Markus Kornprobst

Long Presidency France In The Mitterrand Years 1981 1995:

The Long Presidency Julius W Friend, 2018-02-07 A balanced yet critical review of Mitterrand's fourteen year presidency Friend has crowned a long career as an expert on French politics with this astute analysis and assessment of a decisive chapter in the history of French Socialism This is contemporary history at its best Richard Kuisel SUNY Stony Brook An intelligent and highly readable account of the Mitterrand years that Friend argues have changed the political landscape of France A very good example of instant history Fritz Stern Foreign Affairs In this informed and balanced treatment of recent French history Julius Friend analyzes the changes successes and failures in the long and checkered record of the former French president Francois Mitterrand Extensive interviews with French politicians and intellectuals complement his original research Mitterrand was in office longer than any other democratic president but Friend asks us to consider the legacy of such a term Elected in 1981 on a platform of radical reorganization of the French economy and society Mitterrand was compelled to change policy within two years Conventional austerity replaced socialist measures and his second term was spotted by scandal and weakened by illness The Mitterrand era saw the end of French hopes to be first among equals in Western Europe instead Mitterrand inaugurated a partnership with unified Germany in the European Union *François Mitterrand* Ronald Tiersky, 2003 Tiersky examines the three major themes of Mitterrand's presidency socialism national reconciliation and the reconstruction of Europe and shows that on each count Mitterrand left a decisive mark **Western Europe 2003** Europa Publications, 2002-11-30 This edition brings together analyses statistics and directory data on the countries and territories of Western Europe The Human Tradition in Modern France K. Steven Vincent, Alison Klairmont-Lingo, 2000-10-01 The Human Tradition in Modern France gives a human perspective of the history of France from 1789 to the present revealed in essays that highlight individuals and intriguing events that too often have been lost under labels and statistics Students will gain an understanding of the humor and passion in French history from these new original essays by well established scholars This collection also relates the individuals events and controversies to current historiographical debates The Human Tradition in Modern France is an excellent supplementary text for courses on French history and is also useful for courses in world history and Western Civilization *The Extreme Right in France* James Shields, 2007-05-07 As well as providing a detailed biography of Le Pen the leader of the National Front in France this book also explores the wider development of the extreme right as a significant intellectual and political force within France

France 1815-2003: Modern History For Modern Languages Martin Evans, 2014-02-04 Written in an accessible style and assuming no prior knowledge the books in this series address the specific needs of students in language courses France 1815 2003 focuses on the main events in French political history including major socio economic themes when relevant The book will be supplemented by a specialized website that will include links interviews with key historians and further documents Co-Managing International Crises Markus Kornprobst, 2019-04-25 How do states succeed or fail in managing

crises together Kornprobst examines the structures and processes of cross national crisis co management **Europe Today** Ronald Tiersky,Erik Jones,2007 This book offers a set of both country case studies and analysis of the European Union The contributors an authoritative group of Americans and Europeans explore the new Europe West and East using intertwining themes of domestic politics European integration and European security Each chapter provides a foundation of basic political information and explanation enhanced by distinctive and informed perspectives on current issues Now in its third edition it presents an up to date and thoughtful treatment on the war in Iraq debates over NATO s evolving role U S European relations enlargement issues and the challenges of terrorism in a European context All chapters have been thoroughly revised and completely new chapters have been added on France Great Britain Russia Central and Eastern Europe EU law and terrorism With its strong international emphasis and focus on Europe before and after Iraq this book leads readers toward a coherent view of intra European conflicts Europe and the United States and Europe s international responsibilities

Ruling by Statute Sebastian M. Saiegh,2011-04-25 What are the main factors that allow presidents and prime ministers to enact policy through acts of government that carry the force of law Or simply put when does a government actually govern The theory presented in this book provides a major advance in our understanding of statutory policy making Using a combination of an original analytical framework and statistical techniques as well as historical and contemporary case studies the book demonstrates that contrary to conventional wisdom variations in legislative passage rates are the consequences of differences in uncertainty not partisan support In particular it shows that a chief executive s legislative success depends on the predictability of legislators voting behavior and whether buying votes is a feasible option From a normative standpoint the book reveals that governability is best served when the opposition has realistic chances of occasionally defeating the executive in the legislative arena *Personal Diplomacy in the EU* Roland Vogt,2016-10-04 At a time when the economic troubles and bailouts of Greece and other European economies are casting significant doubt on the future viability of the Eurozone and the EU it is crucial to examine the origins of the political will and leadership that is necessary to move the integration process forward This book makes a significant conceptual and empirical contribution by elucidating the extent to which the integration process hinges not on institutions and norms but on the relations among leaders Vogt conducts a comparative diplomatic history of three critical junctures in the process of European integration the creation of the Common Market 1955 1957 British accession 1969 1973 and the introduction of the Euro 1989 1993 He illustrates how personal diplomacy leadership constellations and the dynamics among leaders enable breakthroughs or inhibit accords He also reveals how the EU s system of top level decision making that privileges institutionalised summitry

has operated in the past and suggests in a separate chapter why it has come to atrophy and prove more dysfunctional of late

