The True Story of Alice B. Toklas Anna Linzie, 2006-04 In this original and intriguing study Anna Linzie examines three mid twentieth century texts never before treated as interrelated in a book length work of literary criticism Gertrude Stein's The Autobiography of Alice B. Toklas 1933 and Alice B. Toklas's The Alice B. Toklas Cook

Book 1954 and *What Is Remembered* 1963 Taking these three texts as intertexts or as an assemblage of the true story of Alice B Toklas Linzie challenges assumptions about primary authorship and singular identity that have continued to limit lesbian and feminist rereadings of autobiography as a genre and of Stein and Toklas as writers and historical figures *The True Story of Alice B Toklas* explores how the concept of autobiography as a primarily referential genre is challenged and transformed in relation to autobiographical texts written about the same person the same life but differently by different writers at different points in time The concept of one true story is deconstructed in the process as Linzie modifies Homi K Bhabha's almost the same but not quite not white for the purposes of this particular study as almost the same but not quite not straight The investigation moves simultaneously on the planes of textuality and sexuality in order to provisionally articulate a lesbian autobiographical subject in Linzie's reading of these three texts Linzie's study fills a gap in literary criticism where Stein's companion and her work have been more or less neglected conceptualizing the Stein Toklas sexual textual relationship as fundamentally reciprocal *The True Story of Alice B Toklas* provides a new critical perspective on Toklas as indispensable to Stein's literary production a cultural laborer in her own right and a writer of her own books Making a significant contribution to recent lesbian feminist reconceptualizations of the genre of autobiography this study will fascinate Stein and Toklas scholars as well as those interested in queer and autobiography studies *Radicalism, Populism, Interventionism* Sergiu Miscoiu, 2008-01-01 [Transgenerational Colonialism](#) Karel James Bouse, 2021-04-14 In *Transgenerational Colonialism* Karel James Bouse offers an alternative and holistic model for the analysis of colonialism and its effects on humanity Using the current anti colonialist struggle in Northern Ireland as a representative case study Bouse illustrates her theoretical model by tracing the onset of trauma to the eventual overcoming period evidenced by a cultural renaissance a reconstruction of collective positive identity and political self determination This book is recommended for students and scholars of psychology history political science and cultural studies as well as those interested in the cyclical nature of colonial experience *Reinventing Sound* Enrique Encabo, 2015-10-28 Recent years have witnessed a true technological revolution with a global impact upon all areas of society from entertainment to education Technology changing and evolving at increasing speed undoubtedly shapes ways of seeing the world something which requires profound reflection in terms of how reality is understood It is undeniable that in this audiovisual world music plays a leading and prominent role This is particularly notable when considering the importance of music in relation to the way it is featured on mobile devices and as manifested in terms of other communication technologies its impact on new narrative forms and the prominence of audiovisual fiction in advertising and the new ways of creating receiving and disseminating music on the Internet This book is divided into two sections New Media New Audiences and Music Cinema and Audiovisual Practices New Approaches and the sixteen essays brought together here are the work of an international group of scholars who deal with different geographical and cultural contexts One of the highlights of this volume is its interdisciplinary re-reading of a complex

phenomenon that is undoubtedly a fundamental part of contemporary culture As such this collection will be of particular interest to both scholars and non specialist readers
