**Transmissions in Dance** Lesley Main, 2017-11-23 This book is a collection of essays that capture the artistic voices at play during a staging process. Situating familiar practices such as reimagining, reenactment and recreation alongside the related and often intersecting processes of transmission, translation and transformation, it features deep insights into selected dances from directors, performers and close associates of choreographers. The breadth of practice on offer illustrates the capacity of dance as a medium to adapt successfully to diverse approaches and further that there is a growing appetite amongst audiences for seeing dances from the near and far past. This study spans a century from Rudolf Laban's *Dancing Drumstick* 1913 to Robert Cohan's *Sigh* 2015 and examines works by Mary Wigman, Madge Atkinson, Natural Movement, Doris Humphrey, Martha Graham, Yvonne Rainer and Rosemary Butcher, an eclectic mix that crosses time and borders.

Bringing together key voices from a new wave of scholarship to examine recent practice and research in the field of contemporary dance, it examines the excitingly diverse range of choreographers and works that are transforming Ireland's performance landscape. The first section provides a chronologically ordered collection of critical essays to ground the reader in some of the most important issues currently at play in contemporary dance in Ireland. The second section then provides an interrogation of individual choreographers' processes. The book traces new choreographic work and trends through a broad array of topics including somatics in performance, screendance, cultural trauma, dance archives, affect studies, feminist perspectives, choreographic process, the dancer's voice, interdisciplinarity and pedagogical paradigms.

**Choreography Invisible** Anna Pakes, 2020-04-28 Dance is often considered an ephemeral art, one that disappears nearly as soon as it materializes, leaving no physical object behind. Yet some dance practice involves people trying to embody something that exists before and survives beyond their particular acts of dancing. What exactly is that thing? And how do dances continue to exist when not performed? Anna Pakes seeks to answer these and related questions in this book, drawing on analytic philosophy of art to explore the metaphysics of dance, making performance and disappearance. Focusing on Western theater dance, Pakes also traces the different ways dances have been conceptualized across time and what those historical shifts imply for the ontology of dance works.

**The Future of Museum and Gallery Design** Suzanne MacLeod,Tricia Austin,Jonathan

Hale, Oscar Ho Hing-Kay, 2018-06-18 *The Future of Museum and Gallery Design* explores new research and practice in museum design. Placing a specific emphasis on social responsibility in its broadest sense, the book emphasises the need for a greater understanding of the impact of museum design in the experiences of visitors in the manifestation of the vision and values of museums and galleries and in the shaping of civic spaces for culture in our shared social world. The chapters included in the book propose a number of innovative approaches to museum design and museum design research. Collectively, contributors plead for more open and creative ways of making museums and ask that museums recognize design as a resource to be harnessed towards a form of museum making that is culturally located and makes a significant contribution to our personal, social, environmental, and economic sustainability. Such an approach demands new ways of conceptualizing museum and gallery design, new ways of acknowledging the potential of design, and new experimental and research-led approaches to the shaping of cultural institutions internationally. *The Future of Museum and Gallery Design* should be of great interest to academics and postgraduate students in the fields of museum studies, gallery studies, and heritage studies, as well as architecture and design who are interested in understanding more about design as a resource in museums. It should also be of great interest to museum and design practitioners and museum leaders. *The Architects' Journal*, 1990

**Jonathan Burrows** Daniela Perazzo Domm, 2019-11-18 The first monograph on the work of British choreographer Jonathan Burrows, this book examines his artistic practice and poetics as articulated through his choreographic works, his writings, and his contributions to current performance debates. It considers the contexts, principles, and modalities of his choreography from his early pieces in the 1980s to his latest collaborative projects, providing detailed analyses of his dances and reflecting on his unique choreomusical partnership with composer Matteo Fargion. Known for its emphasis on gesture and humour and characterised by compositional clarity and rhythmical patterns, Burrows' artistic work takes the language of choreography to its limits and engages in a paradoxical and hence transformative relationship with dance's historical and normative structures. Exploring the ways in which Burrows and Fargion's poetics articulates movement, performative presence, and the collaborative process in a minor register, this study conceptualises the work as a politically compelling practice that destabilises major traditions from a minoritarian position.
