## **Many Faces Of National Security In The Arab World:**

*The Many Faces of National Security in the Arab World* Rex Brynen, Bahgat Korany, Paul Noble, 2016-07-27 Two Gulf wars and the continuing Arab Israeli conflict have highlighted the salience of military factors in the Middle East This book argues however that many of the most serious security challenges to Arab states and societies are rooted not in external military threats but in the imperatives of socio economic development Contributors examine the regional security environment the social and political impact of regional militarization and underdevelopment as a source of regional insecurity *Thinking International Relations Differently* Arlene Tickner, David L. Blaney, 2013-03-01 A host of voices has risen to challenge Western core dominance of the field of International Relations IR and yet intellectual production about world politics continues to be highly skewed This book is the second volume in a trilogy of titles that tries to put the international back into IR by showing how knowledge is actually produced around the world The book examines how concepts that are central to the analysis of international relations are conceived in diverse parts of the world both within the disciplinary boundaries of IR and beyond them Adopting a thematic structure scholars from around the world issues that include security the state authority and sovereignty globalization secularism and religion and the international an idea that is central to discourses about world politics but which in given geocultural locations does not necessarily look the same By mapping global variation in the concepts used by scholars to think about international relations the work brings to light important differences in non Western approaches and the potential implications of such differences for the IR discipline and the study of world politics in general This is essential reading for anyone who is concerned about the history development and future of International Relations

**Redefining security in the Middle East** Tami Jacoby, Brent Sasley, 2018-07-30 This electronic version has been made available under a Creative Commons BY NC ND open access license For over five decades the Cold War security agenda was distinguished by the principal strategic balance that of a structure of bipolarity between the United States US and the Soviet Union USSR This book seeks to draw from current developments in critical security studies in order to establish a new framework of inquiry for security in the Middle East It addresses the need to redefine security in the Middle East The focus is squarely on the Arab Israeli context in general and the Palestinian Israeli context in particular The character of Arab Israeli relations are measured by the Israeli foreign policy debate from the 1950s to the 1990s A dialogue between Islam and Islamism as a means to broaden the terrain on which conflict resolution and post bipolar security in the Middle East is to be understood is presented The Middle East peace process MEPP was an additional factor in problematizing the military strategic concept of security in the Middle East The shift in analysis from national security to human security reflects the transformations of the post Cold War era by combining military with non military concerns such as environmental damage social unrest economic mismanagement cultural conflict gender inequity and radical fundamentalism By way of contrast to realist international relations IR theory developing world theorists have proposed a different set of variables to explain the

unique challenges facing developing states Finally the book examines the significance of ecopolitics in security agendas in the Middle East

**Regional Insecurity After the Arab Uprisings** E. Monier,2015-06-11 This book presents an in depth exploration of the impact of the Arab Uprisings on the relationship between constructions of in security narratives of threat and patterns of socio political change within the Middle East and North Africa region It also offers insights into the study of regional security and the operation of threat perceptions

Regional Security in the Middle East , *Regional Security in the Middle East* Pinar Bilgin,2004-09-09 This is an accessible yet critical analysis of regional security in the Middle East Using a non realist approach Bilgin provides a comprehensive study of the past present and future of security in the region She also considers the question of identity formation explaining how and why various regional representations came into being and explor

Inter-Arab Alliances Curtis R. Ryan,2009-01-04 There is a method to the apparent madness of Arab politics In a region where friends can become enemies and enemies become friends seemingly at the drop of the hat Curtis Ryan argues that there is logic to be found Through fourteen years of field research and interviews with key policy makers Ryan examines the remarkably stable Jordan as a microcosm of the region s politics He traces the last four decades of Jordanian foreign policy in an attempt to better understand what seems like chaos What Ryan finds is an approach that is fundamentally different from alliances made in the West in both how and why they are made With governmental change and upheaval occurring on a seemingly regular basis Arab nations approach diplomacy with much different means and potential ends The impact of this diplomacy is arguably the most immediate in the world today as conflict with words and conflict with weapons are sometimes separated by mere days The topic of international relations in the Arab world is as complex as it is important Ryan gives the reader the theoretical background and shows its direct applicability through the foreign policy of Jordan

**Israel's National Security** Efraim Inbar,2007-12-21 This volume presents a comprehensive analysis of Israel s security challenges since the 1973 October War Efraim Inbar takes the reader on a historical journey through Israel s relations in the Middle East that begins with an analysis of Israel s strategic thinking after 1973 and ends with an important look at the recent Second Lebanese War and the Iranian nuclear challenge Israel s National Security delves not only into Israel s responses but also its relationships in the international community providing a complete picture of how Israel s strategic environment has evolved over time Relevant to today s current political atmosphere the volume dissects the influences of the growing appeal of Islamic extremism on the peace process Israel strategic partnerships with India and Turkey and Israel s relations with the Palestinians

