war reconciliation The Musical Gift includes a study of how NGOs used music to promote reconciliation in Sri Lanka and it contains a theorization of the relations between musical gifts and commodities Eschewing a binary between the gift and identity Sykes claims the world's music history is largely a story of entanglement between both paradigms Drawing on fieldwork conducted widely across Sri Lanka over a span of eleven years including the first study of Sinhala Buddhist drumming in English and the first ethnography of music making in the former warzones of the north and east this book brings anthropology's canonic literature on the gift into music studies while drawing on anthropology's recent ontological turn and the new materialism in religious studies
