Lotus Boat The Origins Of Chinese Tzu Poetry In Tang Popular Culture:

The Lotus Boat Marsha L. Wagner, 1984 An epic spanning more than half a century of Taiwan's history this breathtaking historical novel traces the fortunes of the Pengs a family of Hakka Chinese settlers across three generations from the 1890s just before Taiwan was ceded to Japan as a result of the Sino Japanese war through World War II Li Qiao brilliantly re-creates the dramatic world of these pioneers and the colonization of Taiwan itself exploring their relationships with the aboriginal peoples of Taiwan and their struggle to establish their own ethnic and political identities This carefully researched work of fiction draws upon Li's own experiences and family history as well as oral and written histories of the era Originally published in Chinese as a trilogy this newly translated edition is an abridgement for English speaking readers and marks the work's first appearance in the English speaking world It was well received in Taiwan as an honest and influential recreation of Taiwan's history before the relocation of the Republic of China from the mainland to Taiwan Because Li's saga is so deeply imbued with the unique culture and complex history of Taiwan an introduction explaining the cultural and historical background of the novel is included to help orient the reader to this amazingly rich cultural context This informative introduction and the sweeping saga of the novel itself together provide an important view of Taiwan's little known colonial experience

The Oxford Handbook of Classical Chinese Literature Wiebke Denecke, Wai-Yee Li, Xiaofei Tian, 2017-03-21 This volume introduces readers to classical Chinese literature from its beginnings ca 10th century BCE to the tenth century CE It asks basic questions such as How did reading and writing practices change over these two millennia How did concepts of literature evolve What were the factors that shaped literary production and textual transmission How do traditional bibliographic categories modern conceptions of genre and literary theories shape our understanding of classical Chinese literature What are the recurrent and evolving concerns of writings within the period under purview What are the dimensions of human experience they address Why is classical Chinese literature important for our understanding of pre-modern East Asia How does the transmission of this literature in Japan Korea and Vietnam define cultural boundaries And what in turn can we learn from the Chinese style literatures of Japan Korea and Vietnam about Chinese literature In addressing these questions the Oxford Handbook of Classical Chinese Literature departs from standard literary histories and sourcebooks It does not simply categorize literary works according to periods authors or texts Its goal is to offer a new conceptual framework for thinking about classical Chinese literature by defining a four-part structure The first section discusses the basics of literacy and includes topics such as writing systems manuscript culture education and loss and preservation in textual transmission It is followed by a second section devoted to conceptions of genre textual organization and literary signification throughout Chinese history A third section surveys literary tropes and themes The final section takes us beyond China to the surrounding cultures that adopted Chinese culture and produced Chinese style writing adapted to their own historical circumstances The volume is sustained by a dual foci the recuperation of historical

perspectives for the period it surveys and the attempt to draw connections between past and present demonstrating how the viewpoints and information in this volume yield insights into modern China and east Asia

Love and Women in Early Chinese Fiction Daniel Hsieh, 2009-03-02 In traditional China upper class literati were inevitably strongly influenced by Confucian doctrine and rarely touched upon such topics as love and women in their writings It was not until the mid Tang a generation or two after the An Lushan rebellion that literary circles began to engage in overt discussion of the issues of love and women through the use of the newly emerging genres of zhiguai and chuanqi fiction The debate was carried out with an unprecedented enthusiasm since the topics were considered to be the key to understanding the crisis in Chinese civilization This book examines the repertoire of chuanqi and zhiguai written during the Six Dynasties and Tang periods and analyzes the key themes topics and approaches found in these tales which range from expressions of male fantasy sympathy fear and anxiety to philosophical debate on the place of the feminine in patriarchal Chinese society Many of these stories reflect tensions between masculine and feminine aspects of civilization as seen for example in the conflict of male aspiration and female desire as well as the ultimate longing for reconciliation of these divisions These stories form a crucial chapter in the history of love in China and would provide much of the foundation for further explorations during the late imperial period as seen in seminal works such as *The Peony Pavilion* and *Dream of the Red Chamber*

Literature, Essays, Articles, Reviews, 1987 *Teachers of the Inner Chambers* Dorothy Ko, 1994 This pathbreaking work argues that literate gentry women in 17th century Jiangnan far from being oppressed or silenced created a rich culture and meaningful existence within the constraints of the Confucian system Momentous socioeconomic and intellectual changes in

17th century Jiangnan provided the stimulus for the flowering of women's culture. The most salient of these changes included a flourishing of commercial publishing, the rise of a reading public, a new emphasis on emotions, the promotion of women's education, and more generally the emergence of new definitions of womanhood. The author reconstructs the social, emotional, and intellectual worlds of 17th century women and in doing so provides a new way to conceptualize China's past, one offering a more realistic and complete understanding of the values of Chinese culture and the functioning of Chinese society.
