The City's End Max Page, 2008-01-01 From nineteenth century paintings of fires raging through New York City to scenes of Manhattan engulfed by a gigantic wave in the 1998 movie *Deep Impact* images of the city's end have been prolific and diverse Why have Americans repeatedly imagined New York's destruction What do the fantasies of annihilation played out in virtually every form of literature and art mean This book is the first to investigate two centuries of imagined cataclysms visited upon New York and to provide a critical historical perspective to our understanding of the events of September 11 2001 Max Page examines the destruction fantasies created by American writers and imagemakers at various stages of New York's development Seen in every medium from newspapers and films to novels paintings and computer software such images though disturbing have been continuously popular Page demonstrates with vivid examples and illustrations how each era's destruction genre has reflected the city's

economic political racial or physical tensions and he also shows how the images have become forces in their own right shaping Americans perceptions of New York and of cities in general **Bearing Witness** Wendy Griswold, 2018-06-05

rapid global social change Garnier provides new insights into the Swahili novel form with all its vibrancy and capacity for experimentation Its obsession with social issues relates to larger all pervasive political debates running through East Africa in its press its streets its public and private places The novels both record and provoke these debates Based on the study of more than 175 Swahili novels by almost 100 authors Garnier brings to light a body of work much neglected by African literary critics but which looks outwards to the wider world Xavier Garnier teaches African Literature at the Universit Paris 3 Sorbonne Nouvelle and is former director of the Centre d Etudes des Nouveaux Espaces Litt raires Universit Paris 13

Phenomenologies of the City Henriette Steiner, Maximilian Sternberg, 2016-03-09 *Phenomenologies of the City* Studies in the History and Philosophy of Architecture brings architecture and urbanism into dialogue with phenomenology Phenomenology has informed debate about the city from social sciences to cultural studies Within architecture however phenomenological inquiry has been neglecting the question of the city Addressing this lacuna this book suggests that the city presents not only the richest but also the politically most urgent horizon of reference for philosophical reflection on the cultural and ethical dimensions of architecture The contributors to this volume are architects and scholars of urbanism Some have backgrounds in literature history religious studies and art history The book features 16 chapters by younger scholars as well as established thinkers including Peter Carl David Leatherbarrow Alberto P rez Gomez Wendy Pullan and Dalibor Vesely Rather than developing a single theoretical statement the book addresses architecture s relationship with the city in a wide range of historical and contemporary contexts The chapters trace hidden genealogies and explore the ruptures as much as the persistence of recurrent cultural motifs Together these interconnected phenomenologies of the city raise simple but fundamental questions What is the city for how is it ordered and how can it be understood The book does not advocate a return to a naive sense of unity or order Rather it investigates how architecture can generate meaning and forge as well as contest social and cultural representations

Encyclopedic in scope and heroically audacious, *The Novel: An Alternative History* is the first attempt in over a century to tell the complete story of our most popular literary form. Contrary to conventional wisdom, the novel did not originate in 18th century England nor even with Don Quixote but is coeval with civilization itself. After a pugnacious introduction in which Moore defends innovative demanding novelists against their conservative critics, the book relaxes into a world tour of the pre-modern novel beginning in ancient Egypt and ending in 16th century China with many exotic ports of call: Greek romances, Roman satires, medieval Sanskrit novels narrated by parrots, Byzantine erotic thrillers, 5000-page Arabian adventure novels, Icelandic sagas, delicate Persian novels in verse, Japanese war stories, even Mayan graphic novels. Throughout Moore celebrates the innovators in fiction, tracing a continuum between these pre-modern experimentalists and their postmodern progeny. Irreverent, iconoclastic, informative, entertaining, *The Novel: An Alternative History* is a landmark in literary criticism that will encourage readers to rethink the novel.
