and trauma on clients, and offer suggestions for trauma-informed TR practices.

**Recreational Therapy** David R. Austin, Michael E. Crawford, Bryan P. McCormick, Marieke Van Puymbroeck, 2015 The editors goal in preparing the fourth edition of this introductory textbook was to provide a book that would clearly define the essence of recreational therapy as a health care profession Thus the book is focused on the purposeful use of recreation and leisure as interventions to enhance the health and well being of clients whom recreational therapists serve To emphasise this goal the title used for this edition has been changed from Therapeutic Recreation An Introduction to Recreational Therapy An Introduction To accomplish their goal the editors called upon leading

authors to join them in writing chapters for this edition Readers will notice that the list of authors includes some of the best known experts in the profession and some of the rising stars of recreational therapy Each author brings his or her expertise to providing the most current information in his or her area of specialisation The contributions of each author make this fourth edition a truly unique work Readers also will notice that two new editors have agreed to collaborate with the editors of the three prior editions of the book and to author chapters in their areas of expertise Thus this new edition benefits from having the best efforts of a team of editors and authors Those reading this edition will find a continuation of the user friendly approach employed in prior editions Chapters begin with a list of learning objectives and end with a series of reading comprehension questions and a complete list of references This edition also follows the tradition of prior editions in using the same format in every chapter devoted to a specific client population This format includes a feature that has been appreciated in prior editions a case study to illustrate the concepts in each chapter A unique aspect of this edition is the inclusion of a chapter on the provision of recreational therapy for members of the military services as one of the specific client populations Finally the editors express thanks to the scores of individuals who appreciated the format and content of prior editions of the book and who encouraged them to prepare this fourth edition Hopefully this new edition will live up to their expectations and will further the practice of recreational therapy
