Medicine, Religion, and Magic in Early Stuart England Ofer Hadass, 2018-03-26 The astrologer physician Richard Napier 1559 1634 was not only a man of practical science and medicine but also a master of occult arts and a devout parish rector who purportedly held conversations with angels This new interpretation of Napier reveals him to be a coherent and methodical man whose burning desire for certain true knowledge contributed to the

contemporary venture of putting existing knowledge to useful ends Originally trained in theology and ordained as an Anglican priest Napier later studied astrological medicine and combined astrology religious thought and image and ritual magic in his medical work Ofer Hadass draws on a remarkable archive of Napier's medical cases and religious writings including the interviews he claimed to have held with angels to show how Napier's seemingly inconsistent approaches were rooted in an inclusive and coherent worldview combining equal respect for ancient authority and for experientially derived knowledge Napier's endeavors exemplify the fruitful relationship between religion and science that offered a well founded alternative to the rising mechanistic explanation of nature at the time Carefully researched and compellingly told *Medicine Religion and Magic in Early Stuart England* is an insightful exploration of one of the most fascinating figures at the intersection of medicine magic and theology in early modern England and of the healing methods employed by physicians of the era
