## **Many Headed Hydra The Hidden History Of The Revolutionary Atlantic:**

**The Many-Headed Hydra** Peter Linebaugh, Marcus Rediker, 2013-09-03 Winner of the International Labor History Award Long before the American Revolution and the Declaration of the Rights of Man a motley crew of sailors slaves pirates laborers market women and indentured servants had ideas about freedom and equality that would forever change history The Many Headed Hydra recounts their stories in a sweeping history of the role of the dispossessed in the making of the modern world When an unprecedented expansion of trade and colonization in the early seventeenth century launched the first global economy a vast diverse and landless workforce was born These workers crossed national ethnic and racial boundaries as they circulated around the Atlantic world on trade ships and slave ships from England to Virginia from Africa to Barbados and from the Americas back to Europe Marshaling an impressive range of original research from archives in the Americas and Europe the authors show how ordinary working people led dozens of rebellions on both sides of the North Atlantic The rulers of the day called the multiethnic rebels a hydra and brutally suppressed their risings yet some of their ideas fueled the age of revolution Others hidden from history and recovered here have much to teach us about our common humanity

**Many-Headed Hydra** Marcus Rediker, 2000      **The Many-Headed Hydra** Peter Linebaugh, Marcus Rediker, 2002-05-01 Using a decade of original research into the 17th and 18th century this text unearths ideas and stories about liberty democracy and freedom that terrified the ruling classes of the time and form the foundations of modern revolutions      *The Many-headed Hydra* , 2002      **The Many-Headed Hydra** Marcus Rediker, Peter Linebaugh, 2020-05-05 Long before the American Revolution and the Declaration of the Rights of Man a motley crew of sailors slaves pirates labourers market women and indentured servants had ideas about freedom and equality that would for ever change history The Many Headed Hydra recounts their stories in a sweeping history of the role of the dispossessed in the making of the modern world      **The Culture and Commerce of the Early American Novel** Stephen Shapiro, 2010-11 Taking his cue from Philadelphia born novelist Charles Brockden Brown s *Annals of Europe and America* which contends that America is shaped most noticeably by the international struggle between Great Britain and France for control of the world trade market Stephen Shapiro charts the advent decline and reinvigoration of the early American novel That the American novel sprang so unexpectedly into published existence during the 1790s may be a symptom of the beginning of the end of Franco British supremacy and a reflection of the power of a middle class riding the crest of a new world economic system Shapiro s world systems approach is a relatively new methodology for literary studies but it brings two particularly useful features to the table First it refines the conceptual frameworks for analyzing cultural and social history such as the rise in sentimentalism in relation to a long wave economic history of global commerce second it fosters a new model for a comparative American Studies across time Rather than relying on contiguous time a world systems approach might compare the cultural production of one region to another at the same location within the recurring cycle in an economic reconfiguration Shapiro offers a new

way of thinking about the causes for the emergence of the American novel that suggests a fresh way of rethinking the overall paradigms shaping American Studies

**First Martyr of Liberty** Mitch Kachun, 2017-06-20 First Martyr of Liberty explores how Crispus Attucks's death in the 1770 Boston Massacre led to his achieving mythic significance in African Americans' struggle to incorporate their experiences and heroes into the mainstream of the American historical narrative. While the other victims of the Massacre have been largely ignored, Attucks is widely celebrated as the first to die in the cause of freedom during the era of the American Revolution. He became a symbolic embodiment of black patriotism and citizenship. This book traces Attucks's career through both history and myth to understand how his public memory has been constructed through commemorations and monuments, institutions and organizations bearing his name, juvenile biographies, works of poetry, drama, and visual arts, popular and academic histories, and school textbooks. There will likely never be a definitive biography of Crispus Attucks since so little evidence exists about the man's actual life. While what can and cannot be known about Attucks is addressed here, the focus is on how he has been remembered variously as either a hero or a villain and why at times he has been forgotten by different groups and individuals from the eighteenth century to the present day

**Robert Wedderburn** Ryan Hanley, 2025-02-25 The first ever biography of the ultra-radical thinker Robert Wedderburn from his native Jamaica to metropole London by an award-winning historian. Robert Wedderburn (1762-1834) was one of the most charismatic, irascible, and radical intellectuals of the eighteenth and early nineteenth-century Atlantic world. Born to an enslaved woman and a slavemaster in Jamaica and moving in the radical working-class circles of London, Wedderburn made his name as a fiery political writer and orator before dying forgotten in poverty. Among the few abolitionists bold enough to publicly call for the enslaved in the British West Indies to rise up and violently overthrow their colonial masters, Wedderburn was also among the most outspoken and, amid an increasingly repressive British establishment, dangerous advocates for domestic political reform and working-class rights. From award-winning scholar Ryan Hanley, this is the first full-length biography of a man increasingly recognized as central to Black radical political thought in the Revolutionary Atlantic. Tapping newly rediscovered sources, Hanley details Wedderburn's extraordinary public and private life, explores the central influence of enslaved women on his political ideas, and offers fresh analysis of his contributions to British political thought and activism.

