The Concept of Sacred Theology Joseph Clifford Fenton, 1941 **Laying the Foundation: A Handbook of Catholic Apologetics and Fundamental Theology** Fr. Joseph Clifford Fenton, S.T.D., 2016-03-01

Laying the Foundation A Handbook of Catholic Apologetics and Fundamental Theology is a classic text by the late Fr Joseph Clifford Fenton a highly respected author professor and theologian of the twentieth century This book appeared in 1942 under the rather unimposing title We Stand with Christ an Essay in Catholic Apologetics It should have become a classic It is I believe the greatest work of apologetics produced in a time of superstar apologists such as F J Sheed Ronald Knox and Fulton Sheen It represents the high point of apologetics as well as a gold standard for subsequent works of fundamental theology from the foreword by Scott Hahn Franciscan University of Steubenville

Verbum Domini and the Complementarity of Exegesis and Theology Scott Carl, 2021-09

In Verbum Domini his 2010 apostolic exhortation Pope Benedict XVI challenged the church to keep theology firmly rooted in the study of Scripture The essays collected here respond thoughtfully and concretely to that charge together demonstrating that exegesis is essential to the theological task and to faith for scholars students and the broader Church

Slaves of Satan Patrick Ryan Bell, 2024-05-02

Slaves of Satan is an extraordinary book that looks at the darkest corners of the human and diabolical mind and answers the question of why Why do human beings commit some of the most horrific appalling and unspeakable acts known to man What is it that drives these evil people serial killers cult leaders occultists and dictators to leave a trail of murder violence sexual depravity and total unmitigated destruction in their wake Author Patrick Bell through years of extensive research has done a deep dive into one of religions most controversial and terrifying subjects diabolical possession and the most serious and horrifying form of it known as Perfect Possession When a human being has given themselves their intellect mind will and body their very souls over completely to the source of all evil Lucifer The author examines the theology and church teaching behind perfect possession the three types of it who it occurs to and why and then examines people from history Slaves of Satan who were perfectly possessed including serial killers dictators the international occult elite and the diabolical deeds and destruction they have perpetrated led on by their master the devil upon the human race

Galileo and the Conflict between Religion and Science Gregory W. Dawes, 2016-01-22

For more than 30 years historians have rejected what they call the warfare thesis the idea that there is an inevitable conflict between religion and science insisting that scientists and believers can live in harmony This book disagrees Taking as its starting point the most famous of all such conflicts the Galileo affair it argues that religious and scientific communities exhibit very different attitudes to knowledge Scripturally based religions not only claim a source of knowledge distinct from human reason They are also bound by tradition insist upon the certainty of their beliefs and are resistant to radical criticism in ways in which the sciences are not If traditionally minded believers perceive a clash between what their faith tells them and the findings of modern science they may well do what the Church authorities did in Galileo's

time They may attempt to close down the science insisting that the authority of God's word trumps that of any merely human knowledge Those of us who value science must take care to ensure this does not happen

The Necessity of the Church for Salvation in Selected Theological Writings of the Past Century John J. King, 1960

The One Church of Christ: Understanding Vatican II Stephen A. Hipp, 2018 Vatican II represents a watershed in the history of Catholic ecclesiology Although it stands in organic continuity with previous magisterial teaching distortions of its teaching have proliferated since the time of the Council leading many to conclude that the Catholic Church changed her position regarding the identity that exists between the One Church of Christ and the Catholic Church Stephen A Hipp's *The One Church of Christ Understanding Vatican II* refutes that conclusion and explains the Catholic understanding of how Christ's indivisible Church relates to the Catholic Church to non Catholic Christian communities and to other religious societies Hipp thoroughly examines the controversial statement that the Church of Christ subsists in the Catholic Church from terminological historical and theological perspectives showing that Vatican II introduces nothing doctrinally new to the Church's self understanding but provides a more nuanced way of speaking about the unicity and universality that define Christ's Church He reveals that Vatican II thereby establishes ecumenism and interreligious dialogue on fruitful ground while calling Catholics to a greater appreciation of the extraordinary gift of the Church's subsistence

