## **Many Faces Of Shame:**

The Many Faces of Shame Donald L. Nathanson, 1987-06-01 For almost a century the concept of guilt as embedded in drive theory has dominated psychoanalytic thought. Increasingly however, investigators are focusing on shame as a key aspect of human behavior. This volume captures a range of compelling viewpoints on the role of shame in psychological development, psychopathology and the therapeutic process. Donald Nathanson has assembled internationally prominent authorities engaging them in extensive dialogue about their areas of expertise. Concise introductions to each chapter place the authors both historically and theoretically and outline their emphases and contributions to our understanding of shame. Including many illustrative clinical examples, the book covers such topics as the relationship between shame and narcissism, shame's central place in affect theory, psychosis and shame, and shame in the literature of French psychoanalysis and philosophy.

The Female Face of Shame Erica L. Johnson, Patricia Moran, 2013-05-16 The female body with its history as an object of social control, expectation and manipulation is central to understanding the gendered construction of shame. Through the study of 20th century literary texts, *The Female Face of Shame* explores the nexus of femininity, female sexuality, the female body and shame. It demonstrates how shame structures relationships and shapes women's identities. Examining works by women authors from around the world, these essays provide an interdisciplinary and transnational perspective on the representations, theories and powerful articulations of women's shame.

*Family Systems Application to Social Work* Karen Gail Lewis, 2015-07-24 Originally published in 1991, this title is a valuable social work text which demonstrated how to apply family system concepts to clinical situations encountered in work with inner city populations at the time. Unlike traditional theories in clinical social work which were oriented toward the individual, this fascinating book offers a paradigm for social work that encompasses the client, his or her immediate and extended family, the community, the government and the social worker. The family systems concepts in this refreshing volume are illustrated by case examples addressing the specific issues of AIDS and drug abuse, homelessness, foster care, wife abuse, care of those with intellectual disabilities and adoption issues. Social workers and social work students can still gain perspective from these insightful chapters and will discover that it is not pathological people that make difficult populations, but difficult life situations that breed pathology.

**Stepparenting** Stanley H. Cath, Moisy Shopper, 2013-04-15 In an era when teachers commonly report that up to half of the children in their classes come from multiple homes and have multiple caretakers, the special psychological challenges of stepparenting have never been in greater need of examination. As thoughtful clinicians have long known, stepparenting is among the most complicated of psychological projects; it may simultaneously be a multifaceted burden and a spur to personal autonomy, deepened sensitivity to others and newfound competence as a nurturer. Among the thousands of divorced people who remarry each year, most despite their best resolve to live in the present, persist in reassessing the price of separation, especially as they come to appreciate the fact that divorce is seldom a total break for their children. Stepparenting is a

comprehensive exploration of the process of reconstructing families More specifically it is a book about the perils and promise of stepparenting a caretaking role that may be more challenging than biologically given child rearing Contributors follow people as they try to reevaluate past misunderstandings and acclimate to new parenting contexts and obligations Editors Cath and Shopper have taken pains to offer a balanced purview that includes both successful and maladaptive instances of stepparenting Of special note are the clinical examples throughout the book that chart the extended periods of slow creative learning experienced by parents and children biological and step as they test the waters of new family systems and try to elicit newly attuned responses from each other *Women and Children First* Sharon M. Meagher, Patrice DiQuinzio, 2012-02-01 This diverse collection explores the rhetoric of a wide range of public policies that propose to put women and children first including homeland security school violence gun control medical intervention of intersex infants and policies that aim to distinguish good from bad mothers Using various feminist philosophical analyses the contributors uncover a logic of paternalistic treatment of women and children that purports to protect them but almost always also disempowers them and sometimes harms them This logic is widespread in contemporary popular policy discourse and affects the way that people understand and respond to social and political issues Contributors rethink basic philosophical assumptions concerning subjectivity difference and dualistic logic in order to read the rhetoric of contemporary public policy discourse and develop new ways of talking and acting in the policy domain *Melancholia's Dog* Alice A. Kuzniar, 2006-11 Publisher description **Seeing and Being Seen** John Steiner, 2011-03-28 This book examines the themes that surface when considering clinical situations where patients feel stuck and where a failure to develop impedes the progress of analysis Locating Atonement Zondervan, 2015-11-10 A Close Look at Atonement's Place in Contemporary Systematic Theology In light of renewed interest in the doctrine of atonement during which a range of atonement models have gained momentum among different traditions it's important to map these models to the broader context of theological thought on this aspect of Christ's work and to show how no single approach has the complete picture The proceedings of the third annual Los Angeles Theology Conference seek to identify the place of the doctrine of atonement in systematic theology Locating Atonement stays away from discussion of theories of atonement typologies of those theories and contests among various theories Instead its focus is on the question What else is there to do in atonement theology besides rehashing types and theories The twelve diverse essays in this collection include discussions on Atonement and the concept of punishment Atonement and ascension Atonement and human suffering Atonement and covenant Each of the essays collected in this volume engage with Scripture as well as with others in the field theologians both past and present from different confessions in order to provide constructive resources for contemporary systematic theology and to forge a theology for the future The Empathic God Frank Woggon, 2024-05-07 What if Jesus did not come to die for our sins What if instead Jesus's life and death was intended to provide a way out of our shame While traditional Christian teachings about the atonement

