Beck, 1983 Abstract A phenomenological inquiry of the question What is the experience of the long term marriage relationship was explored in this study The theoretical foundation for the investigation incorporated concepts of existentialism phenomenology and humanistic psychology Review of the literature yielded a few studies of long term marriage and an abundance of quantitative research examining factors necessary to achieve marital satisfaction This study is a qualitative examination of sustained marriage relationships that offers a comprehensive phenomenological descriptive analysis of the themes involved therein The data was collected by means of an in depth interview with a population of fifteen couples married for over twenty years living in the northern suburbs of metropolitan Detroit Michigan The analysis of data through the process of phenomenological reduction yielded major components and basic themes of the experience of the long term marriage relationship Couples interviewed described their relationship as one which commitment to one another resulted in satisfaction personal needs which in turn deepened commitment to the sustained relationship Changes in the experience of the relationship over time led to the gradual development of oneness of being and intermittent distancing from one another during the natural ebb and flow of life s crises Additionally the long term marriage relationship involved both verbal and non verbal sharing through self disclosing communication of varying degrees and intensity A desire to remain in the marriage and work toward its enhancement and enrichment was increased by the sharing of self The building of mutual life memories was another significant aspect of a sustained marriage relationship revealed by this study These memories both joyous and painful deepened the connecting links between couples Finally the experience of long term marriage relationship involved the branching outward to create develop or touch the lives of others and to affirm and further sustain the marriage This study concluded that couples engaged in long term relationships can and do experience marital satisfaction over long periods of time contrary to results of previous empirical and qualitative research It further suggested that the experience of the long term marriage relationship warranted additional study and research

Ganong have produced a comprehensive handbook exploring the changes and challenges confronting contemporary families. The chapters written by some of the most distinguished social scientists studying families give a balanced research based analysis of some of the most contentious issues of our time. E. Mavis Hetherington, University of Virginia. This useful handbook brings together many of the most important new findings and provocative ideas about America's diverse and changing families. An excellent resource. Stephanie Coontz, author of *The Way We Really Are: Coming to Terms with America's Changing Families*. What has happened to marriage and families? What is the current state of families? Where are families headed? Where is family scholarship headed? As families face challenges today brought on by events that have changed their perception of the world, there is a need for a clear assessment of what has happened to families in the past and an examination of some data based theories about what is likely to happen in the future. *The Handbook of Contemporary Families* explores how families have changed in the last 30 years and speculates about future trends. Editors Marilyn Coleman and Lawrence H. Ganong, along with a multidisciplinary group of contributors, critique the approaches used to study relationships and families while suggesting modern approaches for the new millennium. The Handbook looks at how changes within the contemporary family have been reflected in family law, family education, and family therapy. Features of this Handbook: Examines a diverse array of families and relationships in which people live, including chapters on alternative lifestyles, gay and lesbian relationships, economically distressed families, religion, and families; racial and ethnic diversity; a feminist vision for families; older families; and the effect of computers and other technology on family relationships. Includes both a historical review and future speculation on the subjects covered in each chapter. Interdisciplinary contributors representing a variety of fields such as history, family studies, sociology, law, therapy, social work, psychology, nursing, and human development. *The Handbook of Contemporary Families* is an excellent resource for advanced undergraduate and graduate students, researchers, educators, and practitioners who study and work with families in several disciplines including Family Science, Human Development, and Family Studies, Sociology, Marriage, Family Therapy, and Social Work. *Positive Psychology*, Alan Carr, 2013-09-05.