On Divine Revelation: The Teaching of the Catholic Faith Vol. One Fr. Reginald Garrigou-Lagrange, 2022-05-27 In *On Divine Revelation* one of Garrigou Lagrange's most significant works here available in English for the very first time he offers a classic treatment of this foundational topic It is an organized and thorough defense of both the rationality and supernaturality of divine revelation He presents a careful yet stimulating account of the scientific character of theology the nature of revelation itself mystery dogma the grace of faith the powers of human reason false interpretations thereof rationalism naturalism agnosticism and pantheism the motives of credibility and much more Though written a century ago *On Divine Revelation* will restore confidence in theology as a distinct and unified science and return focus to the fundamental questions of the doctrine of revelation It also serves as a salutary corrective to contemporary theology's anthropocentrism and concern with what is relative in revelation and religious experience by reorienting our theological attention to what is most certain central and sure in our knowledge of divine revelation the Triune God who has revealed his inner life and salvific will Readers will see the great splendor of the gift of divine revelation radiant with credibility before the gaze of reason and drawing our supernatural assent to the mysteries through the gift of faith As Fr Cajetan Cuddy O P observes *On Divine Revelation* is a stunning work of inestimable value No other subsequent work on this topic has come close to meeting it much less surpassing it

In the Likeness of Sinful Flesh Thomas Weinandy,2006-04-24 Proposes to show that a truly human Christ is not to be found by rejecting the dogmatic tradition but by faithful exegesis of the biblical texts as they stand In studying the humanity of Jesus this book argues that in the Incarnation Jesus assumed not some ideal humanity but humanity with all its sinfulness

The Sense of the Faith in History John J. Burkhard,2022-02-05 2023 Catholic Media Association Second Place Award Theology History of Theology Church Fathers and Mothers While taught by Vatican II the sense of the faith *sensus fidei* has had little official impact in the Catholic Church What would the church look like if it took this conciliar teaching to heart To address this neglect John Burkhard locates the historical roots of the teaching and its emergence at Vatican II It attempts to better understand the sense of the faith in the light of other fundamental teachings of the council and challenges the hierarchical church to invite all the faithful to rightfully participate in the prophetic ministry of the whole church closely allied with Pope Francis s call for a more synodal church **Oxford Studies in Philosophy of Religion Volume 6**

Merton,2022-10-27 Thomas Merton gave numerous conferences during his decade 1955 1965 as novice master at the Cistercian Abbey of Gethsemani In A Monastic Introduction to Sacred Scripture Patrick F O Connell presents one of these a wide ranging introduction to biblical studies Drawing on church tradition teaching of recent papal documents and scholarly resources of the time Merton reveals the central importance of the Scriptures for the spiritual growth of his listeners For Merton at the heart of any meaningful reading of the Scriptures not only for monks but for all Christians is the invitation to respond not just intellectually but with the whole self to recognize the gospel as good news as a saving liberating consoling challenging word reflecting his fundamental belief that the Holy Spirit enlightens us in our reading to see how our own lives are part of these great mysteries how we are one with Jesus in them O Connell s extensive introduction situates this reflection in the context of Merton s evolving engagement with the Bible from his own days as a student monk through the mature reflections from his final years on the biblical renewal in the wake of the Second Vatican Council **Divine**

Providence Thomas P. Flint,2018-09-05 Thomas P Flint develops and defends the idea of divine providence sketched by Luis

de Molina the sixteenth century Jesuit theologian The Molinist account of divine providence reconciles two claims long thought to be incompatible that God is the all knowing governor of the universe and that individual freedom can prevail only in a universe free of absolute determinism The Molinist concept of middle knowledge holds that God knows though he has no control over truths about how any individual would freely choose to act in any situation even if the person never encounters that situation Given such knowledge God can be truly providential while leaving his creatures genuinely free Divine Providence is by far the most detailed and extensive presentation of the Molinist view ever written Middle knowledge is hotly debated in philosophical theology and the controversy spills over into metaphysics and moral philosophy as well Flint ably defends the concept against its most influential contemporary critics and shows its importance to Christian practice With particular originality and sophistication he applies Molinism to such aspects of providence as prayer prophecy and the notion of papal infallibility teasing out the full range of implications for traditional Christianity

Studies in Sacred Theology ,1922 Religion, Philosophy and Knowledge Gregory W. Dawes,2016-11-07 This book offers a philosophical approach to religion that acknowledges both the diversity of religions and the many and varied dimensions of the religious life Rather than restricting itself to Christian theism it covers a wide range of religious traditions examining their beliefs in the context of the actual practice of the religious life After outlining the aims of religion the book focuses on claims to knowledge What kinds of knowledge do religions purport to offer In what idiom is it couched From what sources do devotees draw their claims to knowledge Are these sources reliable Rather than trying to settle age old questions about religious belief the book offers its readers a set of criteria with which they can make informed decisions in matters of faith
