Transport

and the economy Great Britain: Parliament: House of Commons: Transport Committee, Louise Ellman, 2011-03-02 In this report the Transport Committee calls on the Government to publish a White Paper on its transport strategy explaining in particular how spending on transport will deliver economic growth and development Such a strategy must set objectives for all transport spending and explain the criteria Ministers will use to decide between different claims on limited financial resources The report welcomes the commitment to undertake transport investment that will deliver sustainable growth and enterprise including green industries balanced across all sectors and in a manner that will reduce regional disparities Ministers must however ensure that this vision for transport investment is backed up by a pro active and fully integrated economic development strategy This is so far absent The current Government has swept away the regional tier of planning and many institutions that played a key role in the development of strategic priorities for transport spending in support of economic development This has created a vacuum that has left regions without the institutions and arrangements they need to plan and prioritise sub national transport schemes and other significant transport infrastructure The Coalition also needs a much stronger strategy for developing the UK's major ports and airports The Government must also do more to correct regional disparities in transport investment The Department for Transport's New Approach To Appraisal process which plays such a major role in deciding which transport schemes get Government funding is highly controversial Small schemes including sustainable transport projects may be cut disproportionately under new transport funding arrangements

Private finance projects and off-balance sheet debt Great Britain: Parliament: House of Lords: Select Committee on Economic Affairs, 2010-03-17 A report that recommends a reform of the way financial liabilities arising from private finance projects PFPs are treated in public accounts It also deals with the growth in the secondary market for PFPs where investors sell on their stake in a project in many cases once the construction period of that project has been completed

Farm Labor Program, 1943, Hearings Before ... 78-1, on H.J. Res. 96 United States. Congress. Senate. Appropriations Committee, 1943 **Additional Appropriations for Emergency Maternity and Infant Care for Wives of Enlisted Men in the Armed Forces, Fiscal Year 1944** United States. Congress. Senate. Committee on Appropriations, 1943 Assurance for Major Projects Great Britain: Parliament: House of Commons: Committee of Public Accounts, 2012-10-16 The Major Projects Authority was set up in 2011 to address weaknesses in the central system for

assuring major projects across Government The Authority a partnership between HM Treasury and the Cabinet Office is responsible for examining and reporting on projects and intervening where they are going off track The Committee states that the Authority has made good progress in its first year but with only one third of major projects being delivered to time and budget believes much more needs to be done The Authority spends 6 million to monitor over 200 projects worth 376 billion It has much stronger powers but much less money than its predecessors Clearly the resources it has will affect its impact It focuses its resources on the projects of highest cost and risk and it is dependent on engagement from departments to achieve its aims but this is not always forthcoming Some 62% of departments have adequate formal plans to provide assurance on projects although the extent to which these are used to manage projects varies The Authority has not met its commitment to publish information on project status on going discussions within Government are seriously delaying the publication of the Authority s annual report and calling into question the Government s commitment to transparency For the report by the NAO on this subject see HCP 1698 session 2010 12 ISBN 9780102977080
