Looking Forward To A Career Education:

Careers Education Suzy Harris, 1999-06-28 Careers Education takes a critical look at policy and practice in the context of the new role of the privatized Careers Education and Guidance Service Suzy Harris places the present situation within the context of subordination to market principles delineates the changing and uncertain relationship between schools and the Careers Service shows how the politics of curriculum relevance marginalizes careers teaching describes the downward path to complete exclusion from The National Curriculum and points the way for policymakers to eschew rhetoric and rebuild the Careers Service This book will be an essential resource to help careers and guidance practitioners make sense of their situation for students and research *The Oxford Handbook of Career Development* Peter J. Robertson, Tristram Hooley, Phil McCash, 2021 Abstract The handbook seeks to provide a state of the art reference point for the field of career development It engages in a trans disciplinary and international dialogue that explores current ideas and debates from a variety of viewpoints including socio economic political educational and social justice perspectives Career development is broadly defined to encompass both individuals experience of their own careers and the full range of support services for career planning and transitions The handbook is divided into three sections The first section explores the economic educational and public policy contexts within which careers are enacted The second section explores the rich conceptual landscape of career theory The third section addresses the broad spectrum of helping practices to support both individuals and groups including career guidance career counseling and career learning interventions Keywords Career career development career counseling career guidance career learning career theory public policy social justice **Mapping the Future of Undergraduate Career Education** Melanie V. Buford, Michael J. Sharp, Michael J. Stebleton, 2022-07-19 This timely book explores current trends and future possibilities for undergraduate career education the nature of the changing workplace and its impact on students in colleges and universities Built on decades of experience in career development and professional learning the editors raise and investigate multiple critical issues facing career educators in higher education today preparing students for the future of work exploring the increasing centrality of experiential learning in career education examining innovative paradigm shifts in career education and developing strategies for equity focused and inclusive programming for all students Reckoning with the effects of Covid 19 on the world of career development this book draws on contributions from leading scholars entrepreneurs and practitioners from across the fields of education business STEM and the humanities to offer an inclusive and innovation focused approach to supporting scholars practitioners and students involved with career education development and counseling for a new generation and a new world of work *Career Development as a Partner in Nation Building Australia* Wendy Patton, 2019-07-15 Despite examples of vocational guidance practice being evident in Australia since the mid 1800s there remains a spasmodic and patchwork approach to practice across the country For decades it is a field which has been paradoxically boosted and challenged by changing economic and political agendas Repeated

international national and State reviews emphasise the vital nature of a systemic national approach to career development however authors repeatedly lament the lack of a sustained focus on career activity as a major national priority There is no broad comprehensive historical reckoning of the history of career development theory and practice in Australia since this early period Career development theory and practice in Australia has been forged in partnership with developments in an international context In documenting the shared history with other countries the author significantly adds to the body of knowledge on career development as a field in Australia and internationally The book provides new understandings about the historical development of this field of knowledge and in particular the challenging and cyclical nature of its policy history
