Roundup of Memories Olan M. George, 1987-06-01 **Round Up the Usual Suspects** Raymond Ruble, 2008-12-30 TV shows that retain their popularity over the years do so for obvious reasons good production values good acting and compelling storylines But detective stories in particular also endure because they appeal to the gumshoe in all of us America is obsessed with crime solving Nancy Grace on CNN Headline News Greta Van Susteren on Fox and the seemingly annual recurrence of the courtroom sensation all testify to this fact And these people and cases are able to reach their phenomenal status not simply because of the media the media only demonstrates the enormous national appetite for this material Rather Cold Case CSI and Law Order have achieved their current popularity because they all respond to the same national craving for crime and do so with great skill and creativity Round Up the Usual Suspects provides a comparison of the crime fighting models and justice proceedings of each of these TV series Each series has its own special crime fighting niche and each approaches its job with a different set of values and different paradigms of discovery and proof Their separate approaches are each firmly grounded in different components of human nature analytical reasoning for instance in CSI memory in Cold Case and teamwork in Law Order After examining each of the individual series in depth Ruble goes on to investigate some of the historical antecedents in classical TV detective series such as The FBI and Dragnet It is interesting to note that these crime fighting methodologies are extensions of the way we all process information about the world Ray Ruble here aims to increase our appreciation for the ingenious manner in which fictional cases are broken and convictions convincingly secured and also illuminates the deeper human elements that lie under a more implicit spotlight in these runaway hits Montana Memories Juanell Moore, 2009-06-08 As a New York journalist Hayden Powell got caught up in a dangerous drug conspiracy His wife had committed suicide because of it and he became a wanted man He fled his notoriety changed his name and became anonymous as a ranch hand on a dude ranch in remote Montana He hadn't figured on Dana O Neal Thrust together in the confines of a few thousand acres they work hard to deny growing feelings for each other But can she be trusted with what she knows about Dow Hayden **World War II Memory and Contested Commemorations in Europe and Russia** Jennifer A. Yoder, 2024-01-01 Instrumentalization of the wartime past for political gain is the subject of this study of eleven World War II commemorations Using a comparative conceptually original approach Yoder identifies the actors who manipulate memory surrounding wartime anniversaries such as the bombing of Dresden and ceremonies to honor fallen soldiers and fascist collaborators The cases of memory contestation span three geographic regions Western Europe Eastern Europe and Russia recognizing that each developed distinctive interpretations of the war and different patterns of memory politics This empirically rich study reveals the grievances that motivate memory challengers and their strategies for shaping the commemoration discourses and rituals The memory challengers toolkit includes varieties of emotional manipulation subtle distortion revisionism and full scale denial The study finds that while there are differences in context and strategy

across cases and regions there are also areas of convergence Moreover a memory challenge in one country can spill over into others with serious consequences for foreign relations While World War II Memory and Contested Commemorations in Europe and Russia deals with debates and narratives about events in the last century its focus is on power persuasion and identity in the present [Memories of Resistance and the Holocaust on Film](#) Mercedes Camino,2018-06-09 This book investigates cinematic representations of the murder of European Jews and civilian opposition to Nazi occupation from the war up until the twenty first century The study exposes a chronology of the conflict s memorialization whose geo political alignments are demarcated by vectors of time and space or chronotopes using Mikhail Bakhtin s term Camino shows such chronotopes to be first defined by the main allies the USA USSR and UK and then subsequently expanding from the geographical and political centres of the occupation France the USSR and Poland Films from Western and Eastern Europe and the USA are treated as primary and secondary sources of the conflict These sources contribute to a sentient or emotional history that privileges affect and construct what Michel Foucault labels biopolitics These cinematic narratives which are often based on memoirs of resistance fighters like Joseph Kessel or Holocaust survivors such as Primo Levi and Wanda Jakubowska evoke the past in what Marianne Hirsch has described as post memory *Memories of Old Montana* Con Price,2023-10-25 In *Memories of Old Montana* Con Price presents a vivid tapestry of life in the American West weaving together personal anecdotes and historical reflections that capture the essence of Montana s rugged landscape and resilient community The book employs a lyrical prose style rich in detail and nostalgia while contextualizing the evolution of Montana from a frontier society to a modern state Through Price s insightful narrative readers are invited to explore the symbiotic relationship between the land and its inhabitants highlighting how geography shapes identity and culture in a region steeped in tradition and change Con Price a native Montanan draws upon a lifetime of experiences rooted in the state s history and environment His intimate knowledge of local folklore ranching life and the often overlooked struggles of rural communities informs his writing imbuing it with authenticity and passion Price s dedication to preserving the stories of those who have shaped Montana especially the voices of the marginalized is evident throughout establishing him as a vital chronicler of regional history *Memories of Old Montana* is a must read for anyone curious about the nuances of American Western life or looking for a profound exploration of place and memory Whether you are a history buff a lover of poetic narrative or simply seeking a deeper understanding of the American landscape Price s evocative recollections resonate with timeless themes that underscore the significance of memory and heritage [Catalog of Copyright Entries](#) Library of Congress.