emphasize sin as guilt and transgression against God's will and commandments Frank Woggon points out that clinical spiritual care reveals that the human condition is predominantly marked by shame rather than guilt In *The Empathic God* Woggon examines myopic readings of the Jesus event that in turn have embedded distortions into traditional paradigms of the atonement In contrast Woggon mines narratives of the human condition to engage in a critical examination of the Jesus story As a clinician and ordained Baptist minister Woggon presents the Jesus event as God's empathic initiative toward humanity and convincingly argues that salvation comes through empathy rather than forgiveness Woggon's work constructs a clinical theology of atonement from the perspective of clinical spiritual care *The Empathic God* calls for a practical response of caring participation in God's ongoing work of salvation through an empathic praxis of spiritual care Most importantly *The Empathic God* takes seriously that lived human experience is the starting point for theological exploration rather than doctrine This book will help practitioners and students of spiritual care in the Christian tradition to reflect more critically on the intersection of spiritual care practice and theology The book also will challenge pastors ministers of pastoral care chaplains pastoral counselors spiritually oriented therapists to interrogate and re-interpret traumatic shame-filled Christian teachings about the atonement so that they too can join in God's ongoing and liberating work of salvation

*Response Ethics* Kelly Oliver, 2018-10-18 What does it mean to be a responsible subject in a world of pervasive violence How should we be responsible witnesses in the face of gross injustice Indeed how should we respond to atrocities that often leave us speechless and powerless In this seminal volume Kelly Oliver articulates a response ethics as an alternative to mainstream moral frameworks such as utilitarianism and Kantianism Oliver's response ethics is grounded in an innovative understanding of subjectivity Insofar as one's subjectivity is informed by the social and our sense of self is constituted by our ability to respond to our environment reconceptualizing subjectivity transforms our ethical responsibility to others Oliver's engagement in various debates in applied ethics ranging from our ecological commitments to the death penalty from sexual assaults on campus to reproductive technology shows the relevance of response ethics in contemporary society In the age of pervasive war assaults murder and prejudice *Response Ethics* offers timely contributions to the field of ethics **Handbook of Stress, Trauma, and the Family** Don. R. Catherall, 2013-01-11 *The Handbook of Stress Trauma and the Family* is broken down into three sections compiling research theory and practice The first section focuses on how traumatic stress affects intimate others what familial characteristics affect individual susceptibility to trauma as well as evaluation of the effectiveness of various interventions The section on theory explores concepts of stress and intrapsychic processes underlying the intergenerational transmission of trauma addressing how families can buffer or enhance anxiety The final section entitled practice covers assessment presenting both the Circumplex Model and Bowenian family theory models treatment models and treatment formats for specific populations The major family treatment models applicable to stress and trauma are discussed including contextual object relations emotionally focused and critical interaction therapy *CBT for*

