Chinese Mathematical Astrology Ho Peng Yoke,2004-03-01 Though there are a number of well written works on Chinese divination there are none that deal with the three sophisticated devices that were employed by the Chinese Astronomical Bureau in the eleventh century and for hundreds of years thereafter Chinese experts applied the methods

associated with these devices to both weather forecasting and to the interpretation of human affairs Hidden by a veil of secrecy these methods have always been relatively little known other than by their names The first work in any language to explore these three methods known as sanshi three cosmic boards this book sheds light on a topic which has been shrouded in mystery for centuries having been kept secret for many years by the Chinese Astronomical Bureau **Mongolia Today** Shirin Akiner, 2023-10-13 First published in 1991 Mongolia Today presents a collection of essays by leading scholars in the field and gives important insights into the economic political legal and military systems of Mongolia The Mongolian People's Republic formerly known as Outer Mongolia is three times the size of France but has population of just two million Sandwiched between Russia and China this remote heartland of Asia has long been one of the most inaccessible places in the world its isolation preserved by political as well as geographical barriers The modern history of Mongolia has been dominated by its two great neighbours strong economic and political ties with the erstwhile Soviet Union and problematic relations with China Relations with the West have been slow to develop Post cold war Mongolia is willing to explore new relationships with other parts of the world and transform this once isolated land into a trading partner of international potential This is an essential read for scholars and researchers of Central Asian studies Asian politics and Chinese studies

The Mongolian Manuscripts on Birch Bark from Xarbuxyn Balgas in the Collection of the Mongolian Academy of Sciences Elisabetta Chiodo, 2009 Restored and edited with the cooperation of the Institute of Central Asian Studies of the University of Bonn **The Mongol Empire** Timothy May, 2016-11-07 Covering the rise and fall of the Mongol Empire this essential reference presents the figures places and events that led this once beleaguered region to rise up to become the largest contiguous empire in history In the 13th century Chinggis Khan rose to power leading an empire of a million people and defeating surrounding regions with much larger populations This compendium follows the achievements and failures of the Mongol Empire from the birth of Chinggis Khan in 1162 to the formation of the successor states that came from the dissolution of the world power in the 16th century the Yuan Empire in East Asia the Chaghatai Khanate in Central Asia the Ilkhanate in the Middle East and the Jochid or Kipchak Khanate in the Pontic Caspian Steppes known as the Golden Horde Through some 180 entries this two volume set covers every aspect of Mongol civilization organizing content into eight sections government and politics organization and administration individuals groups and organizations key events military objects and artifacts and key places Each section is accompanied by an essay introducing the topic in the context of the Mongol Empire The work also includes a chronology a number of annotated primary documents and a bibliography *The Jewel Translucent Sūtra* Johan Elverskog, 2021-11-29 The first full fledged critical edition and historical study of the Erdeni Tunumal Sudur the Mongolian history of Altan Khan and his descendants offering a full range English written historical and literary evaluation of this unique and fairly reliable but long neglected discovery in Mongolian studies With transcription word index and English translation as well as extensive commentary on the historical events of Altan Khan's reign especially

the 1550 attack on Beijing the 1571 peace accord with the Ming and the 1578 meeting with the Dalai Lama and the subsequent Buddhist conversion In particular the author shows how Altan Khan's reformulation of the boundaries of Dayan Khan's Mongol nation and state catalyzed the political fragmentation of the Mongols with dire consequences in relation to the rising Manchu state Vital for a better understanding of Mongol history during the late Ming **Knowledge in Translation** Patrick Manning, Abigail Owen, 2018-09-19 In the second millennium CE long before English became the language of science in the twentieth century the act of translation was crucial for understanding and disseminating knowledge and information across linguistic and geographic boundaries This volume considers the complexities of knowledge exchange through the practice of translation over the course of a millennium across fields of knowledge cartography health and medicine material construction astronomy and a wide geographical range from Eurasia to Africa and the Americas Contributors literate in Arabic Catalan Chinese Greek Hebrew Italian Japanese Latin Minnan Ottoman and Persian explore the history of science in the context of world and global history investigating global patterns and implications in a multilingual and increasingly interconnected world Chapters reveal cosmopolitan networks of shared practice and knowledge about the natural world from 1000 to 1800 CE emphasizing both evolving scientific exchange and the emergence of innovative science By unraveling the role of translation in cross cultural communication **Knowledge in Translation** highlights key moments of transmission insight and critical interpretation across linguistic and faith communities **Glimpses of Tibetan Divination**, 2019-11-04

