Hypnotic Writing Joe Vitale, 2006-12-22 Discover the secrets of written persuasion. The principles of hypnosis when applied to copywriting add a new spin to selling. Joe Vitale has taken hypnotic words to set the perfect sales environment and then shows us how to use those words to motivate a prospect to take the action you want. This is truly a new and effective approach to copywriting which I strongly recommend you learn. It's pure genius. Joseph Sugarman author of *Triggers* I've read countless books on persuasion but none come close to this one in showing you exactly how to put your readers into a buying trance that makes whatever you are offering them irresistible. David Garfinkel author of *Advertising Headlines That Make You Rich* I am a huge fan of Vitale and his books and *Hypnotic Writing* first published more than twenty years ago is my absolute favorite. Updated with additional text and fresh examples especially from e-mail writing. Joe's specialty *Hypnotic Writing* is the most important book on copywriting yes that's really what it is about to be published in this century. Read it. It will make you a better copywriter period. Bob Bly copywriter and author of *The Copywriter's Handbook* I couldn't put this book down. It's eye opening and filled with genuinely new stuff about writing and persuading better. And it communicates it brilliantly and teaches it brilliantly exemplifying the techniques by the writing of the book itself as you go along. David Deutsch author of *Think Inside the Box* www.thinkinginside.com *Hypnotic Writing* is packed with so much great information it's hard to know where to start. The insights strategies and tactics in the book are easy to apply yet deliver one heck of a punch. And in case there's any question how to apply them the before and after case studies drive the points home like nothing else can. *Hypnotic Writing* is not just about hypnotic writing. It is hypnotic writing. On the count of three you're going to love it. Just watch and see. Blair Warren author of *The Forbidden Keys to Persuasion* *The Oxford Handbook of*

Mapping the Darkness Kenneth Miller, 2023-10-03. WINNER OF THE 2024 ASJA BOOK AWARD BIOGRAPHY HISTORY NAMED A BEST BOOK OF THE YEAR 2023 BY THE NEW YORKER NEW YORK TIMES EDITOR'S CHOICE SELECTION. From award-winning journalist Kenneth Miller comes the definitive story of the scientists who set out to answer two questions: Why do we sleep and how can we sleep better? A century ago, sleep was considered a state of nothingness, even a primitive habit that we could learn to overcome. Then an immigrant scientist and his assistant spent a month in the depths of a Kentucky cave, making nationwide headlines and thrusting sleep science to the forefront of our consciousness. In the 1920s, Nathaniel Kleitman founded the world's first dedicated sleep lab at the University of Chicago, where he subjected research participants, including himself, to a dizzying array of tests and tortures. But the tipping point came in 1938 when his cave experiment awakened the general public to the unknown and vital world of sleep. Kleitman went on to mentor the talented but troubled Eugene Aserinsky, whose discovery of REM sleep revealed the astonishing activity of the dreaming brain, and William Dement, a jazz bass playing revolutionary who became known as the father of sleep medicine. Dement, in turn, mentored the brilliant

maverick Mary Carskadon who uncovered an epidemic of sleep deprivation among teenagers and launched a global movement to fight it Award winning journalist Kenneth Miller weaves together science and history to tell the story of four outsider scientists who took sleep science from fringe discipline to mainstream obsession through spectacular experiments technological innovation and single minded commitment Readers will walk away with a comprehensive understanding of sleep and why it affects so much of our lives A propulsive utterly engrossing history None of it is simple and all of it is captivating The New York Times Mapping the Darkness offers two narratives at once a sweeping journey of discovery about dreams sleep and the terra incognita of unconsciousness and a wake up call about the dangers of chronic exhaustion It s time Mr Miller tells us to take our sleep back The Wall Street Journal
