Franz Werfel: The Faith of an Exile Lionel Steiman, 2010-10-30 Franz Werfel was born in Prague in 1890 and died in Beverly Hills in 1945 a popular and artistic success in Europe and America Despite his Jewish birth and upbringing he was attracted to Christianity at any early age and although he never formally converted he celebrated his own vision of it in his entire life's work The originality of that peculiar faith and the response it engendered in Werfel's work as he lived through the horrific end of Jewish life in Europe are treated here Werfel was not a systematic thinker and while his writing contains much that is philosophical and theological his eclecticism and idiosyncrasy render any attempt to trace the specific origins of his thought or its relation to the work of contemporary philosophers and theologians highly problematic Thus this work is neither biography nor intellectual history in the strict sense it goes beyond melding the concerns of both genres into a thoughtful comprehensive portrait of faith at work Of interest to historians of the twentieth century as well as to students of that

intriguing zone that lies between faith and art but is neither or both The Middle East, Abstracts and Index ,2004

Ritual Participation and Interreligious Dialogue Marianne Moyaert, Joris Geldhof, 2015-04-23 Shared ritual practices multi faith celebrations and interreligious prayers are becoming increasingly common in the USA and Europe as more people experience religious diversity first hand While ritual participation can be seen as a powerful expression of interreligious solidarity it also carries with it challenges of a particularly sensitive nature Though celebrating and worshipping together can enhance interreligious relations cross riting may also lead some believers to question whether it is appropriate to engage in the rituals of another faith community Some believers may consider cross ritual participation as inappropriate transgressive behaviour Bringing together leading international contributors and voices from a number of religious traditions *Ritual Participation and Interreligious Dialogue* delves into the complexities and intricacies of the phenomenon They ask what are the promises and perils of celebrating and praying together What are the limits of ritual participation How can we make sense of feelings of discomfort when entering the sacred space of another faith community The first book to focus on the lived dimensions of interreligious dialogue through ritual participation rather than textual or doctrinal issues this innovative volume opens an entirely new perspective *Annual List of Books Added to the Public Library of Cincinnati* Public Library of Cincinnati and Hamilton County, 1890

Writing Travel in Central Asian History Nile Green, 2014-01-02 For centuries travelers have made Central Asia known to the wider world through their writings In this volume scholars employ these little known texts in a wide range of Asian and European languages to trace how Central Asia was gradually absorbed into global affairs The representations of the region brought home to China and Japan India and Persia Russia and Great Britain provide valuable evidence that helps map earlier periods of globalization and cultural interaction Many Mansions? Catherine

Cornille, 2010-04-01 These superb essays explore the phenomenon of individuals who identity themselves as followers of more than one religious tradition The results prove that the late Joseph Kitagawa was prescient when he cautioned that the world is Easternizing as much as it is Westernizing and that modernization is a far from adequate key to name what is happening in world religious history in our age **Artbibliographies Modern** ,1999 **Bulletin of Books in the**

Between Dignity and Despair Marion A. Kaplan, 1999-06-10 *Between Dignity and Despair* draws on the extraordinary memoirs diaries interviews and letters of Jewish women and men to give us the first intimate portrait of Jewish life in Nazi Germany Kaplan tells the story of Jews in Germany not from the hindsight of the Holocaust nor by focusing on the persecutors but from the bewildered and ambiguous perspective of Jews trying to navigate their daily lives in a world that was becoming more and more insane Answering the charge that Jews should have left earlier Kaplan shows that far from seeming inevitable the Holocaust was impossible to foresee precisely because Nazi repression occurred in

irregular and unpredictable steps until the massive violence of November 1938. Then the flow of emigration turned into a torrent only to be stopped by the war. By that time Jews had been evicted from their homes, robbed of their possessions and their livelihoods, shunned by their former friends, persecuted by their neighbors and driven into forced labor. For those trapped in Germany mere survival became a nightmare of increasingly desperate options. Many took their own lives to retain at least some dignity in death; others went underground and endured the fears of nightly bombings and the even greater terror of being discovered by the Nazis. Most were murdered. All were pressed to the limit of human endurance and human loneliness. Focusing on the fate of families and particularly women's experience, *Between Dignity and Despair* takes us into the neighborhoods, into the kitchens, shops and schools to give us the shape and texture, the very feel of what it was like to be a Jew in Nazi Germany. **Catalog of Copyright Entries.
