Collected Works Whitney Balliett, 2002-04-15 Jazz critic for The New Yorker since 1957 and the author of some fifteen books Whitney Balliett has spent a lifetime listening to and writing about jazz All first rate criticism he once wrote in a review first defines what we are confronting He could as easily have been describing his own work For nearly half a century Balliett has been telling us in his widely acclaimed pitch perfect prose what we are confronting when we listen to America's greatest and perhaps only original musical form Collected Works A Journal of Jazz 1954 2001 is a monumental achievement capturing the full range and register of the jazz scene from the very first Newport Jazz Festival to recent performances in clubs and on CDs by a rising generation of musicians Here are definitive portraits of such major figures as Duke Ellington Dizzy Gillespie Django Reinhardt Martha Raye Buddy Rich Charles Mingus Louis Armstrong Billie Holiday Art Tatum Bessie Smith and Earl Hines a list that barely scratches the surface Generations of readers have learned to listen to the music with Balliett's graceful guidance For five decades he has captured those moments during which jazz history is made Though Balliett's knowledge is an encyclopedic treasure he has always written as if he were listening for the first time Since its beginnings in New Orleans at the turn of the century jazz has been restlessly and relentlessly evolving This is an art form based on improvising experimenting shapeshifting a constant work in progress of sounds and tonal shades from swing and Dixieland through boogie woogie bebop and hard bop to the new thing free jazz abstract jazz and atonal jazz Yet in all its forms the music is forever sustained by what Balliett calls a secret emotional center an aural elixir that reveals itself when an improvised phrase or an entire solo or even a complete number catches you by surprise Balliett's celebrated essays invariably capture the so called sound of surprise and then share this sound with general readers music students jazz lovers and popular American culture buffs everywhere As The Los Angeles Times Book Review has observed Few people can write as well about anything as Balliett writes about jazz

author mourns the loss of loved ones who have left us through illness the contiguity of time or murder we all hold tight to each other and to memory as an act of keeping them alive in our hearts and actions remembrance as an act of resistance so that the circle will be unbroken But they also come together in the spirit of hope the hope that bleeds the borders between generations of Black teacher artist scholars the hope that we find in each other's joy and laughter and the hope that comes when we hear both stories of struggle and strife and stories of celebration and smile that lead to possibilities and potentialities of our collective being and becoming as a people So the authors offer stories of witness resistance and getting stories that serve as a road map from Black history and heritage to a Black futurity that is mythic and imagined but that can also be actualized and embodied now This book will be of interest to scholars students and activists in a wide range of disciplines across the social sciences and performance studies

Symbolism 2020 Rüdiger Ahrens, Florian Klaeger, Klaus Stierstorfer, 2020-12-07 This special anniversary volume of *Symbolism* explores the nexus between symbolic signification and the future from an interdisciplinary perspective How contributors ask has the future been variously rendered in symbolic terms How do symbols and symbolic reference shape our ideas of the future To what extent are symbols constitutive of futures and to what extent do they restrain communication about what is possible and the imagination of fundamental change Moreover how have symbolic practices shaped not only artistic representations of the future but also scientific attempts at forecasting and modelling it What then is the relevance of symbolism for negotiations of the future in cultural and academic production In essays ranging from literary and film studies to the philosophy of art and ecological modelling the volume seeks to lay groundwork in theorizing and historicising symbols of the future as much as the future of symbolism
