Abraham Lincoln and the Virtues of War Jean E. Friedman, 2015-07-20 This study introduces a new perspective on Lincoln and the Civil War through an examination of his declaration of our national values and the subsequent interpretation of those values by families during the war This volume is a completely new approach to Civil War history Historians rightly regard Abraham Lincoln as a moral exemplar a president who gave new life to the national values that defined America While some previous studies attest to Lincoln's identification with family virtues this is the first to link Lincoln's personal biography with actual histories of families at war It analyzes the relationship that existed between Lincoln and these families and assesses the moral struggles that validated the families' decision for or

against the conflict Written to be accessible to students and the general reader alike the book examines Lincoln s presidency as measured against the stories of families North and South that struggled with his definition of Union virtues It looks at Lincoln s compelling case for democratic values among them justice patriotism honor and commitment first stated in his 1861 speech before Independence Hall The work also uses case studies to demonstrate how virtue as practiced in families illuminated contested adapted and even transformed his concept giving new meaning to the virtues of war **On the**

Fringes of Diplomacy Antony Best,2016-05-23 In recent decades the study of British foreign policy and diplomacy has broadened in focus No longer is it enough for historians to look at the actions of the elite figures diplomats and foreign secretaries in isolation increasingly the role of their advisers and subordinates and those on the fringes of the diplomatic world is recognised as having exerted critical influence on key decisions and policies This volume gives further impetus to this revelation honing in on the fringes of British diplomacy through a selection of case studies of individuals who were able to influence policy By contextualising each study the volume explores the wider circles in which these individuals moved exploring the broader issues affecting the processes of foreign policy Not the least of these is the issue of official mindsets and of networks of influence in Britain and overseas inculcated for example in the leading public schools at the Universities of Oxford and Cambridge and in gentlemen s clubs in London s West End As such the volume contributes to the growing literature on human agency as well as mentalit studies in the history of international relations Moreover it also highlights related themes which have been insufficiently studied by international historians for example the influence that outside groups such as missionaries and the press had on the shaping of foreign policy and the role that strategy intelligence and the experience of war played in the diplomatic process Through such an approach the workings of British diplomacy during the high tide of empire is revealed in new and intriguing ways **Between the New Country and the Old World** Erin E.

Edgington,2025-09-12 Poet and provocateur William Chapman 1850 1917 wrote patriotic verse recounting the history of New France envisioning a glorious future for its descendants Despite his many literary achievements he was a two time laureate of the Acad mie fran aise and a nominee for the Nobel Prize in Literature Chapman is more often remembered for his explosive feud with Louis Fr chette a rivalry that pitted the two national poets against one another and played out in vicious invective across the pages of Quebec newspapers Chapman s lifelong quest to glorify French Canada and accumulate literary prestige in North America and Europe positioned him squarely between the new country and the old world Over the course of his forty year career Chapman published five collections of poetry Les Qu becquoises 1876 Les Feuilles d rable 1890 Les Aspirations 1904 Les Rayons du Nord 1909 and Les Fleurs de givre 1912 whose very titles underscore his devotion to French Canadian identity as well as his literary ambition Integrating close readings of Chapman s verse with archival material related to his writing life Erin Edgington revisits his full oeuvre on its own terms and in context discerning the particular ways Chapman expressed the ideas of literary value and national literature that motivated him from a young age

from juvenilia like *Les Mines d'or de la Beauce* 1881 to his polemical essays and his unfinished magnum opus *Le peuple canadienne* *Between the New Country and the Old World* challenges the prevailing narrative that has labelled Chapman a second rate forgettable poet showing how his life and work reveal important insights into literary fame poetics in a transitional moment at the turn of the century and the history of French literature in North America **The Cambridge Companion to American Poets** Mark Richardson, 2015-10-15 This Companion brings together essays on some fifty four American poets from Anne Bradstreet to contemporary performance poetry This book also examines such movements in American poetry as modernism the Harlem or New Negro Renaissance confessional poetry the Black Mountain School the New York School the Beats and L A N G U A G E poetry
