Confederate Sympathies Andrew Donnelly, 2025-04-14 The archive of the Civil War era is filled with depictions of men s same sex affections and intimacies Across antebellum campaign biographies proslavery fiction published memoirs of Confederate veterans and Union prisoners of war Civil War novels newspaper accounts and the war s historiography homoerotic symbolism and narratives shaped the era s politics as well as the meaning and memory of the war The Civil War in turn shaped the development of homosexuality in the United States In a book full of surprising insights

Andrew Donnelly uncovers this deeply consequential queer history at the heart of nineteenth century national culture Donnelly s sharp analytical eye particularly focuses on the ways Northern white men imagined their relationship with white Southerners through narratives of same sex affection Assessing the cultural work of these narratives Donnelly argues that male homoeroticism enabled proslavery coalition building among antebellum Democrats fostered sympathy for the national retreat from Reconstruction and contributed to the victories of Lost Cause ideology Linking the era s political and cultural history to the history of homosexuality Donnelly reveals that male homoeroticism was not inherently radical but rather cultivated political sympathy for slavery the Confederacy and white supremacy

United States Demographics - Part A , **Warped Narratives** Melissa Kate Merry,2020-01-06 The politics of gun policy in the United States are dramatic Against the backdrop of daily gun violence which claims more than 33 000 lives per year gun control groups push for stronger regulations while gun rights groups resist infringements upon their Second Amendment rights To illuminate the dynamics of this polarized debate *Warped Narratives* examines how and why interest groups frame the gun violence problem in particular ways exploring the implication of groups framing choices for policymaking and politics Melissa K Merry argues that the gun policy arena is warped and that both gun control and gun rights organizations contribute to the distortion of the issue by focusing on atypical characters and settings in their policy narratives Gun control groups emphasize white victims child victims and mass shootings in suburban locales while gun rights groups focus on self defense shootings highlighting threats to law abiding gun owners In reality most gun deaths are the result of suicide Homicides occur disproportionately in urban areas mainly affecting racial minorities While warping makes political sense in the short term it may lead to negative long term consequences including constraints on groups ability to build broad based coalitions and to reduce prospects for compromise To demonstrate warping Merry analyzes nearly 67 000 communications by 15 national gun policy groups between 2000 and 2017 collected from blogs emails