**The Arab Uprisings Explained** Marc Lynch,2014-08-05 Why did Tunisian protests following the self immolation of Mohammed Bouazizi lead to a massive wave of uprisings across

the entire Arab world Who participated in those protests and what did they hope to achieve Why did some leaders fall in the face of popular mobilization while others found ways to survive And what have been the lasting results of the contentious politics of 2011 and 2012 The Arab uprisings pose stark challenges to the political science of the Middle East which for decades had focused upon the resilience of entrenched authoritarianism the relative weakness of civil society and what seemed to be the largely contained diffusion of new norms and ideas through new information technologies In this volume leading scholars in the field take a sharp look at the causes dynamics and effects of the Arab uprisings Compiled by one of the foremost experts on Middle East politics and society The Arab Uprisings Explained offers a fresh rethinking of established theories and presents a new framework through which scholars and general readers can better grasp the fast developing events remaking the region These essays not only advance the study of political science in the Middle East but also integrate the subject seamlessly into the wider political science literature Deeply committed to the study of this region and working out the kinks of the discipline the contributors to this volume help scholars and policymakers across the world approach this unprecedented historical period smartly and effectively

*The State and Global Change* Hassan Hakimian,Ziba Moshaver,2020-08-11 Economic liberalisation and reform are widely considered as the favourite remedies for the declining economic fortunes of the Middle Eastern and North African states in the past two decades International economic institutions have been among the main advocates of transition to market led economies in the region and a force contributing to its realisation This has placed the state at the centre of the proposed transformations acting both as an instrument of and an obstacle to change With attempts at liberalisation worldwide spanning over twenty years the time is ripe for a re evaluation of its premises and outcome The essays in this volume debate the political economy of transition and reforms in the Middle East and North Africa drawing on interdisciplinary approaches and outlooks involving international regional and national levels of analysis The three central themes of the book are the rationale and strategies for reform the processes and outcomes and the nature of the state in the changing global setting

**Building Regional Security in the Middle East** Emily B. Landau,Tamar Malz,Zeev Maoz,2004-11-23 Discussions on regional security were initiated in the Middle East in 1992 as part of the Middle East peace process The collapse of the Oslo process and other regional developments in the latter half of the 1990s have diminished hopes that the initial gains made in this direction might further develop as violence has again become the primary mode of effecting political changes in the region On the backdrop of this somewhat dismal current reality in the Middle East the rationale for this volume is that research into regional security structures should nevertheless be pursued When looking at the long term process of creating regional security setbacks are not unlikely The articles that make up this collection focus on the problems that have been encountered and possible directions for getting regional efforts back on track A special issue of the Journal of Strategic Studies

Persistent Permeability? Bassel F. Salloukh, 2017-03-02 With the collapse of the Middle East peace process the war on terrorism and US led intervention in Iraq the question of Middle East regionalism s has reached a new salience Will such developments usher in a new wave of transnational politics as events reverberate through a Middle East made even more permeable by new information technologies and transregional religious networks Or will authoritarian states successfully insulate themselves from such effects What impact will globalization have on local identities and local politics To what extent might issues of regional permeability be mediated by class gender ethnicity population migration or other factors The contributors to Persistent Permeability address such questions from a variety of analytical perspectives In doing so they offer a valuable contribution essential for all those interested in Middle East politics and international relations

**Troubled Waters** Mehran Kamrava, 2018-05-15 Troubled Waters looks at four dynamics in the Persian Gulf that have contributed to making the region one of the most volatile and tension filled spots in the world Mehran Kamrava identifies the four dynamics as the neglect of human dimensions of security the inherent instability involved in reliance on the United States and the exclusion of Iraq and Iran the international and security policies pursued by inside and outside actors and a suite of overlapping security dilemmas These four factors combine and interact to generate long term volatility and ongoing tensions within the Persian Gulf Through insights from Kamrava s interviews with Gulf elites into policy decisions the consequences of security dilemmas the priorities of local players and the neglect of identity and religion Troubled Waters examines the root causes of conflicts and crises that are currently unfolding in the region As Kamrava demonstrates each state in the region including Saudi Arabia Iran and Qatar has embarked on vigorous security producing efforts as part of foreign policy flooding the area with more munitions thereby increasing insecurity and causing more mistrust in a part of the world that needs no more tension

Mubarak to Morsi explores an area rarely touched upon by researchers the relationship between regime security and the national interest Concentrating on Egyptian foreign policy under President Hosni Mubarak this book analyses how it was used to bolster his internal hold on power In considering Egyptian foreign policy two central case studies are examined Firstly Egypt s reluctance to re establish diplomatic ties with Iran and secondly Egypt s response to the efforts of the Bush administration in promoting political reform in the Middle East When examining these case studies the impact of different societal factors on decision making is taken into consideration highlighting the role of business groups and the security apparatus in foreign policy decision making Concluding with a discussion of Egypt s foreign policy in the first year of Mohamed Morsi s rule and arguing that it has departed little from Mubarak s policy this book is a vital resource for anyone interested in contemporary Egyptian politics Middle East Studies and International Relations more broadly Kuwait Amid War, Peace and Revolution Lori Plotkin Boghardt, 2006-10-31 This book explores Kuwaiti internal security challenges of terrorism sabotage and subversion and using untapped Kuwaiti government sources examines policy responses such as mass deportations and special security trials The study details how turmoil in neighbouring states and religious tensions threaten Kuwait s environment **Dialogues in Arab Politics** Michael N.