Glimpses of Tibetan Divination Past and Present is the first book of its kind in that it contains articles by a group of eminent scholars who approach the subject matter by investigating it through various facets and salient historical figures Over the centuries Tibetans developed many practices of prognostication and adapted many others from neighboring cultures and religions In this way Tibetan divination evolved into a vast field of ritual expertise that has been largely neglected in Tibetan Studies The Tibetan repertoire of divinatory techniques is rich and immensely varied Accordingly the specimen of practices discussed in this volume many of which remain in use today merely serve as examples that offer glimpses of divination in Tibet Contributors are Per Kværne Brandon Dotson Ai Nishida Dan Martin Petra Maurer Charles Ramble Donatella Rossi Rolf Scheuermann Alexander Smith and Agata Bareja Starzynska **Nomads on Pilgrimage** Isabelle Charleux, 2015-06-29

Nomads on Pilgrimage Mongols on Wutaishan China 1800-1940 is a social history of the Mongols' pilgrimages to Wutaishan in late imperial and Republican times In this period of economic crisis and rise of nationalism and anticlericalism in Mongolia and China this great Buddhist mountain of China became a unique place of intercultural exchanges mutual borrowings and competition between different ethnic groups Based on a variety of written and visual sources including a rich corpus of more than 340 Mongolian stone inscriptions it documents why and how Wutaishan became one of the holiest sites for Mongols who eventually reshaped its physical and spiritual landscape by their rites and strategies of appropriation **Historical Dictionary of Mongolia** Alan J.K. Sanders, 2017-08-25 This fourth edition of **Historical Dictionary of Mongolia** covers the

people and organizations that brought Mongolia from revolution and oppression to independence and democracy and its current unprecedented level of national wealth and international growth This is done through a chronology an introduction appendixes and an extensive bibliography The dictionary section has over 1 200 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent resource for students

researchers and anyone wanting to know more about Mongolia **Historical Dictionary of Mongolia** Alan

Sanders,2003-04-09 This edition offers detail on the history of the Mongol Empire Against the background of relations with Tibet it adopts a focus on the spread of Tibetan Buddhism to Mongolia There is a broader approach to Mongolian cultural affairs with expanded entri A Monastery in Time Caroline Humphrey,Hürelbaatar Ujeed,2013-07-05 A Monastery in Time

is the first book to describe the life of a Mongolian Buddhist monastery the Mergen Monastery in Inner Mongolia from inside its walls From the Qing occupation of the eighteenth and nineteenth centuries through the Cultural Revolution Caroline Humphrey and H relbaatar Ujeed tell a story of religious formation suppression and survival over a history that spans three centuries Often overlooked in Buddhist studies Mongolian Buddhism is an impressively self sustaining tradition whose founding lama the Third Mergen Gegen transformed Tibetan Buddhism into an authentic counterpart using the Mongolian language Drawing on fifteen years of fieldwork Humphrey and Ujeed show how lamas have struggled to keep Mergen Gegen s vision alive through tremendous political upheaval and how such upheaval has inextricably fastened politics to religion for many of today s practicing monks Exploring the various ways Mongolian Buddhists have attempted to link the past present and future Humphrey and Ujeed offer a compelling study of the interplay between the individual and the state tradition and history *The Horde* Marie Favereau,2021-04-20 The Mongols are universally known as conquerors but they were more

