Loosening The Seams:

The Holy Land in Transit Steven Salaita, 2015-02-01 Steven Salaita's ambitious and thought provoking work compares the dynamics of settler colonialism in the United States related to Native Americans with the circumstances in Israel related to the Palestinians revealing the way in which politics influences literary production The author's original approach is based not on similarities between the two disparate settler regions but rather on similarities between the rhetoric employed by early colonialists in North America and that employed by Zionist immigrants in Palestine Meticulously examining histories theories and literary depictions of colonialism and its interethnic dialects Salaita identifies the commonalities in the myths employed by both groups as well as the counter discourse cultivated in the literature of resistance by native peoples He complements his analysis with personal observations of Palestinians in Lebanese refugee camps where he encountered a sympathetic perception of American Indians The Holy Land in Transit presents one of the first intercommunal studies to assess the ways in which indigenous authors react to analogous colonial dynamics With great perception and energy the author offers a fresh contribution to an emerging frame of reference for historical political literary and cultural investigation
