argues for a critically affirmative experimentalism responsive to the opportunities such spaces provide for rethinking and remaking maps of experience. Foregrounding the rhythmic and atmospheric qualities of these spaces, he demonstrates the particular value of Deleuze and Guattari's concept of the refrain for thinking and diagramming affect bodies and space times together in creative ways, putting this concept to work to animate empirical encounters with practices and technologies as varied as dance therapy, choreography, radio sports commentary, and music video. What emerges are geographies of experimental participation that perform and disclose inventive ways of thinking within the myriad spaces where the affective capacities of bodies are modulated through moving.

Early American Proverbs and Proverbial Phrases Bartlett Jere Whiting, 1977. p. B. J. Whiting savors proverbial expressions and has devoted much of his lifetime to studying and collecting them. No one knows more about British and American proverbs than he. The present volume, based upon writings in British North America from the earliest settlements to approximately 1820, complements his and Archer Taylor's *Dictionary of American Proverbs and Proverbial Phrases 1820-1880*. It differs from that work and from other standard collections, however, in that its sources are primarily not literary but instead workaday writings: letters, diaries, histories, travel books, political pamphlets, and the like. The authors represent a wide cross section of the populace, from scholars and statesmen to farmers, shopkeepers, sailors, and hunters. Mr. Whiting has combed all the obvious sources and hundreds of out-of-the-way publications of local journals and historical societies. This body of material, because it covers territory that has not been extracted and compiled in a scholarly way before, can justly be said to be the most valuable of all those that Whiting has brought together. According to Albert B. Friedman, "What makes the work important is Whiting's authority: a proverb or proverbial phrase is what B. J. W. thinks is a proverb or proverbial phrase. There is no objective, operative definition of any value; no divining rod; his tact, feel, experience determine what's the real thing and what is spurious."
