**Roundtable** Dianne Draze,1986-06-01 *El-Hi Textbooks & Serials in Print, 2005* ,2005 *El-Hi Textbooks & Serials in Print, 2000* ,2000 **Developing Effective Policies for HIV/AIDS Education practice in Sub Saharan Africa: The Case of Urban Schools of Malawi: A synergy of pupils needs, policies and practice** Paul Makochi,2014-11 HIV AIDS has been named the Sub Saharan disease In countries that have achieved significant declines in HIV prevalence young people have registered the biggest behavioural changes It means they hold the keys not only to our understanding of the epidemic but more importantly to the efforts required to stem the tide of infections However the majority of young people are ignorant of how to prevent transmission have low compliance to condom use which is in some cases accentuated by misconceptions about HIV AIDS transmission and have insufficient knowledge regarding transmission and avoidance behaviours As such consensus on feasible preventive interventions target young people particularly those in schools It is on this premise that the book unlocks the key pillars in effective HIV AIDS education policies and practices The study has drawn upon the experiences of selected Urban Schools in Malawi to explore the needs of young people in classroom the extent to which the classroom practices respond to the needs and the factors influencing these using questionnaires interviews lesson observations and document analysis Malawi typically represents most Sub Saharan African countries in terms of challenges faced by education systems Given the similar cultural settings of the people of Sub Saharan Africa the findings and recommendations of the study generalises to the education systems of Sub Saharan Africa to a greater extent The book shows the need for open discussion climates on HIV AIDS issues despite a conservative cultural and religious adult world that is not open It has also identified a need for explicit and accurate knowledge on HIV AIDS issues opportunities to acquire behavioural skills for HIV prevention and involvement of external speakers in classroom HIV AIDS education Current classroom practice does not address the pupils needs adequately Factors influencing this can be linked to lack of policies responsive to culture and religion ineffective and inadequate teaching policy guidelines and lack of a policy prioritising HIV AIDS education The findings suggest that in future effective HIV AIDS Education needs to be informed by the pupils needs To address these needs support from the wider society and related policies coupled with appropriate management and classroom practice will be required The book is therefore an indispensable tool for education systems in Sub Saharan Africa It provides an effective model for the development of effective HIV AIDS policies and practices in HIV AIDS education curricula **Social-Cognitive Development in Context** Felicisima C. Serafica,2015-06-19 The relationship between the cognitive and social spheres of human functioning and their context has long been regarded by social and behavioural scientists as a central theoretical issue By the early 1980s a number of empirical studies had further elucidated the nature of this relationship but no attempt had been made to present a coherent picture of the research and developments in this increasingly popular area of study Originally published in 1982 the topics covered in this book filled the gap admirably They

present a view of the development of aspects of the self and of self other relations and how these two lines of development interact within a given context All the contributions attempt to portray the child s developing awareness of the self in relation to the social world but all consider it from different perspectives and in varying degrees of detail This useful collection by a number of well known contributors should still be of great value to students of developmental and social psychology

*Organization Development Interventions* William J. Rothwell, Sohel M. Imroz, Behnam Bakhshandeh, 2021-09-02 To effectively adapt and thrive in today s business world organizations need to implement effective organizational development OD interventions to improve performance and effectiveness at the individual group and organizational levels OD interventions involve people trust support shared power conflict resolution and stakeholders participation just to name a few OD interventions usually have broader scope and can affect the whole organization OD practitioners or change agents must have a solid understanding of different OD interventions to select the most appropriate one to fulfill the client s needs There is limited precise information or research about how to design OD interventions or how they can be expected to interact with organizational conditions to achieve specific results This book offers OD practitioners and change agents a step by step approach to implementing OD interventions and includes example cases practical tools and guidelines for different OD interventions It is noteworthy that roughly 65% of organizational change projects fail One reason for the failure is that the changes are not effectively implemented and this book focuses on how to successfully implement organizational changes Designed for use by OD practitioners management and human resources professionals this book provides readers with OD basic principles practices and skills by featuring illustrative case studies and useful tools This book shows how OD professionals can actually get work done and what the step by step OD effort should be This book looks at how to choose and implement a range of interventions at different levels Unlike other books currently available on the market this book goes beyond individual group and organizational levels of OD interventions and addresses broader OD intervention efforts at industry and community levels too Essentially this book provides a practical guide for OD interventions Each chapter provides practical information about general OD interventions supplies best practice examples and case studies summarizes the results of best practices provides at least one case scenario and offers at least one relevant tool for practitioners
