Women and Religion in the African Diaspora R. Marie Griffith,Barbara Dianne Savage,2006-09-22 This landmark collection of newly commissioned essays explores how diverse women of African descent have practiced religion as part of the work of their ordinary and sometimes extraordinary lives By examining women from North America the Caribbean Brazil and Africa the contributors identify the patterns that emerge as women religion and diaspora intersect mapping fresh approaches to this emergent field of inquiry The volume focuses on issues of history tradition and the authenticity of African derived spiritual practices in a variety of contexts including those where memories of suffering remain fresh and powerful The contributors discuss matters of power and leadership and of religious expressions outside of institutional settings The essays study women of Christian denominations African and Afro Caribbean traditions and Islam addressing their roles as spiritual leaders artists and musicians preachers and participants in bible study groups This volume s transnational mixture along with its use of creative analytical approaches challenges existing paradigms and summons new models for studying women religions and diasporic shiftings across time and space **Magic Lessons** Alice Hoffman,2021-09-07 In an

unforgettable novel that traces a centuries old curse to its source beloved author Alice Hoffman unveils the story of Maria Owens accused of witchcraft in Salem and matriarch of a line of the amazing Owens women and men featured in *Practical Magic* and *The Rules of Magic* *Percolations* Marilyn J. Agee,Deirdre Nielsen,Susan Lamarre,Susan Smith,Mary Ann Campbell,Thomas Blacklock,2010-10-19 Many a famous tale began with Once upon a Time While yet others led off with It was a dark and dreary night Each author using these openings was attempting to set the tone for his or her story and poem that followed None of the stories or poetry that follow in this book set their tone with such epic or historic and yes sometimes hackneyed openings Instead they all begin with what the individual author considered a fresh perspective on a subject of either his or her choosing or one chosen for him her In order to better understand this last statement an explanation of how these authors came together to write such stories is required In 2005 Milli Thornton the author of the book *Fear of Writing*

for writers a rail against some minor injustice or poking fun at one of life's inane situations became fodder for these authors. Just as important as the prompt or fertile material as Thornton refers to them as was the understanding that the stories and poems when read at the conclusion of each weekly meeting would not be negatively critiqued unless requested by the author. Instead, each participant would receive positive feedback and encouragement on his or her works in hopes that it would inspire him or her to continue writing. The theory behind this kind of writing support can best be articulated in the words of Thornton when she discussed unleashing your imagination. She advised, "The more you flex it, the more limber it becomes." Positive reinforcement was intended to aid in the limbering effort to encourage them to continue to write and therefore become better writers. That the theory proffered by Thornton's was effective, one merely has to look at the limited success of several of the authors who have contributed to this book. Two authors submitted and had their short stories selected to be read on Texas Public Radio. One author received honorable mention in another short story competition. Another of this group of authors finished and published a novel and has completed another book that is being readied for publication. These accomplishments might have not been achieved had it not been for this writing group. Moreover, this book would have not been written had it not been for the desire and dedication of these authors who week in and week out continued to pour out their souls in their short stories. Over the succeeding years, numerous writers passed through this group. Some moved on as their life situations changed; others needed something other than what was offered by the group. And still others decided for personal reasons that the group did not satisfy their writing needs. What remained was a constant core of writers who continued to meet and toil each Tuesday or whenever possible. The stories and poems contained in this book are the works of that core of writers. This group of writers hope that you, the reader, get as much joy from reading this collection of short stories as their authors did in creating them. The book has been divided into four series: *Succubus Kiss: The Complete Series* by Jennifer Snyder, *Her Kiss Can Kill Kenna* might be the only Succubus with a conscience but life isn't so bad now that she's figured out a specific way to find her male meals. The only issue is her nonexistent love life. That all changes when a handsome stranger walks into her life. He may be a legendary vampire but at least she can kiss him without killing him. However, dating the inspiration for Dracula might be more than Kenna bargained for. This boxed set includes all four books in the completed Succubus Kiss series. If you enjoy New Adult Paranormal Romance or Urban Fantasy with mystery, romance, and twists you'll never see coming, this series is for you. *New York Magazine*, 1992-11-23. New York Magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country. With award-winning writing and photography covering everything from politics and food to theater and fashion, the magazine's consistent mission has been to reflect back to its audience the energy and excitement of the city itself while celebrating New York as both a place and an idea. *Who Sang What on Broadway, 1866-1996* by Ruth Benjamin, Arthur Rosenblatt, 2025-10-01.
