**The Manuscripts of Early Norman England (c. 1066-1130)** Richard Gameson, 1999 This large reference work to manuscripts is the result of painstaking investigation into historical sources dating from the first seventy years of Norman rule Gameson has identified approximately 900 manuscripts and has produced a detailed catalogue of authors documents and their provenance An essential reference tool to scholars of the period     The Destruction of Medieval Manuscripts in England Krista A. Milne, 2025-03-28 The Dissolution of the Monasteries 1536 40 is widely held as the single most significant event in England's history of the destruction and loss of medieval manuscripts Despite this consensus the ultimate impact of the Dissolution and of medieval manuscript destruction during the centuries that followed remains unclear How did Reformation era losses compare to those which preceded the Reformation and to those that followed it How did the losses caused by sectarian conflicts compare to more quotidian kinds of loss such as improper storage or deliberate de acquisition Which manuscripts were targeted when were they targeted and how should one account for the inevitably skewed record In The Destruction of Medieval Manuscripts in England Krista A Milne asks these questions to better understand literary taste behavioural patterns and the circulation of knowledge throughout the medieval period Milne explores methods drawn from quantitative codicology to explore the most significant moments of manuscript loss in the history of England The evidence suggests that this destruction was much more limited in its targets but far more extensive in scope than is usually acknowledged Overwhelmingly throughout the investigation the manuscripts most at risk were those considered too new to qualify as antique but too old to be au courant This pattern of destruction which Milne describes as the principle of age without vintage remains apparent in many different domains today     *Health and Healing from the Medieval Garden* Peter Dendle, Alain Touwaide, 2015 Fresh examinations of the role of medicinal plants in medieval thought and practice and how they contributed to broader ideas concerning the body religion and identity The important and ever shifting role of medicinal plants in medieval science art culture and thought both in the Latin Western medical tradition and in Byzantine and medieval Arabic medicine is the focus of this new collection Following a general introduction and a background chapter on Late Antique and medieval theories of wellness and therapy in depth essays treat such wide ranging topics as medicine and astrology charms and magical remedies herbal glossaries illuminated medical manuscripts women's reproductive medicine dietary cooking gardens in social and political context and recreated medieval gardens They make a significant contribution to our understanding of the place of medicinal plants in medieval thought and practice and thus lead to a greater appreciation of how medieval theories and therapies from diverse places developed in continuously evolving and cross pollinating strands and in turn how they contributed to broader ideas concerning the body religion identity and the human relationship with the natural world Contributors MARIA AMALIA D ARONCO PETER DENDLE EXPIRACION GARCIA SANCHEZ PETER MURRAY JONES GEORGE R KEISER DEIRDRE LARKIN MARIJANE OSBORN PHILIP G RUSCHE TERENCE SCULLY ALAIN

**The Care of Nuns** Katie Ann-Marie Bugyis, 2019-04-01 In her groundbreaking new study Katie Bugyis offers a new history of communities of Benedictine nuns in England from 900 to 1225. By applying innovative paleographical, codicological and textual analyses to their surviving liturgical books, Bugyis recovers a treasure trove of unexamined evidence for understanding these women's lives and the liturgical and pastoral ministries they performed. She examines the duties and responsibilities of their chief monastic officers: abbesses, prioresses, cantors and sacristans, highlighting three of the ministries vital to their practice: liturgically reading the gospel, hearing confessions and offering intercessory prayers for others. Where previous scholarship has argued that the various reforms of the central Middle Ages effectively relegated nuns to complete dependency on the sacramental ministrations of priests, Bugyis shows that in fact these women continued to exercise primary control over their spiritual care. Essential to this argument is the discovery that the production of the liturgical books used in these communities was carried out by female scribes, copyists, correctors and creators of texts attesting to the agency and creativity that nuns exercised in the care they extended to themselves and those who sought their hospitality, counsel, instruction, healing, forgiveness and intercession

The Long Twelfth-Century View of the Anglo-Saxon Past Martin Brett, David A. Woodman, 2016-03-03 Scholars have long been interested in the extent to which the Anglo-Saxon past can be understood using material written and produced in the twelfth century and simultaneously in the continued importance or otherwise of the Anglo-Saxon past in the generations following the Norman Conquest of England. In order to better understand these issues, this volume provides a series of essays that moves scholarship forward in two significant ways. Firstly, it scrutinises how the Anglo-Saxon past continued to be reused and recycled throughout the longue durée of the twelfth century as opposed to the early decades that are usually covered. Secondly, by bringing together scholars who are experts in various different scholarly disciplines, the volume deals with a much broader range of historical, linguistic, legal, artistic, palaeographical and cultic evidence than has hitherto been the case. Divided into four main parts: The Anglo-Saxon Saints, Anglo-Saxon England in the Narrative of Britain, Anglo-Saxon Law and Charter and Art history and the French Vernacular, it scrutinises the majority of different genres of source material that are vital in any study of early medieval British history. In so doing, the resultant volume will become a standard reference point for students and scholars alike interested in the ways in which the Anglo-Saxon past continued to be of importance and interest throughout the twelfth century

**The Sibyl and Her Scribes** Anke Holdenried, 2017-05-15 The Sibylla Tiburtina is a Latin prophecy attributed to a prophetess from classical antiquity. It concludes with an account of the End of History involving the coming of the Antichrist and his battle with a Last World Emperor. Approximately 100 manuscripts written between the mid

11th and the 16th centuries survive which testify to the Tiburtina's immense popularity in the medieval West as such the Tiburtina is a key text for understanding medieval apocalypticism and occupies an important place in the intellectual history of the Middle Ages However studies of the manuscripts and the history of the text have been largely neglected in comparison with other similar works so little is currently known about who copied and read the prophecy Dr Holdenried's research fills this gap This study is based on an examination of all surviving manuscripts and includes an analysis of the textual material which accompanies the Tiburtina a survey of titles and annotations as well as research on variant texts including several hitherto unknown Modern historiography regards the Tiburtina solely as a vehicle for expressing contemporary political concerns triggered by crises thought to herald the End of the World This book provides a much more varied picture and offers a new approach to the Tiburtina by placing it for the first time in the context of medieval traditions which saw Sibylline prophecy as independent non-Christian evidence of Christ's life and as confirmation of His divinity As is shown these traditions had a major impact on the reception of the Tiburtina The book concludes with a repertory of the manuscripts together with brief outlines of individual textual traditions as represented in groups of manuscripts which will constitute a valuable reference source for other scholars

**Companion to Josephus in the Medieval West** Karen M. Kletter,Paul C. Cox,2015 In c 701 a minster was founded in the lower Avon Valley on a deserted promontory called Evesham Over the next five hundred years it became a Benedictine abbey and turned the Vale of Evesham into a federation of Christian communities A landscape of scattered farms grew into one of open fields and villages manor houses and chapels Evesham itself developed into a town and the abbots played a role in the affairs of the kingdom But individual contemplation and prayer within the abbey were compromised by its corporate aspirations As Evesham abbey waxed ever grander exerting a national influence it became a ready patron of the arts but had less time for private spirituality The story ends badly in the prolonged scandal of Abbot Norreis a libertine whose appetites caused religion to collapse at Evesham before his own sudden downfall This book integrates the evidence of archaeology maps and documents in a continuous narrative that pays as much

attention to religious and cultural life as to institutional and economic matters It provides a complete survey over one of the most important and wealthy Benedictine abbeys and its landscape a stage on which was enacted the tense interplay of lordship and prayer Back cover
