suffice his opponent labored day and night to achieve that end Washington's brilliance was on display as he skillfully constricted Cornwallis's position by digging entrenchments erecting redoubts and artillery batteries and launching well timed attacks to capture key enemy positions The nearly flawless Allied campaign sealed Cornwallis's fate Trapped inside crumbling defenses he surrendered on October 19 1781 effectively ending the war in North America Penned by historian Jerome A Greene *The Guns of Independence The Siege of Yorktown 1781* offers a complete and balanced examination of the siege and the participants involved Greene's study is based upon extensive archival research and firsthand archaeological investigation of the battlefield This fresh and invigorating study will satisfy everyone interested in American Revolutionary history artillery siege tactics and brilliant leadership
