and our need for human connection felt at all times but especially during times of globally met threats The ever expanding forms of hybridography here along with testimonies diaries letters and journals bear witness to how individuals have contrived to overcome their own traumatic sources of pain and suffering to discover joy and how to further map their pathways forward The narratives not only communicate important information and aesthetic beauty needed to prolong troubled lives due to social anxiety or mental illness but also challenge sociocultural issues involving stigma migration racial discrimination and persecution human trafficking and ecological concerns Global in scope personal in focus and historically and culturally contextualized the analyses provided here once again illustrate how much we have to learn from each other

[Hong Kong in the Cold War](#) Priscilla Roberts, John M. Carroll, 2016-08-01 The Cold War was a distinct and crucial period in Hong Kong's evolution and in its relations with China and the rest of the world Hong Kong was a window through which the West could monitor what was happening in China and an outlet that China could use to keep in touch with the outside world Exploring the many complexities of Cold War politics from a global and interdisciplinary perspective Hong Kong in the Cold War shows how Hong Kong attained and honed a pragmatic tradition that bridged the abyss between such opposite ideas as capitalism and communism thus maintaining a compromise between China and the rest of the world The chapters are written by nine leading international scholars and address issues of diplomacy and politics finance and economics intelligence and propaganda refugees and humanitarianism

tourism and popular culture and their lasting impact on Hong Kong Far from simply describing a historical period these essays show that Hong Kong's unique Cold War experience may provide a viable blueprint for modern day China to develop a similar model of good governance and may in fact hold the key to the successful implementation of the One Country Two Systems idea This is a timely collection of essays on the role of Hong Kong in a global context and its multifaceted relationship with mainland China It is emerging at a particularly appropriate moment when the local community has been provoked to reflect on its common fate under the notion of one country two systems Ray Yep City University of Hong Kong

Hong Kong the Berlin of the East was transformed by the Cold War an existential conflict between capitalism and communism Consequently this fine volume is a must read for political cultural and economic historians of Hong Kong International historians should also add this collection of essays and cutting edge empirical studies to their reading lists it will enrich their understandings of the Global Cold War David Clayton University of York [Encyclopedia of Post-Colonial Literatures in English](#) Eugene Benson, L.W.
