What's Mine's Mine George MacDonald, 2020-12-17 What s Mine s Mine is a novel set in the wilds of Scottish Highlands in the middle of the 19th century that captures one of the most important periods of Scottish history the crumbling of the clans and the migrations of the impoverished clansmen and farmers as their homeland is bought out from under them by the rich and mercenary landowners from the south Among those ambitious and gain seeking men is the protagonist of this novel Peregrine Palmer who has just moved with his family to the Highland Region

Under the Grand Old Hills. A Romance Mary Rosa Stuart Kettle, 1875 The Atlantic Monthly ,1864 **The Highlands Controversy** David R. Oldroyd, 1990-07-25 The Highlands Controversy is a rich and perceptive account of the third and last major dispute in nineteenth century geology stemming from the work of Sir Roderick Murchison The earlier Devonian and Cambrian Silurian controversies centered on whether the strata of Devon and Wales should be classified by lithological or paleontological criteria but the Highlands dispute arose from the difficulties the Scottish Highlands presented to geologists who were just learning to decipher the very complex processes of mountain building and metamorphism David Oldroyd follows this controversy into the last years of the nineteenth century as geology was transformed by increasing professionalization and by the development of new field and laboratory techniques In telling this story Oldroyd s aim is to analyze how scientific knowledge is constructed within a competitive scientific community how theory empirical findings and social factors interact in the formation of knowledge Oldroyd uses archival material and his own extensive reconstruction of the nineteenth century fieldwork in a case study

showing how detailed maps and sections made it possible to understand the exceptionally complex geological structure of the Highlands An invaluable addition to the history of geology The Highlands Controversy also makes important contributions to our understanding of the social and conceptual processes of scientific work especially in times of heated dispute Good Housekeeping ,1892 *Trilogy of Terror* Alfonso Moret,2013-02 Roman and Elsbone were veteran animal trappers and hunters They were warned by the Chalukyas tribesmen that the Devil Dogs were ferocious and did not fear man or any other animal The hunters were experienced predators and huntsmen and knew that the wild beast that the tribesmen were leery of were just Himalayan tempestuous wolves The Chalukyas tribesmen disclosed to the hunters that they had seen two Devil Dogs bring down a huge wild boar and tear it apart one evening at the base of the Mahila Mountains It is known amongst hunters and wildlife individuals that no wild animal beasts or man want any part of the violent desolate fierce boars these Devil Dogs were fearsome and vicious The major deciding factors that finally made the huntsmen want to seek and capture the wolves were these main issues One the Los Angeles zoo was offering a large amount of money for two legendary Devil Dogs from India The second aspect was they heard that a single Devil Dog had fought and killed a Siberian Tiger this factor increased their inquisitiveness and curiosity of this sensational beast and its folklore Their egos also played a part in their judgment to capture the animals An element they had to contemplate and had caused them concern was that they were told that the beast only come out after the sun has set Nightfall this is an advantageous factor for the nighttime predator So these beasts were nocturnal hunters this was not an odd characteristic for any wolf but still it was a concern for the hunters All these tidbits of information just enticed Roman and Elsbone even more and it heightened their hunting and ego desires The two English veteran hunters were now traveling toward their prey and compensations as they were now heading toward the foothills of the snowcapped Himalayas the hunting grounds of the Devil Dogs The huntsmen eventually had left their regular and familiar stomping grounds of South Africa years earlier because of the civil turmoil that continues to cause chaos and havoc with many of the unsettled tribes and conformed city dwellers The other object and issue was now there are all the new restrictions and hunting laws causing hardship on hunters and trappers also there were the conservation laws protecting the wild beast limiting them even more Elsbone and Roman left Africa and went and took their trade to South America But after some time they grew tired of the humid atmosphere the different language and customs along with the constant damp eerie rain forest So now they were here in India following the harsh rumors of the ferocious wild Devil Dogs that killed cattle pigs and villagers and now they also heard even killed mountain lions The hunters journey did have some hardships They needed to travel far through hot rough desolate deserts with very cold nights *Places of Special Virtue* Alasdair Whittle,2017-02-20 This volume explores the landscape settings of megalithic chambered monuments in Wales Set against a broader theoretical discussion on the significance of the landscape the authors consider the role of visual landscapes in prehistory meanings attached to the landscape and the values and beliefs invested in it Wales is rich in

Neolithic monuments but the general absence of certain classic monumental forms found in the rest of Britain and Ireland such as causewayed enclosures henges and cursus monuments seems to have marginalized the Welsh record from many wider discussions on the Neolithic Instead of seeing Wales as an area which lacks many of these classic components Cummings and Whittle argue that Wales has its own unique and individual Neolithic which is simply different from the Neolithic found further to the east It is suggested that this difference may relate to an essentially mobile existence with strong links back to the Mesolithic period The authors present three detailed case studies examining the settings of sites in southwest northwest and southeast Wales They outline the history of research for each region including the previous classification of the monuments and any excavations and describe the specific landscape settings of the monuments They assess the significance of a variety of landscape features which would have been visible from the monuments in particular emphasizing the mythological and symbolic significance of the sea rivers and mountains An illustrated inventory of sites completes the volume

An Exploration of Exmoor and the Hill Country of West Somerset John Lloyd Warden Page,1895 **Sustain Me With Raisin-Cakes: Pesikta deRav Kahana and the Popularization of Rabbinic Judaism** Rachel Anisfeld,2009-04-07 History and literature come together in a new way in this study of the midrashic collection Pesikta deRav Kahana The book combines the findings of rabbinic historians and early Christianity scholars with a close reading of this midrashic text on its own and in relation to the tannaitic midrashim which preceded it The rich picture that emerges suggests that PRK in its new homiletical and aggadic stance develops a religious language more appealing and accessible to the masses an outreach language meant to win rabbinic popularity Exploring issues of power and rhetoric the book also places PRK s outreach language into the cultural context of the imperialism of Roman Christian homily *To Determine the Level of Training on the Overhills Tract, Fort Bragg, Cumberland and Harnett Counties* ,2006