The French Revolution as a Moment of Respatialization Matthias Middell, Megan Maruschke, 2019-09-23 The French Revolution has primarily been understood as a national event that also had a lasting impact in Europe and in the Atlantic world. Recently, historiography has increasingly emphasized how France's overseas colonies also influenced the contours of the French Revolution. This volume examines the effects of both dimensions on the reorganization of spatial formats and spatial orders in France and in other societies. It departs from the assumption that revolutions shatter not only the political and economic old regime order at home but in an increasingly interdependent world also result in processes of respatialization. The French Revolution therefore is analysed as a key event in a global history that seeks to account for the

shifting spatial organization of societies on a transregional scale

**Navigating African Maritime History** Carina E. Ray, Jeremy Rich, 2009 This book is a collection of essays addressing multiple aspects of African maritime history in attempt to counter the lack of academic research that exists in comparison to other nations and continents and to assert the value of African topics to the global study of maritime history Each essay addresses African maritime history whilst also demonstrating an inextricable link to the global maritime stage The topics discussed include early human migration to Africa early European contact with Africa the role of West African maritime communities in the Atlantic slave trade New World slaveholders and the exploitation of African maritime skillsets the construction of Atlantic world racial discourses the rise and fall of colonial rule and African immigrant communities in Europe These essays cover maritime topics such as seafaring labour navigational technology swimming diving surfing plus political subjects that include colonisation decolonisation immigration and citizenship The book consists of eight essays and an introduction that evaluates the existing research into African maritime history It includes case studies from every major geographical part of the continent bar North Africa and covers the Early Modern period up to the twentieth century The purpose is not to provide a comprehensive chronological history but rather a diverse collection of topics across a range of periods and locations to reflect the wealth of maritime topics in the history of Africa and their global significance It concludes with a call for further research into non European maritime activity to deepen the global historiography

**Bengali Harlem and the Lost Histories of South Asian America** Vivek Bald, 2013-01-07 Nineteenth century Muslim peddlers arrived at Ellis Island bags heavy with embroidered silks from their villages in Bengal Demand for Oriental goods took these migrants on a curious path from New Jersey s boardwalks into the segregated South Bald s history reveals cross racial affinities below the surface of early twentieth century America

*Poseidon's Curse* Christopher P. Magra, 2016-10-14 An investigation of the Atlantic origins of the American Revolution focusing on the British navy s impressment of American ships and mariners

**African Diasporas in the New and Old Worlds**, 2021-11-01 In the humanities the term diaspora recently emerged as a promising and powerful heuristic concept It challenged traditional ways of thinking and invited reconsiderations of theoretical assumptions about the unfolding of cross cultural and multi ethnic societies about power relations frontiers and boundaries about cultural transmission communication and translation The present collection of essays by renowned writers and scholars addresses these issues and helps to ground the ongoing debate about the African diaspora in a more solid theoretical framework Part I is dedicated to a general discussion of the concept of African diaspora its origins and historical development Part II examines the complex cultural dimensions of African diasporas in relation to significant sites and figures including the modes and modalities of creative expression from the perspective of both artists writers and their audiences finally Part III focusses on the resources collections and archives and iconographies that are available today As most authors argue the African diaspora should not be seen merely as a historical phenomenon but also as an idea or ideology and an object of representation By

exploring this new ground the essays assembled here provide important new insights for scholars in American and African American Studies Cultural Studies Ethnic Studies and African Studies The collection is rounded off by an annotated listing of black autobiographies

