Royal Farmers:

The Farmer's almanac and calendar: by C.W. Johnson and W. Shaw Cuthbert William Johnson,1844 **The Farmer's Almanac and Calendar** Cuthbert William Johnson,William Shaw,1844 **Royal Farmers** Ralph Whitlock,1980

The Journal of the Royal Agriculture Society of England Anonymous,2025-08-05 Reprint of the original first published in 1860 The Antigonos publishing house specialises in the publication of reprints of historical books We make sure that these works are made available to the public in good condition in order to preserve their cultural heritage *Land and Power in Ptolemaic Egypt* J. G. Manning,2003-05-29 This history of land tenure under the Ptolemies explores the relationship between the new Ptolemaic state and the ancient traditions of landholding and tenure Departing from the traditional emphasis on the Fayyum it offers a coherent framework for understanding the structure of the Ptolemaic state and thus of the economy as a whole Drawing on both Greek and demotic papyri as well as hieroglyphic inscriptions and theories taken from the social sciences Professor Manning argues that the traditional central state despotic model of the Egyptian economy is insufficient The result is a subtler picture of the complex relationship between the demands of the new state and the ancient locally organized social structure of Egypt By revealing the dynamics between central and local power in Egypt the book shows that Ptolemaic economic power ultimately shaped Roman Egyptian social and economic institutions The Farmer's Magazine,1870 Slater's, late Pigot & co., royal national and commercial directory and topography of the counties of Bedfordshire, Berkshire Isaac Slater,1852 Jesus in Context Bruce D. Chilton,Craig A. Evans,2018-12-10 The Proclamation of Jesus seeks to place Jesus in the context of first century Palestinian Judaism The authors hope to discern the essence of his preaching his concept of the kingdom of God and the place of purity in his teaching and activities Better methods for assessing not simply the authenticity of reported sayings and deeds but for tracing the development of tradition are considered The authors are convinced that most of the Synoptic tradition is authentic but that much of it has been reinterpreted and recontextualized Herein lies the real challenge for those investigating the historical Jesus The Proclamation of Jesus opens up new avenues of study and makes new proposals for understanding Jesus in the context of his place and time Slater's (late Pigot & Co.'s) Royal National Commercial Directory and Topography of Scotland Isaac Slater,1860 Similarity in Difference Christer Lundh,Satomi Kurosu,2014-12-05 A study of marriage in preindustrial Europe and Asia that goes beyond the Malthusian East West dichotomy to find variation within regions and commonality across regions Since Malthus an East West dichotomy has been used to characterize marriage behavior in Asia and Europe Marriages in Asia were said to be early and universal in Europe late and non universal In Europe marriages were supposed to be the result of individual choices but in Asia decided by families and communities This book challenges this binary taxonomy of marriage patterns and family systems Drawing on richer and more nuanced data the authors compare the interpretations based on aggregate demographic patterns with studies of individual actions in local populations Doing so they are able to analyze simultaneously the influence on marriage

decisions of individual demographic features socioeconomic status and composition of the household and local conditions and the interactions of these variables They find differences between East and West but also variation within regions and commonality across regions The book studies local populations in Sweden Belgium Italy Japan and China Rather than a simple comparison of aggregate marriage patterns it examines marriage outcomes and determinants of local populations in different countries using similar data and methods The authors first present the results of comparative analyses of first marriage and remarriage and then offer chapters each of which is devoted to the results from a specific country Similarity in Difference is the third in a prizewinning series on the demographic history of Eurasia following Life under Pressure 2004 and Prudence and Pressure 2009 both published by the MIT Press *From the Ptolemies to the Romans* Andrew

challenge the view that these forms of conflict are specifically modern phenomena by offering an historical perspective that exposes readers to the ways insurgency movements and terror tactics were common elements of conflict in antiquity. Assembling original research on insurgency and terrorism in various regions including the Ancient Near East, Greece, Central Asia, Persia, Egypt, Judea, and the Roman Empire, they provide a deep historical context for understanding these terms, demonstrate the usefulness of insurgency and terrorism as concepts for analysing ancient Mediterranean behavior, and point the way toward future research.
