Hanks, 2013-09-10 A seminal artist of the Gilded Age Louis Comfort Tiffany is the best known and most widely collected figure in late nineteenth and early twentieth century American decorative arts The splendid objects from the Driehaus Collection installed as the inaugural exhibition of the Richard H Driehaus Museum showcase a wide variety of Tiffany s work in an architectural setting of the period Newly commissioned photographs by John Faier highlight the subtle detail and rich coloring of each object revealing why Tiffany is so revered as a designer Essays by Richard H Driehaus and David A Hanks explore the collector s vision and Tiffany Studios s largely unknown legacy in Chicago Vividly colored enriched with ornament and boldly scaled the book provides an intimate look into the artistry and craftsmanship of Tiffany and is a unique opportunity for collectors and enthusiasts alike to experience the objects as never before seen **Objects, Audiences, and Literatures** Carma

Gorman, David Raizman, 2009-03-26 In *Objects Audiences and Literatures Alternative Narratives in the History of Design* five art historians tap a variety of unexpected literary sources to reveal the dynamic relationship between intention and reception in architecture interior design costume and the decorative arts The essays consider both handcrafted and serially produced objects from the eighteenth to the mid twentieth centuries including a japanned high chest from colonial Boston German and Austrian Artistic Dress Tiffany lamps the architecture of the 1925 Exposition Internationale des Arts D coratifs et Industriels in Paris and the dream homes portrayed in two popular postwar American films The five chapters demonstrate that a complex and even contradictory mixture of stakeholders determines the meanings of designed objects Each author examines popular forms of literature in order to reveal the preconceptions that viewers brought with them to the experience of looking at and using objects The authors attentiveness to viewers class and gender provides a methodological model for approaching the study of reception within the field of design history *Objects Audiences and Literatures* introduces a new generation of historians of design and decorative arts with five superb case studies Looking beyond the laconic historical data that has formed the backbone of scholarship in this field these authors plumb popular culture films advertisements and especially novels to understand contemporaneous meanings of objects Using these polyglot sources with an eye particularly on narrative and gender they suss out heretofore unnoticed dissonances between the prescriptive pronouncements of avant garde insiders and the reception that design innovation found in broader publics These wide ranging essays are marked by imagination exuberance and acuity I look forward to using it in my teaching Margaretta M Lovell University of California

Berkeley This is a welcome addition to the literature that addresses the growing scholarly and popular interest in design and design history Drawing on an impressive array of examples the authors explore how class gender and cultural context shaped the reception of architecture interior design costume and the decorative arts at various moments in the modern era The collection is noteworthy for the way each of the contributors draws upon literary sources for insights into design and material culture that transcend the specific examples under review Models of methodological rigor these essays should appeal to scholars in multiple disciplines Dennis P Doordan University of Notre Dame *Encyclopedia of the Gilded Age and Progressive Era* John D. Buenker, Joseph Buenker, 2021-04-14 Spanning the era from the end of Reconstruction 1877 to 1920 the entries of this reference were chosen with attention to the people events inventions political developments organizations and other forces that led to significant changes in the U S in that era Seventeen initial stand alone essays describe as many themes