*Compulsive Sexual Behaviour* Thaddeus Birchard, 2015-05-15 Increasing numbers of therapists are coming into contact with the problem of compulsive sexual behaviour disorders. However, it is still a relatively new field and there is little in the current literature available that enables the therapist to work with and treat this problem. CBT for Compulsive Sexual Behaviour: A guide for professionals addresses this by providing a guide to cognitive behavioural theory and practice which includes the assessment, diagnosis and treatment of addictive sexually compulsive disorders. Beginning with a description of addictive sexuality and an overview of cognitive behavioural therapy in which CBT is presented as the most useful response, Thaddeus Birchard provides clear therapeutic information about the implementation of CBT treatment intervention. The chapters included cover the neuroscience that underpins the addictive process, a how-to chapter on the use of groups, paraphilias, trauma and attachment comorbid disorders and cross-addictions and analysis on the function of internet pornography, all written from a cognitive behavioural stance. Using case vignettes throughout, Thaddeus Birchard draws on his own experience as a psychosexual therapist along with the latest research in the field to enable the therapist to treat a range of compulsive sexual problems in a way that can be applied in individual practice or in a group setting as well as how to prevent relapse. This book will be essential reading for psychosexual therapists, cognitive behaviour therapists and other professionals working with sexual compulsive disorders.

*Handbook of Unethical Work Behavior*: Robert A Giacalone, Mark D Promislo, 2014-12-18 This handbook covers the widest possible range of organizational misbehaviors: age, race and gender discrimination, abuse, bullying, aggression, violence, fraud and corruption, all with an eye toward the effects on individual and organizational health and well-being. It is the first ever single source resource on this important topic.

Early Modern Spectatorship Ronald Huebert, David McNeil, 2019-06-30 What did it mean to be a spectator during the lifetime of Shakespeare or of Aphra Behn? In *Early Modern Spectatorship*, contributors use the idea of spectatorship to reinterpret canonical early modern texts and bring visibility to relatively unknown works. While many early modern spectacles were designed to influence those who watched, the very presence of spectators and their behaviour could alter the conduct and the meaning of the event itself. In the case of public executions, for example, audiences could both observe and be observed by the executioner and the condemned. Drawing on work in the digital humanities and theories of cultural spectacle, these essays discuss subjects as various as the death of Desdemona in *Othello*, John Donne's religious orientation, Ned Ward's descriptions of London and Louis Laguerre's murals painted for the residences of English aristocrats. A lucid exploration of subtle questions, *Early Modern Spectatorship* identifies, imagines and describes the spectator's experience in early modern culture.

*The Maternal Lineage* Paola Mariotti, 2012-09-10 Why do women want to have children? How does one learn to be a mother? Does having babies have anything to do with sex? At a time when mothers are bombarded by prescriptive and contradicting advice on how to behave with their children, *The Maternal Lineage* highlights various psychological aspects of the mothering experience. International contributors provide clinical examples of frequent and challenging situations that

have received scarce attention in psychoanalysis such as issues of neglect and psychical abuse The transgenerational repetition from mother to daughter of distressing mothering patterns is evident throughout the book and may seem inevitable However clinical examples and theoretical research indicate that when the support of partner and friends is not enough the cycle can be brought to an end if the mother receives psychoanalytic informed professional help The Maternal Lineage is divided into four parts An Introduction including a review of the literature focusing on the mother daughter relationship Pregnancy and very early issues Subfertility and its effects on a woman s psyche The psychological aspects of major mothering problems miscarriages post natal depression adolescent motherhood This timely book will be of value to psychoanalysts psychotherapists and health professionals obstetricians psychiatrists midwives and social workers For Better, For Worse Natalie E. Williams, 2019-12-02 For Better For Worse discusses the shame narratives tied to divorce rooted in Christian theologies of marriage and U S political landscapes of marriage rights and regulation Using interdisciplinary methods Natalie E Williams investigates the current conflict between social practices that normalize divorce and religious and political rhetorical narratives that continue to shame those who divorce Williams s work seeks to understand current attitudes and policies related to divorce and to shape Christian ethical responses that resist the use of shame relying instead on commitments to truth telling and a cultivation of shamelessness to support flourishing across a spectrum of family forms
