Looking Back On Progress Paperback By Lord Northbourne:

Looking Back on Progress Lord Northbourne, 2001 Collected essays on critiquing the belief in progress from a traditionalist point of view from which so called progress often appears as regress *Looking Back on Progress* Lord Northbourne, 2001 Collected essays on critiquing the belief in progress from a traditionalist point of view from which so called progress often appears as regress **The Underlying Religion** Martin Lings, Clinton Minnaar, 2007-07-18 This is an anthology of 25 essays by the leading exponents of the perennialist school of comparative religious thought It aims to be the most accessible introduction yet to the perspective of the Perennial Philosophy **Of the Land and the Spirit** Lord Northbourne, 2008-07-29 Twenty five years before Rachel Carson published her famous work *Silent Spring* Lord Northbourne coined the phrase organic farming and helped to promote the importance of a holistic approach to the environment His work linking spirituality and ecology has inspired a generation of writings from Wendell Berry to HRH Prince Charles This book not only features Northbourne's previously unpublished writings but also his private correspondence with Thomas Merton highlighting the spiritual depth of his writings *The Transformist Illusion* Douglas Dewar, 2005 *Religion in the Modern World* Lord Northbourne, 2001 A thoroughgoing critique of the modern world from the point of view of traditional metaphysics pointing out the false assumptions at the root of many contemporary problems **On the Origin of Beauty** John Griffin, 2011-10-01 In the light of the looming ecological crisis facing the world today much of the stunning beauty of the natural world is being lost forever *On the Origin of Beauty* seeks to confront this crisis through a philosophical enquiry into our perception of natural beauty Through discussions of numerous fields including the philosophy of science environmental ethics rationalism and Eastern and Western religion Griffin asserts that Beauty itself may be the catalyst needed to save the globe from destruction *Psychology and the Perennial Philosophy* Samuel Bendeck Sotillos, 2013-02-26 Modern psychology is at an impasse as it searches anxiously for new therapies to address the increasing occurrence of mental illness in contemporary society In this groundbreaking anthology leading authors from the perennialist school including Huston Smith Seyyed Hossein Nasr and Frithjof Schuon draw on the age old insights of the world's wisdom traditions to argue that modern psychology behaviorism psychoanalysis humanistic and transpersonal psychology overlooks the specifically spiritual factors contributing to mental health and illness **Religion and the Order of Nature** Seyyed Hossein Nasr, 1996-09-26 The current ecological crisis is a matter of urgent global concern with solutions being sought on many fronts In this book Seyyed Hossein Nasr argues that the devastation of our world has been exacerbated if not actually caused by the reductionist view of nature that has been advanced by modern secular science What is needed he believes is the recovery of the truth to which the great enduring religions all attest namely that nature is sacred Nasr traces the historical process through which Western civilization moved away from the idea of nature as sacred and embraced a world view which sees humans as alienated from nature and nature itself as a machine to be dominated and manipulated by humans His goal is to negate the totalitarian

claims of modern science and to re open the way to the religious view of the order of nature developed over centuries in the cosmologies and sacred sciences of the great traditions Each tradition Nasr shows has a wealth of knowledge and experience concerning the order of nature The resuscitation of this knowledge he argues would allow religions all over the globe to enrich each other and cooperate to heal the wounds inflicted upon the Earth **The Making of Islamic Science** Muzaffar

Iqbal,2009 Reality Wynand De Beer,2019-09-24 What is reality Most people in the modern world are ignorant of metaphysical realities not to mention the prevalence of semantic confusion and therefore Wynand de Beer aims to counter this ignorance and confusion He employs numerous insights from classical Greek philosophy and traditional Christian theology in order to discuss the various levels of reality ranging from the highest the divine to the lowest the material The author then deals with a range of philosophical and theological themes in the light of the preceding discussion These include well being and love time and eternity good and evil truth and knowledge and the survival of the soul beyond bodily death which is the only kind of immortality that human beings may attain A lengthy chapter also deals with the manifestation of higher levels of consciousness in religion mathematics and music In the later chapters of the book the author subjects salient aspects of the Western sociocultural phenomenon known as political correctness to critical scrutiny In the process these ideologically driven and media promoted isms are contrasted with both Hellenic and Christian thought and the penetrating writings of traditionalist and or anti modernist thinkers from different parts of the world *Science, Religion and Society* Arri Eisen,Gary Laderman,2015-03-04 This unique encyclopedia explores the historical and contemporary controversies between science and religion It is designed to offer multicultural and multi religious views and provide wide ranging perspectives Science Religion and Society covers all aspects of the religion and science dichotomy from humanities to social sciences to natural sciences and includes articles by theologians religion scholars physicians scientists historians and psychologists among others The first section General Overviews contains essays that provide a road map for exploring the major challenges and questions in science and religion Following this the Historical Perspectives section grounds these major questions in the past and demonstrates how they have developed into the six broad areas of contemporary research and discussion that follow These sections Creation the Cosmos and Origins of the Universe Ecology Evolution and the Natural World Consciousness Mind and the Brain Healers and Healing Dying and Death and Genetics and Religion organize the questions and research that are the foundation of the enormous interest and controversy in science and religion today