Capital Rules Rawi Abdelal, 2009-09-30 The rise of global financial markets in the last decades of the twentieth century was premised on one fundamental idea that capital ought to flow across country borders with minimal restriction and regulation Freedom for capital movements became the new orthodoxy In an intellectual legal and political history of financial globalization Rawi Abdelal shows that this was not always the case Transactions routinely executed by bankers managers and investors during the 1990s trading foreign stocks and bonds borrowing in foreign currencies had been illegal in many countries only decades and sometimes just a year or two earlier How and why did the world shift from an orthodoxy of free capital movements in 1914 to an orthodoxy of capital controls in 1944 and then back again by 1994 How have such standards of appropriate behavior been codified and transmitted internationally Contrary to conventional accounts Abdelal argues that neither the U S Treasury nor Wall Street bankers have preferred or promoted multilateral liberal rules for global finance Instead European policy makers conceived and promoted the liberal rules that compose the international financial architecture Whereas U S policy makers have tended to embrace unilateral ad hoc globalization French and European policy makers have promoted a rule based managed globalization This contest over the character of globalization continues today

The 'Long 1970s' Poul Villaume, Rasmus Mariager, Helle Porsdam, 2016-04-28 Today it is widely recognised that the long 1970s was a decisive international transition period during which traditional collective oriented socio economic interest and welfare policies were increasingly replaced by the more individually and neo liberally oriented value policies of the post industrial epoch Seen from a distance of three decades it is increasingly clear that these socio economic and socio cultural processes also found their expression at the level of national and international political power The contributors to this volume explore these processes of political cultural realignment and their social impetus in Western Europe and the Euro Atlantic area in and around the 1970s in the context of three agenda setting topics of international history of this period human rights including the impact of decolonisation East West dialogue in Europe and transnational relations and discourses Going beyond the so called Americanisation processes of the immediate postwar period this volume reclaims Europe's place and particularly that of smaller European nations in contemporary Western history demonstrating Europe's contribution to transatlantic transformation processes in political culture discourse and power during this period

France Since 1815 Martin Evans, Emmanuel Godin, 2014-01-21 Part of the Modern History for Modern Languages Series France since 1815 provides an accessible overview of the major socio political changes in France during this period Designed for area studies students studying French it presents the historical context necessary for language students to understand the complexities of contemporary French society Adopting a chronological approach it surveys nearly two hundred years of French history with events covered including The French Revolution The Bourbon Restoration The Third Republic Occupied France The Fourth Republic The Gaullist Revolution and France after 2003 This revised edition includes new material that focuses on Chirac's

second mandate Iraq war religion suburbs and the inability impossibility of carrying on with reform an assessment of the controversial Sarkozy presidency and a final chapter covering the last ten years culminating in the results of the French presidential elections in 2012 Features include clear timelines of main events and suggested topics for discussion glossary inserts throughout of key terms and concepts the use of primary documents to re create and understand the past free access to a website <http://www.port.ac.uk/special/france1815to2003> containing a wealth of complementary material Drawing on the best scholarship particular emphasis has been given to the role of political memory the contribution of women and the impact of colonialism and post colonialism The relationship between France and her European partners is analysed in greater depth and there are new sections explicitly situating France and the French within a wider transnational global perspective

Defense of the West Stanley R. Sloan, 2020-09-11 Written in a lively and readable style by the world's leading authority on the North Atlantic Treaty Organization and US European relations Defense of the West is the history of a transatlantic security relationship that has endured for over seventy years This latest edition of a classic work looks at how developments inside NATO and European Union member states affect their ability to defend against external threats while preserving Western values in the era of Trump and Brexit Sloan frankly addresses the failures and shortcomings of Western institutions and member states But the book emphasizes the continuing importance of value based transatlantic security cooperation as a vital element of the defense and foreign policies of NATO and EU member states At a time of heightened tension and political turmoil at home and abroad Stan Sloan's lucid and far sighted analysis is more necessary than ever Human Rights Brought Home Simon Halliday, Patrick Delbert Schmidt, 2004-08 This collection of essays written by a range of distinguished socio legal scholars explores human rights in domestic legal systems Fear of a Yellow Vest Planet Peter Wilkin, 2021-06-29 The Yellow Vest Gilets Jaunes protests that started in November 2018 have rocked French political culture and led critics to denounce the movement as being a threat to democracy or worse Among other things the protestors were accused of being barbarians philistines racists anti Semites and reactionaries who would destroy both France and European civilization In fact this book argues that the protests must be understood as part of a wave of protests against the extension of the market into all areas of social life that have been taking place around the world since the 1980s While the Yellow Vest protests embrace a range of actors that cut across the French political spectrum the agenda that rapidly emerged from the movement in the shape of the People's Directive shows that it is a broadly progressive protest that has articulated radical ideas and practices with a view to transforming French political culture by means of direct democracy The end goal is to be a new social order which is environmentally sustainable and built around principles of social justice In this respect its ideas and actions are a challenge to mainstream French political culture The Statesman's Yearbook 2005 B. Turner, 2017-02-07 For one hundred and forty one years The Statesman's Yearbook has been relied upon to provide accurate and comprehensive information on the current political economic and social status of every country in the world The 2005 edition is fully updated
