Many Faces Of Grief:

The Many Faces Of Bereavement Ginny Sprang, John McNeil, 2018-10-24 First published in 1995 Death and dying have been a concern of mankind as long as humans have existed This book will explore the development and specifications of traditional models of grief to underline the importance of what is known about the process of grief considering variables such as relationship age and personal characteristics of the mourner as well as providing a framework of symptomatology specific to non traumatizing non stigmatizing deaths for the purposes of comparative and theoretical specification It is proposed that what is known about the grief response following the death of a spouse a child or an aged parent has valuable implications for grief model development considering other modes of death such as murder drunk driving AIDS critical incidents and suicide though these conceptualizations are insufficient in explaining or predicting outcomes with these other types of grief

Enduring Modernity Bert van den Bergh, Sabine Flick, Kieran Keohane, Domonkos Sik, 2024-11-26 This book brings together the work of the late Anders Petersen, presenting his exciting and innovative transdisciplinary paradigm that offers insights into anxiety, depression and grief and the connection between these conditions and the failings of contemporary civilization that give rise to them With attention to the ways in which neoliberal hegemony and its imperatives of performance, evaluation, self-realisation, resilience and flexibility lead to self-criticism on the part of those who do not measure up to the prevailing criteria, resulting in ailments of mental health, it challenges the paradigmatic diagnosis of such conditions in terms of individual diseases or neurological malfunctions to be treated by medication and training in order to return the individual to work and life as normal An examination of the wrong-headed approach to what Petersen analysed as contemporary social pathologies *Enduring Modernity: Depression, Anxiety and Grief in the Age of Voicelessness* will appeal to

scholars of sociology and social theory seeking new understandings aimed at emancipation from social suffering
