Kipp,2017-02-23 Throughout our lives most of us have been conditioned to view the essence of our human being and the greater realm of creation itself as somehow mysterious and unknowable In many ways it seems as if we have relegated our lives to dense matter as the central focus of our identity Exploring the possible inner or metaphysical realities can provide an orientation and detail necessary for greater understanding of ourselves and the dimensional spheres of life that connect us My lifes work has included studying the underlying structures that support all physical manifestation as well as the beings that live within and work to sustain them I believe that all inner and outer life forms and entities are dimensionally connected We are continuously interacting with them unconsciously through various levels of our being the collective consciousness of humanity our planet and the celestial bodies in the universe My experience has been that the lack of awareness of our own greater being is what hinders our ability to comprehend the universe multidimensionally In my view before entering our present dense physical forms as humans we have progressed through many developmental cycles as did our Earth solar system and universe This book documents what I have learned about the universal creative process and dimensional human evolution from our source beginnings to the present I have tried to integrate the various accounts of the scientific mythological religious and metaphysical versions of cosmology cosmogenesis and cosmogony Exploring the inner realms of possible connections between humanity Earth and the cosmos has been a complex undertaking and journey into uncharted territory My research life experiences and clairvoyant perspectives regarding the dimensionality of all life are the basis for the writing of this book [The Rosicrucian Mysteries](#) Max Heindel,1916 *The Rosicrucian Philosophy in Questions and Answers* Max Heindel,1910 **The Rosicrucian Mysteries: An Elementary Exposition of Their Secret Teachings** Max Heindel,2020-03-16 In The Rosicrucian Mysteries An Elementary Exposition of Their Secret Teachings Max Heindel explores the esoteric traditions of the Rosicrucian order unveiling the intricate relationship between spiritual development and the perennial wisdom found within its teachings The text is characterized by a clear didactic style that simultaneously engages the intellectually curious and the spiritually seeking positioning itself within the broader context of early 20th century mysticism Heindel meticulously outlines the principles of Rosicrucian philosophy integrating metaphysical concepts with personal insights thus providing a

An Elementary Treatise Upon Man's Past Evolution, Present Constitution And Future Development Max Heindel, 2020-12-04 This book is written by Max Heindel the founder and Messenger of The Rosicrucian Fellowship This is a reference book of the Fellowship students and Probationers This book is also referred as Cosmo Conception or Mystic Christianity The founder of the Christian Religion stated an occult maxim when He said Whosoever shall not receive the kingdom of God as a little child shall not enter therein Mark 10 15 All occultists recognize the far reaching importance of this teaching of Christ and endeavor to live it day by day When a new philosophy is presented to the world it is met in different ways by different people One person will grasp with avidity any new philosophical effort in an endeavor to ascertain how far it supports his own ideas To such an one the philosophy itself is of minor importance Its prime value will be its vindication of HIS ideas If the work comes up to expectation in that respect he will enthusiastically adopt it and cling to it with a most unreasoning partisanship if not he will probably lay the book down in disgust and disappointment feeling as if the author had done him an injury Another adopts an attitude of skepticism as soon as he discovers that it contains something which HE has not previously read heard or originated in his own thought He would probably resent as extremely unjustified the accusation that his mental attitude is the acme of self satisfaction and intolerance such is nevertheless the case and thus he shuts his mind to any truth which may possibly be hidden in that which he off hand rejects Both these classes stand in their own light Set ideas render them impervious to rays of truth A little child is the very opposite of its elders in that respect It is not imbued with an overwhelming sense of superior knowledge nor does it feel compelled to look wise or to hide its nescience of any subject by a smile or a sneer It is frankly ignorant unfettered by preconceived opinions and therefore eminently teachable It takes everything with that beautiful attitude of trust which we have designated child like faith wherein there is not the shadow of a doubt There the child holds the teaching it receives until proven or disproven In all occult schools the pupil is first taught to forget all else when a new teaching is being given to allow neither preference nor prejudice to govern but to keep the mind in a state of calm dignified waiting As skepticism will blind us to truth in the most effective manner so this calm trustful attitude of the mind will allow the intuition or teaching from within to become aware of the truth contained in the proposition That is the only way to cultivate an absolutely certain perception of truth The pupil is not required to believe off hand that a given object which he has observed to be white is

really black when such a statement is made to him but he must cultivate an attitude of mind which believeth all things as possible That will allow him to put by for the time being even what are generally considered established facts and investigate if perchance there be another viewpoint hitherto unobserved by him whence the object referred to would appear black Indeed he would not allow himself to look upon anything as an established fact for he realizes thoroughly the importance of keeping his mind in the fluidal state of adaptability which characterizes the little child He realizes in every fiber of his being that now we see through a glass darkly and Ajax like he is ever on the alert yearning for Light more Light The enormous advantage of such an attitude of mind when investigating any given subject object or idea must be apparent
