Giannoni, 2006. This volume brings together a selection of contributions presented at the 15th European Symposium on Languages for Special Purposes held at the University of Bergamo Italy from 29 August to 2 September 2005. The conference title New Trends in Specialized Discourse reflects the emphasis given to recent orientations in research coming from established as well as new authors in the field. As suggested by the title of this volume the analysis of specialized discourse calls for a specialized discourse analysis. When applied linguists deal with vocational discourses they are faced with a double challenge on the one hand an understanding of textualisations often alien to the general language on the other hand the use of analytical tools designed specifically for their investigation. The studies presented in this volume position themselves somewhere along this continuum focusing alternatively on converging diverging features of texts and discourses.

**Manual para estudiar textos académicos** Mara Glotzman, Karina Savio, 2020-11-16. Quiere implicar estudiar un texto. Cómo se encara esta actividad compleja que requiere prácticas y disposiciones específicas. El Manual para estudiar textos académicos. Prácticas conceptos y más todos en los procesos de lectura y escritura. Presenta un conjunto articulado de nociones, pautas y ejercicios orientados justamente a responder estos interrogantes por lo que constituye un material de trabajo no solo para aquellas disciplinas que abordan lo singular de estos procesos sino también para todas aquellas en las que leer y escribir son actividades inherentes al estudio. Busca acercarse de esta manera a la particularidad de lo que suele denominarse discurso académico y a sus formas de enseñanza y aprendizaje. El volumen está destinado a docentes, estudiantes de instituciones terciarias y universitarias y a todos aquellos que están interesados por diversos motivos en familiarizarse con el lenguaje académico con el fin de aprehender y a su vez de reflexionar en torno a sus dinámicas. Esta propuesta se ofrece como una invitación a que el lector pueda apostar a un trabajo sistemático constante que modifique sus propias prácticas de lectura de estudio y de escritura.

**Los géneros comunicativos universitarios: orales y escritos** Pedro Luis Barcia, Maricruz Barcia, 2021-07-02. En qué se diferencia esta obra de otras conocidas. La casi totalidad por no decir todos de los manuales que se ocupan de esta materia atienden solo a los géneros de comunicación escrita descartando los de comunicación oral. Tal actitud es sorprendente porque la base de la comunicación universitaria es la clase y el acto oral por naturaleza. A diferencia de las obras que circulan dedicadas a enseñar esta materia la nuestra incorpora en su tratamiento junto a las formas escritas, la exposición, la bibliografía, ponencia, informe científico, informe de investigación, ejercicio de los géneros orales, la exposición breve, la conferencia, la clase, la mesa redonda, el ateneo, el seminario, etc. Proponemos sobre una larga experiencia universitaria un conjunto de ejercicios previos que facilitan la oralidad y la escritura. Asimismo se atiende a la gradualidad en los pasos de elaboración de planes y escritos en función de que los alumnos puedan no tener la asistencia de tutores docentes o maestros y deban valerse por sí mismos.

mismos para adelantar en su tarea de escritura y de correcci n Este libro se centra en los procedimientos de preparaci n y elaboraci n de las diversas formas gen ricas de la comunicaci n universitaria No se ocupa del proceso de la investigaci n sino de las formas de encauzarlas en su exposici n oral o escrita aunque aporta al final una ordenada y orientadora bibliograf a en la cual se incluyen obras espec ficas instrumentales sobre el proceso investigativo