*Liberty on the Waterfront* Paul A. Gilje, 2012-04-17 Through careful research and colorful accounts historian Paul A Gilje discovers what liberty meant to an important group of common men in American society those who lived and worked on the waterfront and aboard ships In the process he reveals that the idealized vision of liberty associated with the Founding Fathers had a much more immediate and complex meaning than previously thought In *Liberty on the Waterfront* American Maritime Culture in the Age of Revolution life aboard warships merchantmen and whalers as well as the interactions of mariners and others on shore is recreated in absorbing detail Describing the important contributions of sailors to the resistance movement against Great Britain and their experiences during the Revolutionary War Gilje demonstrates that while sailors recognized the ideals of the Revolution their idea of liberty was far more individual in nature often expressed through hard drinking and womanizing or joining a ship of their choice Gilje continues the story into the post Revolutionary world highlighted by the Quasi War with France the confrontation with the Barbary Pirates and the War of 1812

**What If Latin America Ruled the World?** Oscar Guardiola-Rivera, 2010-09-21 This tour of the histories of North and South America explains how Latin America has become a vital part of the global community and discusses how its consumers resources and emigrants will become big factors in the future

*Rituals, Runaways, and the Haitian Revolution* Crystal Nicole Eddins, 2022-04-21 A new analysis of the origins of the Haitian Revolution revealing the consciousness solidarity and resistance that helped it succeed

**Imagining Andrew Marvell at 400** Matthew C. Augustine, Giulio J. Pertile, Steven N. Zwicker, 2023-04-15 Augustine Pertile and Zwicker celebrate the work of Andrew Marvell 1621 1678 in the quatercentenary year of his birth combining the best historical scholarship with a varied and ambitious programme of cognitive affective and aesthetic inquiry The essays have been specially commissioned for the quatercentenary and include the work of a range of scholars from Britain and North America Acknowledged masterpieces such as the Horatian Ode The Garden and Upon Appleton House are here read in light of historical and material evidence that has emerged in recent decades At the same time the volume offers many fresh points of entry into Marvell s work with particular attention to the poet s lyric economies Marvell s engagement with popular print and not least the polyglot and transnational dimensions of his writing The quatercentenary also represents an important anniversary for Marvell studies marking one hundred years since T S Eliot s appreciation of the poet inaugurated modern Marvell criticism As *Imagining Andrew Marvell at 400* reassesses Marvell s writings it also reflects on the profession of English literature taking stock of the discipline itself where it has been and where it might be going as scholars continue to map the pleasures and challenges of reading and re reading Andrew Marvell

*Talking Revolution* Franca Dellarosa, 2014 This study sheds light on a major and until now little studied Liverpool writer Edward Rushton 1782 1814 whose politics and poetics were imbued in the most pressing events and debates

shaking the world during the Age of Revolution      With Sails Whitening Every Sea Brian Rouleau, 2015-05-06 Many Americans in the Early Republic era saw the seas as another field for national aggrandizement With a merchant marine that competed against Britain for commercial supremacy and a whaling fleet that circled the globe the United States sought a maritime empire to complement its territorial ambitions in North America In With Sails Whitening Every Sea Brian Rouleau argues that because of their ubiquity in foreign ports American sailors were the principal agents of overseas foreign relations in the early republic Their everyday encounters and more problematic interactions barroom brawling sexual escapades in port city bordellos and the performance of blackface minstrel shows shaped how the United States was perceived overseas Rouleau details both the mariners working class diplomacy and the anxieties such interactions inspired among federal authorities and missionary communities who saw the behavior of American sailors as mere debauchery Indiscriminate violence and licentious conduct they feared threatened both mercantile profit margins and the nation's reputation overseas As Rouleau chronicles the world's oceans and seaport spaces soon became a battleground over the terms by which American citizens would introduce themselves to the world But by the end of the Civil War seamen were no longer the nation's principal ambassadors Hordes of wealthy tourists had replaced seafarers and those privileged travelers moved through a world characterized by consolidated state and corporate authority Expanding nineteenth century America's master narrative beyond the water's edge With Sails Whitening Every Sea reveals the maritime networks that bound the Early Republic to the wider world      **Handbook Global History of Work** Karin Hofmeester, Marcel van der Linden, 2017-11-20 Coffee from East Africa wine from California chocolate from the Ivory Coast all those every day products are based on labour often produced under appalling conditions but always involving the combination of various work processes we are often not aware of What is the day to day reality for workers in various parts of the world and how was it in the past How do they work today and how did they work in the past These and many other questions comprise the field of the global history of work a young discipline that is introduced with this handbook In 8 thematic chapters this book discusses these aspects of work in a global and long term perspective paying attention to several kinds of work Convict labour slave and wage labour labour migration and workers of the textile industry but also workers' organisation strikes and motivations for work are part of this first handbook of global labour history written by the most renowned scholars of the profession
