Finding Truth in Life and Love One Man s Journey Wow what a title but I hear you say the great thinkers of our time can explain Love Life and the Universe so why have you bothered writing a book Stephen Hawking says the universe can and will create itself from nothing Richard Dawkins explanation of life is We are survival machines robot vehicles blindly programmed to preserve the selfish molecules known as genes And as for love science has proven that love is just a bunch of chemical reactions So what can I offer on the subject at hand All these intelligent people indeed have more to say on the subject with all their knowledge gained through degrees and doctorates What can I add to the subject with my most prized qualification being my 100 yards swimming certificate from primary school Well indeed I do not have a lot of knowledge but I do consider that life has taught me to be wise You may ask what the difference is between knowledge and wisdom Well knowledge is knowing that a tomato is a fruit wisdom is not putting tomatoes in your fruit salad Reading some of the explanations by the

world's greatest minds like Stephen Hawking when he says the universe will create itself from nothing I get the uneasy feeling that someone is messing with the fruit salad This uneasiness and my stubborn enquiring nature have set me on a half century discovery for truth The earth is travelling at 67 000 miles per hour through space Is someone driving What about all the religions of the world Are some or all of them true What is the truth in any case Does the truth matter Why don't we abandon the truth and all invent our reality to suit our lives

The Search for Truth Lawrence Konn, 2013-07-29 Aliens to zombies amid a spirited romance populated the pages of *The First Second Coming* as it explored why people search the skies for messiahs and UFOs *The Search for Truth* takes on the science vs religion debate Marlene Martindale and Chris Larson are now married have an infant daughter live in a small town and are prospering from Chris expanding business that serves the neopagan community Marlene's desire for spirituality has taken her from being a secular humanist to a follower of modern witchcraft and her dream is to legitimize and popularize the faith by establishing a Wiccan religious center that can be a trip destination for worship instruction and even fun As if the financial and human capital required to plan and build the religious center were not enough other life events insert themselves for better or worse such as The discovery that infant Olivia has inherited a blindness causing condition that may or may not be curable A lovably odd astrophysicist whose sister and Marlene were once dear friends tries to reunite the two women now that the sister seems to have beaten back a deadly cancer Marlene restarts her psychotherapy practice aided by a new computer tool to treat her UFO encounter clients Her first client however is someone she'd rather forget Eye opening developments unfold for the kindly alien Guests And more From Darwin's evolution to genetics to the search for the god particle to modern Wicca to the search for God in a less enigmatic universe come join in the search for truth
