Addonizio, 2014-08-18 In this collection gifted poet and novelist Kim Addonizio uses her literary powers to bring to life a variety of settings all connected through the suggestion that things in the known world are not what they seem In *Beautiful Lady of the Snow* young Annabelle turns to a host of family pets to combat the alienation she feels caught between her distracted mother and ailing grandfather in *Night Owls* a young college student's crush on her acting partner is complicated by the bloodlust of being half vampire in *Cancer Poems* a dying woman turns to a poetry workshop to make sense of her terminal diagnosis and final days in *Intuition* a young girl's sexual forays bring her closer to her best friend's father and in the collection's title story a photographer looks back to his youth spent as a young illusionist under the big tent and his obsessive affair with the carnival owner's wife Distracted parents first love the twin forces of alienation and isolation the characters in *The Palace of Illusions* all must contend with these challenges trafficking in the fault lines between the real and the imaginary often in a world not of their making The stories in this collection have appeared in journals ranging from *Narrative Magazine* to *The Fairy Tale Review* and include the much loved *Ever After* which was featured on NPR's *Selected Shorts* *Two Worlds* Noeline Slowgrove, 2014-05-28 An ancient civilisation of humans living underground on Mars with the capability of space travel have been abducting humans from Earth for thousands of years The abducted people over time have built an Earth Colony in a valley deep within a mountain range Both races live in harmony until probes from Earth begin landing on Mars The ancient race fear Earth will endanger their fragile existence So they come up with a plan to send Colonists back to Earth with special abilities in order to bring about international peace on Earth *TWO WORLDS* is the journal of Katherine Collins a young woman along with her fiancé who have been abducted and settled in the Earth Colony Chapter by chapter she writes of her experiences on Mars

**Science, Religion, and the Search for Extraterrestrial Intelligence** David Wilkinson, 2013-08-02 If the discovery of life elsewhere in the universe is just around the corner what would be the consequences for religion Would it represent another major conflict between science and religion even leading to the death of faith Some would suggest that the discovery of any suggestion of extraterrestrial life would have a greater impact than even the Copernican and Darwinian revolutions It is now over 50 years since the first modern scientific papers were published on the search for extraterrestrial intelligence SETI Yet the religious implications of this search and possible

discovery have never been systematically addressed in the scientific or theological arena SETI is now entering its most important era of scientific development New observation techniques are leading to the discovery of extra solar planets daily and the Kepler mission has already collected over 1000 planetary candidates This deluge of data is transforming the scientific and popular view of the existence of extraterrestrial intelligence Earth like planets outside of our solar system can now be identified and searched for signs of life Now is a crucial time to assess the scientific and theological questions behind this search This book sets out the scientific arguments undergirding SETI with particular attention to the uncertainties in arguments and the strength of the data already assembled It assesses not only the discovery of planets but other areas such as the Fermi paradox the origin and evolution of intelligent life and current SETI strategies In all of this it reflects on how these questions are shaped by history and pop culture and their relationship with religion especially Christian theology It is argued that theologians need to take seriously SETI and to examine some central doctrines such as creation incarnation revelation and salvation in the light of the possibility of extraterrestrial life
