*Ars nova* John L. Nádas,Michael Scott Cuthbert,2017-07-05 In the early fourteenth century musicians in France and later Italy established new traditions of secular and sacred polyphony This ars nova or new art popularized by theorists such as Philippe de Vitry and Johannes de Muris was the among the first of many later movements to establish the music of the present as a clean break from the past The rich music of this period by composers such as Guillaume de Machaut and Francesco Landini is not only beautiful but also rewards deep study and analysis Yet contradictions and gaps abound in the ars nova of the fourteenth and early fifteenth centuries how do we read this music how do we perform this music what was the cultural context of these performances These problems are well met by the ingenuity of approaches and solutions found by scholars in this volume The twenty seven articles brought together reflect the broad methodological and chronological range of scholarly inquiry on the ars nova

Advanced Knowledge of the Mayan Civilization Rhandel Lopez, In the almost total isolation of the tropical lands of the Yucatán Peninsula the Maya developed a science based civilization more than 1 000 years before European explorers arrived Overlooking the emerald rainforest were their majestic skylines Architectural wonders with magnificent carvings adorned with hieroglyphic inscriptions these wonders were stunners This sophisticated urban center was the largest on Earth during the middle of the first millennium A D More than technologically stunning works of art and architecture the sprawling Maya city states were conceived to overwhelm observers with a sense

of wonder In addition to being centers of power these cities were incubators of science and technology places of learning and hubs of commercial activity that generated wealth for the kingdom After the demise of the Maya civilization these magnificent cities survived against all odds for more than a millennium Due to the innovative Maya technology employed during their construction the structures have remained intact despite environmental degradation the ravages of time natural disasters and the prying roots of the jungle These brilliant societies developed scientific advances and technological methods of discovery that were a millennium ahead of those produced by European sciences to preserve their cities It is even more impressive that these technological advances were created without the influence of outside cultures unlike in Europe Maya cities were designed and built on a grand scale with functional efficiency and artistic elegance Each city was a triumph of grace and power with its monumental palaces and temples There are no other styles of architecture like Mayan Unlike any different culture in Mesoamerica and any other world style of architecture its inventive design is alien and bizarre Where did this style originate Their art style also inspires their veneration of the cosmos and its impact on the Maya civilization s philosophy Ancient Egypt had fewer cities and pyramids than the Maya civilization which was among history s longest lived cultures More than 50 independent city states governed the Maya world spread out over 125 000 square miles
