forms of legal analysis and relying upon a new account of the Court's supremacy in relation to lower courts and tribunals James Pfander advances a departmental conception of the judiciary He argues that Congress can enlist the state courts lower federal courts and administrative agencies to hear federal claims in the first instance but all of these tribunals must operate within a hierarchical framework over which the one supreme Court identified in the Constitution exercises ultimate supervisory authority In offering the first general account of the Court as department head Pfander takes up such important debates in the federal courts literature as Congress's power to strip the federal courts of jurisdiction to review state court decisions its authority to assign decision making authority to state courts and non Article III tribunals its control over the doctrine of vertical stare decisis and its ability to craft rules of practice for the federal system *Police Practices and Civil Rights in New York City* Mary Frances Berry, 2000-12 On May 26 1999 the U S Commission on Civil Rights conducted a hearing in New York City to examine current police practices police community relations civilian complaints **The Publishers' Trade List Annual** ,1917 **A Guide to Material on Crime and Criminal Justice** Augustus Frederick Kuhlman, Social Science Research Council (U.S.).
