Ellis,2011-03-13 This book is a critique of Buddhism by a philosopher with about 20 years experience of practising Buddhism It attempts to judge Buddhism by the standards of its own key insight of the Middle Way This book argues that Buddhism has often abandoned the Middle Way and allowed dogmatic metaphysical assumptions to take its place The Buddha criticised appeals to metaphysics yet many of the trappings of traditional Buddhism are built on it whether these are karma and rebirth the revelations of the enlightened and their scriptures dependent origination the interpretation of the Four Noble Truths alienated idealisations of love or rituals that celebrate metaphysics rather than insight This is not a purely negative book but an attempt at a balanced appraisal of Buddhism with praise as well as criticism In the West we have an opportunity to evaluate Buddhism anew and reform it so that it best applies its own insights *Dignaga on the Interpretation of Signs* R.P. Hayes,2012-12-06 Buddhist philosophy in India in the early sixth century C E took an important turn away from the traditional methods of explaining and systematizing the teachings in Siitra literature that were attributed to the Buddha The new direction in which several Indian Buddhist philosophers began to move was that of following reasoning to its natural conclusions regardless whether the conclusions conflicted with traditional teachings The central figure in this new movement was DiĻinaga a native of South India who found his way to the centre of Buddhist education at Nalanda studied the treatises that were learned by the Buddhist intellectuals of his day and eventually wrote works of his own that formed the core of a distinctly new school of Buddhist thought Inasmuch as virtually every Indian philosopher after the sixth century had either to reject Dirinaga s methods or build upon the foundations provided by his investigations into logic epistemology and language his influence on the evolution of Indian philosophy was considerable and indeed some familiarity with Dirinaga s arguments and conclusions is indispensable for anyone who wishes to understand the historical development of Indian thought Moreover since the approach to Buddhism that grew out of Dirinaga s meditations on

language and the limits of knowledge dominated the minds of many of the scholars who took Buddhism to Tibet some familiarity with Dirinaga is also essential to those who wish to understand the intellectual infrastructure of Tibetan Buddhist philosophy and practice

Life Now Jansher,2024-07-30 The capability of today s man has become so narrow that it is painful to imagine Today s human life is reduced to working eating sleeping and reproducing First they placed today s man in a certain place then gave him the wrong values National values patriotism ideological values They caught him at a certain point They closed all avenues for him They took away his chances Today s

man knows nothing about life He sees nothing of creation Today s man never knows how far the beauty of nature and divine creation is spread He knows nothing Because his whole life is spent fighting over things that are all lies and illusions his life is wasted fighting and struggling with his comrades He never gets anywhere That is why he is in agony Then few people take advantage of the facilities and the nations beat each other over the head they are busy enjoying life and creation The sole mission of humanity today is to provide land for certain groups to live on Human slavery today has become so brilliant that it has almost assumed the color of sanctity and godliness In the name of knowledge and education he learns the art of slavery in the first half of his life and in the second half he does his slavery They call it alive Cingalese-English Benjamin