than that influential thinkers politicians engineers and merchants Challenging the view that nomads are peripheral to history The Horde reveals the complex empire the Mongols built and traces its enduring imprint on politics and society in Europe Asia and the Middle East **Ulaanbaatar beyond Water and Grass** M. A. Aldrich,2018-03-02 Ulaanbaatar beyond Water

and Grass is the first book in the English language that takes the visitors to an in depth exploration of the capital of Mongolia In the first section of the book M A Aldrich paints a detailed portrait of the history religion and architecture of Ulaanbaatar with reference to how the city evolved from a monastic settlement to a communist inspired capital and finally to a major city of free wheeling capitalism and Tammany Hall politics The second section of the book offers the reader a tour of different sites within the city and beyond bringing back to life the human dramas that have played themselves out on the stage of Ulaanbaatar Where most guide books often lightly discuss the capital Ulaanbaatar beyond Water and Grass A Guide to the Capital of Mongolia reveals much that remains hidden from the temporary visitor and even from the long term resident Writing in a quirky idiosyncratic style the author shares his appreciation and delight in this unique urban setting indeed in all things Mongolian The book finally does justice to one of the most neglected cultural capitals in Asia Combining history

ethnography architecture city planning and folklore with a delightful dash of irony and personal opinion Michael Aldrich's *Ulaanbaatar beyond Water and Grass* is an authoritative introduction to Mongolia's capital city For first time visitors or long term academics this is quite simply the best book available on Ulaanbaatar Jack Weatherford author of *Genghis Khan and the Making of the Modern World* The charm of this superb guide to Mongolia's mysterious capital is the exuberance and love the author bestows on his subject Michael Aldrich's erudition is profound and all embracing and he is as comfortable discussing abstruse aspects of Buddhism as he is the city's history from its pastoral and feudal origins through Manchu suzerainty to Soviet communism to the wild capitalism of the present day He never misses the opportunity for a colourful and amusing anecdote or tidbit of scandal to relish an obscure custom to delight in the spice in a local dish or to pause and admire the beauty of a particular artwork building or monument The prose rings with his idiosyncratic personality knowledgeable urbane and sceptical sometimes downright cynical but always passionate and committed Carrying this book through Ulaanbaatar's streets or curling into its pages on a sofa at home he is the perfect companion squeezing stories out of ancient stones conjuring ghosts and elegantly baring the city's soul *Ulaanbaatar beyond Water and Grass* will become as great a classic of travel literature for Central Asia as J G Links's *Venice for Pleasure* was for Europe Adam Williams author of *The Palace of Heavenly Pleasure* Destined to become the quintessential introduction to Ulaanbaatar not only in terms of the wealth of information but also in terms of the sympathetic understanding and humour the author shares with the reader Genghis Khan would have loved it Bill Porter author of *Road to Heaven Encounters with Chinese Hermits and Finding Them Gone* Visiting China's Poets of the Past Michael Aldrich's guide to Ulaanbaatar reveals a city of religion of revolution and latterly of bold new experiment It is both a journey through the city of today as well as an imagining of the historical city now lost to development Paul French author of *The Old Shanghai A Z* This is an interesting and illuminating book providing fascinating details on the history and evolution of Mongolia's capital and largest city It should definitely be included on the essential reading list for anyone living or working in Mongolia Jonathan Addleton Executive Director of American Center for Mongolian Studies former US Ambassador to Mongolia author of *Mongolia and the United States A Diplomatic History*

Inviting Happiness: Food Sharing in Post-Communist Mongolia Sandrine Ruhlmann, 2019-09-16 For Mongols sharing food is more than just eating meals Through a process of opening and closing on a daily basis or at events in the family circle or with visitors sharing food guarantees the proper order of social relations It also ensures the course of the seasons and the cycle of human life Through food sharing humans thus invite happiness to their families and herds Sandrine Ruhlmann has lived long months since 2000 in the Mongolian steppe and in the city She describes and analyzes in detail the contemporary food system and recognizes intertwined ideas and values inherited from shamanism Buddhism and communist ideology Through meat on the bone creamy milk skin dumplings or sole shaped cakes she highlights a whole way of thinking and living
